SEARL'S "Sovereign"

SEEDS
PLANTS
FLOWERS

FOREWORD

THE ASSOCIATIONS OF A GARDEN

Are such as to inspire an enlightened, cultured, and contented mind, and the pleasant and interesting attention bestowed upon the growing plant—from the first appearance of the tiny struggling seed-leaves to the gloriously developed blossom—is a source of untold wonderment and constant delight.

Apart from the beautiful manifestation of colour and perfume, the pleasant labours involved in the cultivation afford both a healthy and satisfying recreation.

The commercial side must not be overlooked, and a little daily attention to the vegetable section will prove both a pleasurable and remunerative proposition.

Knowing full well that success depends mainly upon the quality of seed sown, we play our part faithfully and conscientiously in this direction by supplying seed of the highest possible standard, all of which has been subjected to a rigid out-door vitality test at our own nurseries. Your interests are always of first importance, and our advice is ever at your service.

Having our own extensive nurseries places us in the happy position of being able to impart to you the results of our practical experience, and we are always open to advise and instruct you in cultivating the beautiful, and “scattering plenty o’er a smiling land.”

SEARL & SONS

YOUR ATTENTION

Is directed to the illustrations appearing in this Catalogue, which portray some small conception of what our business actually embodies.

Reproductions of recent photographs of our LANDSCAPE GARDENING convey excellent ideas of the possibilities of this most important branch, whilst the SEED PACKETING, COUNTRY ORDER and SEED-TESTING DEPARTMENTS, together with a series of NURSERY VIEWS, complete an interesting record of the daily trend of SEARL’S “SOVEREIGN” SEEDS, PLANTS AND FLOWERS.

Terms of Business.

ORDERING, ADDRESS, Etc.

When giving orders, send name and address in full, with directions as to route, and to whose care goods must be consigned. Please use the Order Form in this Catalogue.

WE CAN SELECT FOR YOU.

When the choice of varieties is left to us we select the most desirable colours and varieties, all correctly labelled.

PLANT ORDERS.

All orders received are subject to the possibility of some plants not being in stock at the time. All varieties cannot be had at all times of the year. If we have not the varieties required in stock, careful substitution will be made. When customers do not desire this, they should add a few extra names for the purpose of enabling us to complete the number of plants ordered.

OUR PACKING.

We shall at all times see that goods are well and securely packed, **but after despatching such goods our responsibility for any loss, damage or mis-carriage ceases.**

CARRIAGE OF GOODS.

Retail Orders for Vegetable and Flower Seeds (except heavy goods, such as Peas and Beans, either in packets or in bulk) are sent **post free** to any part of the Commonwealth. The railage or freight on a rail or steamer journey for Potatoes, Plants, Flowers, Fruit Trees, or Implements (either alone or as part of general order) is charged to our client.

POSTAL CONVENIENCES.

The Parcels Post System is simple and economical for the despatch of Seeds, Plants and Cut Flowers, and we receive very flattering testimonials as to arrival of Flowers and Plants in good condition.

LOST ORDERS.

Letters are sometimes lost in the post. If you do not get our reply to your order within a reasonable time, please send us a duplicate order, stating when and in what form order was sent, and sign the same name and address as in the first order, so that it may have immediate attention.

HOW TO REMIT.

By Crossed Cheque (on any Bank), Postal or Post Office Order, payable at Sydney. Small amounts may be remitted in stamps. No receipt sent for sums of 2s. 6d. unless stamp is enclosed to cover postage. Do not send coin in a letter.

CREDIT.

To our established customers, retail accounts are rendered quarterly, but we expect prompt payment on receipt of account. Orders from unknown purchasers must be accompanied by a remittance, or a satisfactory Sydney reference.

All Communications should be addressed to the Firm, at 86 King Street, Sydney, and not to individuals.

We want your business. No order too large or too small to receive personal and prompt attention.

Correspondence Invited.

Conditions of Sale.

We believe that all Seeds, Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality, or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms, they are at once to be returned to us.

SEARL'S SOVEREIGN SEEDS—Good as Gold

OUR SEED DEPARTMENT

Seed Packing Room.

Seed Packing Room.

Mail Order Department.

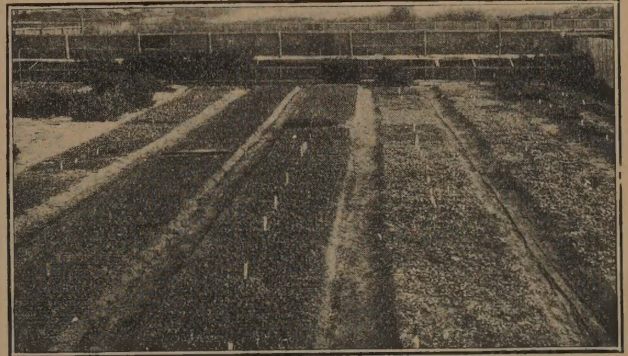

SEARL'S SOVEREIGN SEEDS, both flower and vegetable, embody the finest strains procurable, are all hand cleaned, and show an exceptional vitality test.

After being carefully tested (Out-doors) for satisfactory growth at our own nurseries, **SEARL'S SOVEREIGN SEEDS** are finally packeted under the **Strictest Supervision**, each lot being subjected to a rigid inspection before being actually placed in the packet.

Our trade mark "**THE SOVEREIGN**" faithfully depicts sterling value and quality, and we might venture to remark that it would be hard indeed to find seeds of a **superior quality** to those which we offer.

How our Seeds are Tested. The fairest possible trial is the Out-door Test (Botany).

Flower Seedlings growing in the open beds (Botany). Our Seedlings are noted for their wonderful hardiness.

SEARL'S Sovereign Vegetable Seeds

All packets of SEARL'S "SOVEREIGN" SEEDS are stamped with the year of issue, and our "SOVEREIGN" TRADE MARK is evidence of their freshness and merit. If you desire the Best Vegetables, BUY SEARL'S RELIABLE "SOVEREIGN" SEEDS. We send them, POST PAID, except Peas and Beans.

ARTICHOKE

6d. per packet.

CULTIVATION.—Sow in light beds of soil in March or September, and then transplant during the following autumn or spring into rows four to six feet apart, and four feet apart in the rows. They should then produce heads fit for use the following season. It is the fleshy part at the base of the flower-heads only that is used.

Large Purple Globe.—A favourite French variety. Plants, 9d. each; 6s. per doz. See Culinary Plants.

Large Green Globe.—Large Globular heads; of good flavour; the best for ordinary use. (Plants, 9d. each; 6s. per doz.). See Culinary Plants.

Jerusalem.—Not produced from seed. For Tubers, see Culinary Plants on page 8.

ASPARAGUS (CULINARY)

6d. per packet.

Searl's Giant White. **Conover's Colossal.**

CULTIVATION.—A delicious edible-stemmed garden vegetable, easily raised from seed. Sow the seed in July and August, and transplant in autumn. The soil, a deep sandy loam, well trenched, ought to be given a good dressing of stable manure and salt. In the autumn of the second year the plants should be lifted and replanted. Seaweed (decayed) is used largely for manuring.

See Culinary Section (page 8) for Roots.

BEANS

BROAD BEANS.

9d. per lb. (postage 9d. extra); 6d. per packet (postage 3d. extra).

CULTIVATION.—A highly nutritious vegetable when the seeds are eaten young and fresh. Sow seed February to July, in drills 4 feet apart, and 12 inches from plant to plant. The soil should be a strong loam, and even of clayey substance. When they come into flower tops require pinching to make the pods set.

Broad Windsor.—Largest-seeded Broad Bean grown; bears immense crops.

Early Long Pod ("Hangdown").—Favourite with market gardeners.

Searl's Giant Long Pod.—An abundant bearer; excellent flavour.

BUTTER BEANS.

1s. per lb. (postage 9d. extra); 6d. per packet.

CULTIVATION.—Sow from September to end of January in rows 2 feet apart, and 6 inches from plant to plant for the dwarf sorts, which only grow from 18 to 24 inches. Mont d'Or, the tall-growing variety, assumes a height of 6 feet (climbing).

Searl's Brittle Wax.—A good wax-pod variety; very early maturing, being two weeks ahead of other varieties; very heavy cropper.

Mont d'Or, or Golden Butter (Tall).—This Bean, known as "Wax Pod," grows about 6 feet; pods of great substance, remarkably tender, and of fine flavour.

Searl's "Sovereign" Stringless (Golden Pod).—A strong, bushy-growing dwarf black-seeded variety. Very vigorous and productive; quite stringless, and of fine flavour.

The "Startler" (Golden Pods).—The pods are 6 inches long, perfectly stringless, delightful buttery flavour; plants about 12 to 18 inches high; abundantly prolific.

FRENCH BEANS.

1s. 6d. per lb. (postage 9d. extra); 6d. per packet.

CULTIVATION.—Start to make successive sowings when all danger of frost is over, of the dwarf sorts, up to the end of February, in a suitable climate. A good loamy soil that has been well enriched, will produce satisfactory results. These Beans bear in great profusion, and when carefully picked continue to bear through the summer.

Dwarf Varieties.

Burpee's Stringless Green Pod.—The pods are stringless, long and nearly straight. A first-class variety, very little labour being required in preparation for the table. Very early and prolific bearer; excellent quality; quite distinct.

Canadian Wonder.—Very long pods; excellent flavour; wonderful bearer, very hardy; always grown by market gardeners. The best green-pod French Bean grown.

Climbing Varieties.

6d. per packet.

Kentucky Wonder.—A very prolific bearer, produces beans 8 to 9 inches long in clusters.

"Sutton's Epicure," True Stock.—The way they bear is quite a surprise to everyone that has seen them growing. The plants are very strong growers, growing to a height of 8 feet. After the Canadian Wonder in appearance and flavour.

Runner Varieties.

Scarlet Runner.—Suitable for the colder districts of the State; fine quality; tall grower.

White Dutch.—Large and fine; tall grower.

LIMA BEANS.

1s. 3d. per lb. (postage 9d. extra); 6d. per packet.

CULTIVATION.—Sow during September, October, November and December; prefers a good loamy soil, well enriched. Sandy soil will produce good results if liberally treated. The dwarf sorts should be sown in rows two feet apart and six inches from plant to plant. The tall varieties require stakes about 8 feet high. They are highly nutritious. The flavour is most delicious and quite distinct from any other vegetable. The Beans are shelled before cooking, and served with butter. When ripe are used like the Haricot.

Burpee's Dwarf.—The best dwarf type of this delicious vegetable. Plants from 18 to 24 inches high; they spread into some 3 feet in diameter.

Henderson's Dwarf.—A bush variety (18 inches high), selected from the Tall Lima; keeps on bearing during the summer if the pods are kept well picked.

King of the Garden (Tall).—The best of the tall-growing varieties; pods are large and well filled, and are produced in great abundance. The quality is all that can be desired.

MADAGASCAR BEANS.

6d. per packet.

Black Seeded.—A much smaller seed than the true species. A very useful vegetable.

True.—A splendid Bean, much sought after by those who know it; grown not alone for the fruit it produces, but it makes an excellent climber for shutting out unsightly places. Sow in the spring.

BEET

1s. per ounce; 6d. and 3d. per packet.

CULTIVATION.—Sow the seed in rows 24 inches apart, thinning out so as to leave a space of 12 inches between each plant. From July to December, and again in February and March, are the best months to sow. The aim of the cultivator is to get shapeliness of root, quality and colour; a deep loam will help the grower to do this.

Burpee's Improved Blood Turnip.—Globular shape, bright blood red; flesh close and of excellent texture; tops small; a valuable introduction.

Eclipse.—A very early variety, dark red, perfectly round; excellent for domestic use. Close grained and finest quality.

Egyptian (Turnip Rooted).—Very flat in shape, having blood-red flesh and being a very fast grower; very early.

Searl's Early (Turnip Rooted).—A beautiful deep crimson, round variety. Grown largely by market gardeners.

Nutting's Dwarf Long Red.—An old favourite sort of medium size, solid and fine coloured. 12 inches long.

Searl's Long Blood Red.—One of the finest table Beets. Short and crisp in the grain; beautiful deep rich colour; tender, of fine flavour. 12 inches long.

SPINACH BEET

1s. per ounce; 6d. and 3d. per packet.

CULTIVATION.—Sow seeds in rows in autumn and spring. This is grown for the leaves only, the roots being worthless. The green leaves, if cooked like Spinach, are nearly equal to it, and the broad white stems, served with white sauce, are delicious when flavoured with celery seed. Comes to maturity quickly.

Giant Seakale.—An improvement on the Silver Beet, and has large leaves and broader mid-ribs. Its pure white stalks, when cooked, are not unlike Seakale.

Silver Spinach Beet.—The old favourite variety, which yields a continuous supply of Spinach Leaves during the summer.

SEARL & SONS

VEGETABLE SEEDS

SYDNEY

BORECOLE OR KALE

1s. 6d. per oz; 6d. and 3d. per packet.

CULTIVATION.—First sow in seed beds and afterwards treat as cabbage. Sow from January to June, and transplant into rows two feet apart, 18 inches in the rows. Likes a well-worked, rich soil, with liberal manuring.

Dwarf Green Curled.—Only suitable for the colder districts of the State. An excellent winter vegetable, highly esteemed in England for winter greens, as it is rendered more tender by the frost and snow lying upon it, which, of course, will cut it down if very severe. 1s. 6d. per oz.

Thousand Headed.—Suitable for growing as green crop for cattle, sheep and poultry. 6d. oz.

BROCCOLI

2s. per ounce; 6d. and 3d. per packet.

CULTIVATION.—Sow for a main crop either in December, January, or February, and again in June and July. Plant out as seedlings two feet apart each way, and to ensure good results the soil must be good, strong, and well manured. They are decidedly more at home in the cooler parts. For Plants, see Culinary Plants, page 8.

Adams' Early White. **Evesham Giant White.**
Knights' Protecting. **Walcheren.**

BRUSSELS SPROUTS

1s. 6d. per ounce; 6d. per packet.

CULTIVATION.—One of the most prolific, hardiest and useful members of the Brassica family; a favourite in England. Sow February to July. Prick out from the seed beds, finally placing the plants two feet apart in rows three feet apart. A good retentive soil is the best. For plants, see Culinary Roots, page 8.

Matchless.—Early, very fine and tender.

CABBAGE

1s. per ounce (except where otherwise marked); 6d. and 3d. per packet.

CULTIVATION.—Strong loam produces the finest Cabbages. Two successive crops should not be planted in the same ground, or after any of the Brassica family. Seeds should be sown January to June, and again from August to October for most varieties. Sow in a bed and transplant into rows two feet apart and 18 inches between each plant.

Autumn King or Worldbeater.—The finest late Cabbage. It is quite distinct, as its outer leaves are of a glaucous green colour, crimped. It produces enormous hearts. Excellent for market or private use.

Burpee's All-Head Early.—A short-stemmed variety, of good, compact growth, with but few spreading leaves. We recommend this for early planting, and place it next to the favourites "Succession" and "St. John's Day." 2s. 6d. oz.

Chinese Cabbage (Pe Tsai).—The leaves are loose and resemble Spinach. Much esteemed by both Chinese and Europeans.

Copenhagen Market.—A very early ball-shaped variety, it is unrivalled as the most early and large headed. Average weight, 10 lbs. 1s. 6d. oz.

Drumhead.—Late Cabbage, immense size; fine winter variety.

Early Dwarf York.—Small, but very early, good flavour.

East Ham.—Excellent marketable variety for autumn and winter crop, large, firm, and white-headed.

Improved St. John's Day (Early).—One of the finest summer Cabbages; will heart during the hottest months, and produce large solid heads. It can be sown at any time of the year, although it is better and larger in summer.

Large White Brunswick.—A splendid large summer variety, not quite so subject to aphids as some varieties.

Large York.—Medium size, of fine quality, and very early.

London Market.—Splendid sort for general crop; white firm hearts.

Pedigree.—One of the best market varieties grown; good solid hearts.

Red Dutch or Pickling Cabbage.—The best pickler; a grand variety; large; colour, intense blood-red; excellent strain.

Searl's Perfection.—This variety has attracted considerable attention, and is unrivalled as the most equally maturing and large heading early Cabbage. The heads are remarkably solid, of fine quality, and small cores, with an average weight of about 10 lbs., but heads of 15-16 lbs. are very frequent. 1s. 6d. oz.

Succession.—A very fine Cabbage, and one that we can recommend with the greatest confidence. 3s. per oz.

Sugarloaf.—Most delicate flavour, excellent for private use.

SAVOY CABBAGE

1s. 6d. per ounce; 6d. and 3d. per packet.

CULTIVATION.—Same as other Cabbage. These excellent Curled Cabbages do remarkably well in the cooler parts of our State. They have a distinct flavour of their own. At their best during cold frosty weather, when they revel in being covered with it. Not recommended too highly for suburban gardens.

Drumhead. **Dwarf Green Curled.**

CARROT

Finest Rubbed Seed. 1s. per ounce; 6d. and 3d. per packet.

CULTIVATION.—Select the sandiest and sunniest part of the garden. A good deep, sandy loam, rich and light, is the best. The roots cannot thrive in a wet, heavy soil. Freshly-manured ground should be avoided, to prevent forking and bad shape. Sow the seed in drills 12 inches apart, in July, and for the main crop in September, thinning the plants out so as to leave six inches from plant to plant. Small intermediate sowings may be made in January and February.

Improved Scarlet Intermediate.—Of fine size and shape, with short top; early and excellent.

Early Short Horn.—Good colour and quality. Very early, and a great favourite for table use.

Large Red Altringham.—Long red; too coarse for domestic use; excellent field carrot for horse feed.

Searl's Earliest of All.—Very quick in growth, good for forcing, small, very tender; by far the earliest maturing carrot grown.

St. Valery.—A splendid scarlet Carrot, longer and thinner than "Intermediate." A great favourite with the gardener, being of perfect shape.

CAPE GOOSEBERRY

3d. and 6d. per packet.

Sow in September, and prick out in a row along a warm, sheltered border in rich soil, say two feet apart. The plants can be stopped by pricking out the tops of the shoots occasionally, to induce a sturdy bushy growth. These, if once tried, we feel sure would be more sought after. Of the simplest culture, they will appeal to most folks.

Cape Gooseberry (Physalis Edulis).—Can be used for dessert; makes a delicious jelly; suitable for jam making.

Giant Cape Gooseberry (Physalis Francheti).—Japanese Winter Cherry. A variety of Cape Gooseberry from Japan; of erect habit, grows from one and a half to two feet. The fruit is edible and makes a choice preserve. It is first green, changing to yellow, orange, and bright crimson, and will ripen after it is cut.

CAULIFLOWER

2s. 6d. per ounce; 6d. per packet.

CULTIVATION.—Sow in a light rich soil in December, January, February and March. The plants should not be allowed to cramp each other or become stunted. If possible, wait for dull, showery weather to plant out. Plant in rows two feet apart, three feet between the rows. Do not plant on same ground two years in succession.

Early London.—A first-class early variety. Fine white heads, not liable to button; for private garden one of the best; a very old favourite.

Large Asiatic.—A large variety, of fine quality, for private use and for market; of excellent colour and very hardy.

Veitch's Autumn Giant.—First-class variety, producing magnificent, very large, snow-white, firm heads; plants are of vigorous growth, requiring plenty of room. Tons of this variety are sold in Sydney market, and no variety is more grown or better known in Europe.

Walcheren.—Good reliable sort, and a favourite with some growers; medium early.

White Queen.—One of the earliest in cultivation. Very dwarf, luxuriant foliage. Very solid heads of the purest white.

NOTE.—5s. per ounce in bulk.

CELERY

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Abundance of moisture and liberal supplies of food are necessary, for Celery is a glutton among vegetables. Sow for a main crop in September and October. Seed beds for this sowing should not be too rich. A later sowing (say in December or January) may be made. Open the trenches well, say 18 inches wide and of a like depth; stack the soil on either side, to be ready for drawing back into the trenches as the plants progress. In the bottom of trenches place about six inches of stable manure, partially rotted, and fork it well into the soil. Cover this with a couple of inches of the good soil previously thrown out, and water copiously the night before planting. Then carefully raise the plants from the seed-bed, and plant along the centre of the trench, about nine inches or ten inches apart. Weed often, and draw in soil as the plants advance, taking care that the hearts of the plants are not buried; continue to do so until the plants are full grown and the trench is nearly filled up. Keep plants going with water, when in a young state, if necessary, and use liquid manure; the Celery stalks will then be well blanched and tender.

WHITE VARIETIES.

Searl's Giant Solid White.—As the name implies, this variety has giant white stalks, crisp and sweet.

Cole's Crystal White.—Large and fine quality; crisp and well-flavoured.

CELERIAC (TURNIP-ROOTED CELERY)

1s. per oz.; 6d. and 3d. per packet.

Much harder than the ordinary Celery, and develops a base somewhat like that of Kohl-Rabi. It is excellent for soups and stewing. Sow in September and October, and treat same as Kohl-Rabi. It requires about eight inches of space all ways.

SWEET CORN (Table Maize)

1s. per lb. (post free, 1s. 9d.); 6d. per packet, post free.

This delicious vegetable is not sufficiently appreciated here. The cobs should be cooked when they are quite soft and tender, like green peas. Plant in September and October, in rows three or four feet apart, and one foot in the rows. Sweet corn will succeed in any moderately rich garden soil. It should be hoed and hilled when about a foot high.

Early Mammoth.—Best early variety.

Howling Mob.—One of the best. Very large cobs.

Seymour's Sweet Orange.—Mid-season variety, grows 6 to 7 feet high. The ears are 6 inches in length; a very good variety.

CRESS

6d. per ounce; 6d. and 3d. per packet.

CULTIVATION.—Cress being slower growing than Mustard, it must be allowed three days longer if both are needed at the same time. Cress has a much more delicate flavour than Mustard. So hardy and free rooting is the Water Cress that anyone may grow it in a very moist or wet corner of the garden.

Triple Curled Cress may be sown every two or three weeks (with or without Mustard) the whole year round.

American or Land.—A splendid variety during winter.

Triple Curled.—The old English favourite, largely grown with Mustard; making excellent salad.

Watercress (*Nasturtium Officinale*).—Sow in moist land, or on a creek bank.

CUCUMBER

6d. and 3d. per packet.

CULTIVATION.—Make a first sowing in the open ground about the middle of August, successional sowings in September and October, but in the colder districts six weeks later. The soil must be well and deeply worked, and made very rich to produce fine Cucumbers; three plants to each hill will be enough, and these should be about six feet apart; the ground should be mulched with manure, and the plants watered if necessary. In all cases the points of the shoots should be pinched out when the plants are in flower, to cause the fruit to set.

Apple-shaped.—Singular variety, round in shape, fine white tender flesh; a profuse bearer.

Choice Long Green.—Excellent variety; fruit eight inches long, of fine flavour.

Commercial.—Early, hardy; very productive; dark-green fruit, fine; 6 to 8 inches long; does not run much to vine.

Fordhook Pickling.—Considered by some growers the best pickling Cucumber; a strong vine, and fruits produced in enormous quantities; thin skin, and fine quality flesh; few seeds.

Green Gherkin.—Very small fruit, used only for pickling.

Long Green Prickly.—Fine size, deep green colour, crisp and delicious; a favourite.

Searl's White Spine.—Short white variety, early cropper, and of good quality.

Short Green Prickly.—A favourite with most growers; very hardy; good sort for small gardens.

EGG PLANT

6d. and 3d. per packet.

CULTIVATION.—Sow in September and plant out in rows two feet apart, and the same distance from plant to plant. Shade and water until the plants are established. When the fruits are set, remove all but from eight to twelve on each plant—that is, allow only a single fruit to mature on each shoot. The young plants should be stopped to induce branching. The fruit is egg-shaped.

Improved New York Purple.

Improved White Giant.

ENDIVE

(WINTER SUBSTITUTE FOR LETTUCE)

6d. and 3d. per packet.

CULTIVATION.—A hardy plant, chiefly cultivated for salad purposes, though the broad-leaved or Batavian Endive is sometimes cooked as a vegetable. Any garden soil which has been deeply dug and made moderately rich by the addition of manure, is suitable. Sow in February and March, and plant out when fit in rows two feet apart and one foot from plant to plant; when the plants are well advanced, tie the leaves into a bunch, surrounding the hearts, to blanch and keep them tender.

This salad plant, when well grown and blanched, is by some preferred to Lettuce.

Batavia.

Green Curled.

GOURDS (Ornamental)

6d. and 3d. per packet.

CULTIVATION.—Sowings can be made from September to November, and cultivate same as Cucumbers or Marrows. This curious family, the fruit of which is most fantastic in shape, should be more largely grown. The foliage is handsome, and the plants are of rapid growth; highly ornamental climbers, and the Dish-Cloth Gourd bears a fruit which is most useful.

Dish-Cloth Gourd (*Loofa* or *Vegetable Sponge*).—This Gourd has lovely dark green foliage, with large yellow blossoms; the fruit is about two feet in length, and the woody fibre lining of the inside of the fruit when ripe and properly dried is the Dish-cloth. They are also most useful in the bath as a flesh rubber, and are far superior to any other flesh glove.

Mixed Gourds.—All the best sorts, including Orange, Pear, Portmanteau and Club varieties.

Nest Egg.—A very pretty climbing plant, for trellis or verandah, bearing very profusely; fruit the size, shape and colour of the ordinary hen's egg. Can also be used as a Vegetable Marrow.

HERB SEEDS (Culinary)

6d. and 3d. per packet.

CULTIVATION.—The culture is exceedingly simple. Sow seed in autumn and spring; and for the most of them it is advisable to sow in pans or boxes, or in some place where attention and water can be given them, and where they can be gradually hardened off and planted out as soon as they are strong enough.

Marjoram, Sweet.—Used in soups and stuffings.

Sage.—Used in stuffings and sauces.

Thyme.—For soups, sauces and stuffings.

Anise
Borage
Chicory
Corehound
Purslain
Lavender, French
and English

Sorrel
Wormwood
Balm
Caraway
Coriander
Hyssop

Dill
Pennyroyal
Savory, Summer
Savory, Winter
Tarragon

KOHL-RABI (TURNIP-ROOTED CABBAGE)

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow January and March in beds, and plant out the seedlings when fit nine inches apart in rows 18 inches apart, the treatment throughout being precisely like that given to cabbages. Grows splendidly in the cooler parts. If cooked when young they make a delicious vegetable as a substitute for or a change from turnips.

Earliest White Vienna. **Large Purple.** **Large Green.**

LEEK

1s. per oz.; 6d. and 3d. per packet.

A valuable winter vegetable closely related to the Onion, but having a more delicate flavour. No culinary vegetable is of easier culture. Sow in prepared beds from March to June, and plant out in rows 18 inches apart and 8 inches in rows if the soil is rich and a large Leek is desired. When the plants are six inches high they are fit for planting out.

London Flag.—A favourite Leek, and largely grown; much cultivated by growers for market.

Musselburgh.—A very large variety; when transplanted grows to an immense size.

LETTUCE

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow seeds out of doors at almost any period. For main crop, however, March, April and May. Some growers prefer sowing in a seed bed and transplanting; others sow in drills and thin out. Either method is advisable as may be convenient.

CABBAGE VARIETIES.

Deacon.—A variety of the famous Butter Lettuce, and one of the best; large heads; leaves pale green without, with beautiful rich cream yellow within; delicious buttery flavour, making a fine, fresh, crisp salad. Stands heat of summer without becoming bitter or running to seed.

Drumhead (or Malta).—The most popular variety of Cabbage Lettuce amongst Sydney market gardeners, producing fine white solid hearts during winter and spring; crisp and of fine flavour.

Iceberg.—A quick grower, with hard, handsome heads of exquisite flavour. A variety that we can highly recommend. A decided advance on the old sorts. A good winter variety.

Mammoth Salamander.—An excellent variety; large heads; beautiful tender foliage (black seeded).

May King.—This variety produces splendid globular heads which are ready ten to fourteen days before most other sorts.

Mignonette.—A very ornamental kind, the leaves being a pretty russet colour.

SEARL & SONS

VEGETABLE SEEDS

SYDNEY

LETTUCE—Continued.

New York.—Of unusual size and solidity, with but little tendency to run to seed; often growing to 18 inches in diameter, and weighing 3 lbs.; perfectly solid, crisp, tender, and of excellent flavour.

Ohio.—Early, hardy, beautiful crisp, hearts freely when young, finely curved leaves, medium size.

Searl's Exeter Surprise.—It is early, very hardy, and may safely be sown at any season. It makes a large, firm, compact Lettuce, with an almost entire absence of loose outside leaves. The colour is a pleasing pale green, the outer leaves slightly touched at the edges with delicate tinge of red.

Searl's Mammoth.—A magnificent variety; large heads; good hearting type. One we can thoroughly recommend.

Tom Thumb.—A small, compact variety, of good quality, and does not go to seed quickly.

Yellow Seeded Butter.—An American variety, with large, yellow heads. A good summer Lettuce.

UPRIGHT OR COS VARIETIES.

Paris Green Cos. Paris White Cos.

MELONS, ROCK OR MUSK

1s. 6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Rock Melon culture is somewhat like that of the Cucumber. Sow out of doors in September and October. The hills need not be so wide apart as for Water Melons, nor should the soil be so highly manured. Do not leave more than two of the strongest plants in each hole; but do not thin them out until they begin to run.

Anne Arundel.—A superb Melon, of great size and quality; flesh solid and of a beautiful green colour and delicious flavour. The netting is perfect, and, notwithstanding its size, the variety comes to maturity soon after the first earlies.

Burpee's Netted Gem or Rocky Ford.—Light green flesh, melting and sweet; a hardy variety and a good cropper; very early.

Champion Market.—A splendid variety of the Netted Gem type, producing fruit nearly three times as large; regular form being nearly round, averaging eight inches in diameter; green flesh and of the True Netted Gem flavour.

Early Hackensack.—Early; delicious, thickly-netted green skin and green flesh, deeply ribbed and flattened; 4 to 10 lbs.

Emerald Gem.—Delicious, early and prolific; a smooth-ribbed skin, emerald green colour; flesh salmon colour.

Improved Jenny Lind.—A great improvement on the old and highly esteemed Jenny Lind; the fruit is larger and keeps better, while it retains all the fine flavour and high qualities of the parent stock.

Melrose.—Oval-shaped form, free from ribs; dark green skin, changing to russet when ripe; thickly netted; light green flesh, changing to a rich salmon at the centre.

Prolific Nutmeg.—A medium-sized melon, delicious flavour; a great favourite.

Pineapple.—Highly flavoured, medium size, green flesh, and an abundant bearer.

MELONS, WATER

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sandy loam is the most suitable for this delicious fruit, but in fair seasons it will do well in any good garden soil. Sow five or six seeds in prepared hills five or six feet each way, eventually leaving only two of the best plants in each hill. The best time for sowing is September and October.

Black Spanish.—Useful variety for main crop, very juicy, good size and flavour; dark red flesh; a good early one.

Cole's Early.—Of good quality, and ranks beside the famous McIver Sugar Melon. Cole's Early is a selection from Cuban Queen; is very early, has bright red flesh, delicate flavour.

Cuban Queen.—A very large, bright, crimson-fleshed Melon, of superb quality and delicious flavour. It crops enormously.

Halbert Honey.—Delicious, sugary, rich fruity flavour. It is devoid of all fibrous substances. The sweet flesh melts in the mouth like so much honey. One we can thoroughly recommend.

Ice Cream.—White seeded, excellent, with a delicious flavour; red flesh; a late variety.

Kolb's Gem.—Light green skin, nearly round in shape; 30 to 50 lbs. in weight; flesh bright red; rich and sweet.

Kleckley Sweets.—Bright scarlet flesh, crisp and sugary; one of the most delicious varieties grown; 18 to 20 inches long; dark green skin.

Mammoth Ironclad.—Beautiful Melon, oblong, with mottled green skin; an average weight of 50 lbs.; crisp, delicious, sugary red flesh.

McIver Sugar.—Fruit is uniformly large, often two feet in length; skin shows bands of white shading into green; quality is very superior; flesh is pale pink, crisp, juicy and luscious.

Rattlesnake.—Oblong, dark and striped; bright red flesh; late sort.

Sugar Stick.—An excellent variety for market; being a good keeper; splendid shipper. Very sweet; bright red flesh. The heart is very thick owing to the seed being close to the rind.

The Dixie.—Very early variety; thin dark green skin; flesh bright red, beautifully striped; fruit oblong.

Tom Watson.—Long, dark green skin, white seeded, deep red flesh, finest flavour; ready to pick in 85 days; an excellent shipping type.

MELONS, MANGO (Egyptian)

Or VEGETABLE PEACH

6d. and 3d. per packet.

Fruit about the size of an orange, and of a delicate flavour when baked or boiled like a Vegetable Marrow. A very productive plant.

MELONS, PRESERVING

1s. per oz.; 6d. and 3d. per packet.

Citron.—A round variety, with red seeds. It is excellent for jam making.

Long Green.—Excellent for jam or pie making, but cannot be used without cooking.

MUSTARD (Finest White)

6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Seed in hot weather should be sown in shady position. Sow in boxes with good sandy loam; keep well watered.

OKRA OR GOMBO

6d. and 3d. per packet.

CULTIVATION.—For an early crop the plants may be raised in heat in July, like Tomatoes, and planted out; the ordinary crop may be sown in September and October for succession, in drills two feet apart, and the plants thinned to the same distance. The soil should be rich and well cultivated.

Improved Dwarf.

ONION

1s. 6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—For garden culture, and to produce large bulbs, sow in rich, well-prepared soil in the months of February, March and April, transplanting during the following July and August into drills two feet apart and 10 inches in the drill. The young plants should be carefully raised from the beds, so that the fibrous roots may not be injured. The rows where the young onions are to be planted should have the soil raised in small ridges about three or four inches above the rest of the bed. After the plants have taken firm hold of the ground the ridges should be drawn away from the plants, so as to leave the whole of the bulbs exposed to the air, nothing but the fibrous roots left underground. This rule is very generally neglected, the consequence being thick-necked and imperfect bad-keeping bulbs.

Barletta.—The earliest white-skinned variety.

Brown Spanish.—A splendid variety, large and firm, largely grown for market.

Brown Globe.—Like above, with all its good qualities; in shape more globular; a fine keeper, very solid.

Extra Early Yellow Globe.—Very early, mild flavour, keeps well, moderate size; good shipping sort.

SEARL & SONS

VEGETABLE SEEDS

SYDNEY

ONION—Continued.

Giant Rocca.—A fine Onion, of Italian origin, mild flavour.

James Keeping.—One of the best; keeps well.

Silver King.—Similar to Brown Globe in shape, but larger in size, the diameter averaging about six inches; skin a beautiful silver white, mild and pleasant flavour.

Silver Queen.—A good early white skinned, long-keeping Onion, rather flat in shape; an excellent variety.

Silver Skin.—Pickling, excellent, clean silver skin; sow thick.

White Spanish.—A white variety; undoubted merit; specially adapted for salads, being of a nice mild flavour; similar in size and shape to the well-known Brown Spanish.

POTATO (OR UNDERGROUND) ONION.

1s. 6d. per oz.; 6d. and 3d. per packet.

For Sets and Bulbs, see Culinary Section (page 8).

PARSLEY

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—This herb is in constant demand for flavouring and garnishing. Sow in March and again in August or September and October. The soil should be finely worked, although Parsley will thrive in any ordinary garden soil. Places that are generally selected are edges of borders in the kitchen garden. Sow in drills, but very thinly.

Extra Triple Curled.—Fine for garnishing; one of the best; beautifully mossy.

See Culinary Section for Plants (page 8).

PARSNIP

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Parsnips prefer rather stronger soil than the Carrot, but is otherwise grown exactly like it; however, the land must be well and deeply worked. Freshly-manured land is not suitable, as it will cause the roots to fork. The rows should be two feet apart, and the plants should be thinned to 8 or 10 inches. Parsnip seed, not being a good keeper, should be sown thickly, so as to ensure plenty of plants. The autumn and spring for the main crops.

Hollow Crown.

PEAS

6d. per packet, postage extra.

CULTIVATION.—The best season for sowing for a large crop of Peas is May, June and July, but an earlier sowing may be made in March, and successive planting during winter and spring. In fair seasons, by judicious selection of varieties a constant succession may be kept for nine months, in warm localities. Peas like a strong, loamy soil—if somewhat sandy the better.

EARLY.

American Wonder.—Height one foot. A very early and very dwarf Pea, and a wonderful bearer; pods well filled; of deep green colour, and of superb flavour. 1s. 3d. lb.; postage 9d. extra.

McLean's Little Gem.—1½ feet. An excellent Pea, and one of the very best dwarfs; an abundant bearer; pods well filled; excellent flavour. 1s. 3d. lb.; postage 9d. extra.

The Daisy.—12 to 18 inches. This dwarf wrinkled variety, covered with pods five inches in length, is one of the best of the latest introductions in this class of Peas. 1s. 3d. lb.; postage 9d. extra.

Wm. Hurst.—1½ feet. One of the best dwarf Marrow Peas; large pods. 1s. 3d. lb.; postage 9d. extra.

Senator.—A good cropper; attains height of 2½ feet; a great favourite. 1s. 6d. lb.; postage 9d. extra.

MEDIUM.

Sherwood.—One of the finest dwarf varieties grown; heavy cropper, and well-filled pods. Height, 18 inches. 1s. 3d. lb.; postage 9d. extra.

Stratagem.—Height, 2½ to 3 feet. This fine wrinkled Marrow has given most excellent results; crops wonderfully; pods large and fine. A deliciously-flavoured Pea. 1s. lb.; postage 9d. extra.

Veitch's Perfection.—2½ to 3 feet. A somewhat more delicately-flavoured Pea than the Yorkshire Hero, and a little taller; not quite so hardy. 1s. lb.; postage 9d. extra.

Yorkshire Hero.—2½ to 3 feet. The most highly esteemed wrinkled Pea grown. A wonderful cropper, with abundant well-filled pods; delicious flavour and vigorous growth. 1s. lb.; postage 9d. extra.

PEPPER OR CAPSICUM (CAPSICUM ANNUM)

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow in pots or boxes in a frame or bush-house in July and August, or in beds in the open border in September or October, and plant out when the plants are three inches high—two to three feet apart; water and shade until they are established plants.

PUMPKIN

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—For garden culture, heavily manure the land and dig in deeply; give an extra dressing to the holes or hills where the seed is to be sown, and fork well in. The holes should be six to eight feet apart, and only two plants should be allowed to remain in each hill. Sow six or eight seeds in each hill, so as to guard against total loss of plants by insects.

Crown.—Choice stock, medium size, thick flesh, fine quality; good keeper and dry.

Gramma.—A very useful sort, both for cooking in various ways and for cattle or pigs' feed.

Ironbark, True.—Not large, but of fine quality; thick flesh; good flavour; excellent keeper.

Japanese.—Flesh a rich salmon colour, fine grained; very dry when cooked.

Large Button.—Fine, dry sort; good variety; fine keeper.

Mammoth Cattle.—Specially adapted for cattle and pig feed.

Turk's Cap.—A fine table variety and a good keeper; red top.

Triamble.—Three-cornered variety, specially adapted for table use; thick dry flesh.

RADISH

6d. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow in light, rich sandy soil every fortnight for succession. Use a shaded border during the summer months, and a mulching of manure on the surface, and water freely. Sow in drills or broadcast. Very useful for salads.

Black Spanish.—Very hardy and of large size, for winter use.

Celestial or White Chinese.—Flesh firm, solid white; skin creamy-white.

French Breakfast.—Red, tipped white; favourite sort.

Long Scarlet.—A splendid strain; bright coloured, crisp, and tender; favourite market variety.

Mixed Olive Shape.—A mixture of the red and white varieties.

Mixed Turnip.—A mixture of the red and white varieties.

Red Turnip.—An old favourite, brilliant crimson skin, white flesh, tender, crisp.

Scarlet Olive-Shaped.—A delicious variety; red skin with white flesh.

White Olive-Shaped.—Similar to the above; skin and flesh white.

White Turnip.—Resembling the Red Turnip in habit of growth and high quality; skin and flesh pure white.

RHUBARB

6d. and 3d. per packet.

CULTIVATION.—Sow under shelter of a few dry leafless boughs, and a manure mulch in August or September. The young plants should be kept growing with frequent waterings if the weather is very dry. Let the plants remain in seed beds until autumn, when they should be transferred to permanent beds, made of the best soil, trenched two feet deep and manured with half-decomposed stable manure. The plants should be three or four feet apart, and the whole bed dug and heavily manured every year.

Giant.

Crimson Winter.

ROSELLA

6d. and 3d. per packet.

The celebrated Queensland Rosella jam—said to be superior to the Black Currant—is made from the fleshy salyx of this handsome plant. It requires a hot climate, and is suitable for warm, sheltered situations near Sydney and on our coast. To get the plants early, so that they may have a long summer and flower freely, it should here be raised in artificial heat in June or July, and kept in pots until towards the end of September, when the plants may be planted out in rows four or five feet apart in good compost of old stable manure.

SALSIFY or OYSTER PLANT

6d. and 3d. per packet.

CULTIVATION.—This delicate vegetable thrives well in our climate, and deserves more attention. The roots are used like Carrots or Parsnips, and they can be cultivated exactly in the same manner—that is, in drills at similar distances and similar soil. After boiling till tender, serve with melted butter. Seed should be sown in August and September in drills 15 inches apart.

SCORZONERA (BLACK OYSTER PLANT)

6d. and 3d. per packet.

CULTIVATION.—This vegetable is very similar to the Salsify, and requires the very same treatment in growing. If one blanches the tops it is possible to use as Asparagus. Seed should be sown in September and October in drills 15 inches apart.

SEAKALE (Improved)

6d. and 3d. per packet.

CULTIVATION.—An uncommon vegetable, should be raised in seed beds, and when yearlings transfer to beds which have been trenched and manured to a depth of two feet, and plant from two to two and a half feet apart each way.

IMPORTANT.

Delays in Transit

We feel that we cannot emphasize sufficiently the importance of customers not only writing their names and full addresses plainly, but acquainting us with the speediest and safest route, thereby reducing the risk of delay on perishable goods to a minimum.

Although all plants and roots leaving our establishment are carefully packed and in good condition, we wish it clearly understood that we cannot accept any responsibility relating to goods arriving in a perished or damaged condition.

Forwarding directions should therefore be made as explicit as possible in order to obviate any possibility of delay in transit.

To further facilitate matters we would also ask our clients to keep the ORDER PORTION of their letters APART from the CORRESPONDENCE contained therein.

Searl & Sons

OUR MONTHLY REMINDER

Is a new departure, which we feel sure will meet with the approval of all the gardening community.

The pamphlet contains an abbreviated list of items arranged to meet the requirements of the amateur for each individual month, and should be found of great service in this direction.

It will be to your advantage to procure a copy regularly, **FREE FOR THE ASKING.**

The oft-repeated enquiry "What can I sow or plant this month?" is answered in almost as many words.

Searl & Sons

An Established Favourite

WALKER'S SELECTED RECRUIT TOMATO

WALKER'S RECRUIT GROWING AT OUR BOTANY NURSERIES.

WE INTRODUCED THIS VARIETY from the raiser two years ago, and the outcome of repeated trials at our nurseries have proved it to be the most profitable and productive tomato we have yet handled. Amateur and market gardeners alike are loud in its praises—the very encouraging testimonials we receive proving it to be a variety deserving of special mention.

DESCRIPTION.

The fruit is an ideal size for table use, being borne in huge clusters, beautifully coloured, firm, fleshy, and perfectly round, of excellent quality, the flavour being quite pronounced and distinctive.

A variety possessing all the qualities one could desire, and carrying our special recommendation.

The seed we offer is our own saving, being thoroughly matured and showing an exceptional vitality test.

TESTIMONIAL.

MESSRS. SEARL & SONS,
King Street, Sydney.

Dear Sirs,—

Just a few lines to compliment you on your "Selected Recruit" Tomato. I grew these from seed purchased from you, and, following instructions on your leaflet, retained one main stem and two laterals springing from near the ground. The plants were staked, and reached a height of 5 or 6 feet.

As regards fruiting capacity, I can only say that the tomatoes were borne in masses like bunches of scarlet grapes, about 2 dozen fruits to a bunch, and beautifully even in size. These bunches were carried all over the plants.

I can only repeat the verdict of some of my friends who have inspected these plants, viz.: "Recruits will do me for the future."

Wishing you every success,

Sydney, February 16th.

Yours faithfully,
H. H. SPRIGG.

Price 1s. per packet, post free, containing seed sufficient for over 50 plants. TESTED, TRIED AND TRUE. With full cultural directions.

"The most popular garden Tomato grown."

FOR OTHER VEGETABLE SEED NOVELTIES SEE PAGE 61.

SPINACH

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—In high favour in many gardens, its flavour being quite distinct from that of any other green vegetable. Sow in rows about 18 inches apart and thin out to about nine inches. Good rich soil is necessary to produce a succulent growth. February and March are the best months for sowing, but where moisture is obtainable, Spinach may be grown six months in the year. In gathering the leaves for use, they are taken singly from the winter crops as they get of a large size; but in the case of the summer crop, the whole plant is generally cut off close to the ground.

Round (Summer) and **Prickly** (Winter).—Two well-known varieties. Round should be grown for summer, and Prickly for winter use.

Monstrous Viroday.—A very fine large sort.

New Zealand (Tetragona Expansa).—This is a very large-leaved and improved variety, well worthy of a trial.

SQUASH

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—They require the same treatment as Cucumber. Sow August to November successively. Prepare beds as for Pumpkins, including manure and top-dressing. The seeds, however, should be planted about two feet apart and the rows about four feet apart for the bush kinds. Running kinds at the same distances as Pumpkins. They should always be boiled whole, and be well drained before being placed on the table. The following varieties are really the best sorts for cultivation here:—

Boston Marrow.—Form ovate pointed; flesh deep orange, fine grained, excellent flavour; running variety.

Crookneck (Bush).—This sort is much sought after by small growers.

Delicata.—One of the earliest of the running varieties, and very prolific; fruit small and solid, dry and rich.

Early White Bush.—Wonderful bearer, delicate flavour, compact growth.

Early Golden Bush.—Delicate flavour, wonderful bearer, compact growth.

Fordhook (Bush).—This is a delicious sort for either summer or winter use. Store in a warm, dry place for winter.

Improved Hubbard.—One of the most reliable running varieties.

Pikes Peak.—Large oval fruit, dark green skin, yellow flesh.

TOMATO (or Love Apple)

6d. and 3d. per packet.

CULTIVATION.—Sow under glass in July, when the plants will be ready for putting out in September in suitable districts, and in open during September, October and November, and plant out as soon as ready into good, strong, rich soil. Plenty of room and manure is all that is necessary to produce this favourite fruit-vegetable in abundance. We consider by far the best way to grow them is to plant in rows four feet apart each way, and grow them on poles or a trellis five feet high, regularly pinching back all the laterals to the second joint until the plants have reached the top of the stakes; then top the main stem, and continue to pinch back the laterals, and so remove all useless growth until the trellis or stakes are covered with fruit from top to bottom. During very dry weather, abundance of water is essential.

Alice Roosevelt.—Combines great earliness with perfect form; scarlet, globular, fleshy fruit of large size and excellent flavour. 2s. per oz.

Burpee's New Dwarf-Giant.—Is much the largest fruited of all the Dwarf Tomatoes. The fruit is produced in clusters of four to six, and weigh from 12 to 18 ozs. each. Colour, rich purple crimson.

Burwood Prize.—Second early. A most vigorous and hardy variety; and enormous cropper; smooth, oval-shaped fruit; a good carrier; an excellent market sort. 3s. per oz.

Chalk's Early Jewel.—A very early sort; splendid variety; an excellent keeper. 3s. per oz.

Crimson Cushion.—Large-fruited; flesh very solid and of superb flavour; a very early and prolific variety. 3s. per oz.

Duke of York.—Rich scarlet, smooth, round in shape, flesh very firm, fine flavour; ripens uniformly. 2s. per oz.

Dwarf Champion.—A beautiful red Tomato; medium size, solid, prolific, excellent; a self-supporting variety. 2s. per oz.

Dwarf Champion, Golden.—Dwarf, compact habit; the fruit is of a beautiful lemon-yellow colour. 2s. per oz.

Early Red Ruby.—Heavy bearer; very early; good form.

Golden Trophy.—Golden colour; medium size; delicate flavour. 3s. per oz.

Landreth's Earliest.—A superb variety; magnificent flavour.

Matchless.—Very large, and of the brightest cardinal-red colour; flesh nearly solid, entirely without core, and not liable to crack. 2s. 6d. per oz.

Mikado.—A red Tomato of immense size, single fruits sometimes weighing 1 lb. to 1½ lb. solid; the fruit is of a purplish-red colour; produced in clusters.

Ponderosa.—A splendid large red variety, of immense size, solid and fine-flavoured fruits, smooth; a great bearer. 2s. 6d. oz.

Red Cherry.—A very useful variety for pickling.

Red Pear-Shaped.—Very ornamental sort; useful for pickles.

Sparks' Earliana.—In earliness this is said to excel all others, being 12 or 14 days in advance of the other sorts. Large size; contains less seed than most varieties. 3s. per oz.

Stone.—An old favourite; fine, solid fruit of good size.

Trophy.—An old favourite; a fine hardy sort; fruit red, smooth. 3s. per oz.

Walker's Selected Recruit.—Our special recommendation. See coloured page opposite. 1s. per packet.

Yellow Cherry.—Favourite ornamental variety; productive.

Yellow Pear-Shaped.—Very useful and ornamental.

Yellow Plum-Shaped.—Small-sized useful fruit; good grower.

TURNIP

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—To grow Turnips mild and tender, it is desirable to grow them without check in growth. Although not an indispensable vegetable, the Turnip is highly esteemed in many quarters. A good light soil suits best, but with fairly rich soil of any kind and favourable weather, very fine crops are obtainable. Sow in February and March in drills 18 inches apart, and thin out to six or eight inches. We offer only the best now in cultivation. Turnips may also be grown in November, and even earlier; but, if dry weather sets in, only poor crops can be expected.

Early Red American Stone.—Much like White Nepal, but with a purple top.

Early Six Weeks.—A favourite with some growers; beautiful shape; extra early.

Early Snowball.—This is a variety in constant demand; resembling the famous White Stone.

Garden Swede (Laing's).—A favourite Swede Turnip; suitable for autumn sowing.

Green-Top Stone.—A most esteemed variety; fine.

Orange Jelly.—A superior, globular, yellow-fleshed Turnip; flavour is rich and excellent.

Searl's White Model.—An improvement on the White Stone; fine, clear, white colour; perfect in shape.

White Nepal.—Early short-topped; delicate, tender, snow-white; flat-shaped.

White Stone.—Pure white flesh, oval shaped; excellent for market.

SWEDE TURNIPS.

1s. per oz.; 6d. and 3d. per packet.

Shirving's and Imperial Purple Top.

Kelway's Perfect Model.—A heavy cropping purple top Swede, with small top; produces specimens up to 24 pounds. 1s. oz.

VEGETABLE MARROW

1s. per oz.; 6d. and 3d. per packet.

CULTIVATION.—Sow from September to end of December in nice, rich, deep loam. The young plants are very tender, and will, perhaps, require shading if the weather is very hot. They can also do with a liberal supply of water. Usually the fruits are eaten whilst young and tender. The Bush or Tree varieties are decidedly distinct from ordinary Marrow in habit of growth; they are quite compact, and take up far less room. Excellently adapted for limited garden spaces.

Custard-Shaped.—Fine flavour, and a most desirable variety for private use.

Early Long Green.—Long green running, similar in habit to the Long White; pale green colour.

Long-Fruited Bush (WHITE).—Excellent, prolific, very early requires less space (three feet apart each way), as plants do not run.

Long-fruited Bush (GREEN).—Of equal merit to the white-fruited variety.

Searl's Early Long White (Selected).—A beautiful white kind of excellent quality; running habit and heavy bearer; we recommend a trial.

Searl's Sovereign Vegetable Seeds

For Market Gardeners and Large Growers

Owing to scarcity of supplies through the disorganization of industry and production, many lines are subject to fluctuation. We will at all times be pleased to quote for Bulk Lines of all Vegetable Seeds.

FARM SEEDS, CLOVERS and GRASSES

We do not stock Farm Seeds, but can supply our Customers' requirements in this section from a most reliable source, and will be pleased to furnish prices on application.

GLIMPSES OF OUR GENERAL NURSERY AT BOTANY

(1). A Bed of Shasta Daisies. (Cut Flower Section).

(2). A Peep Inside one of the Glass Houses.

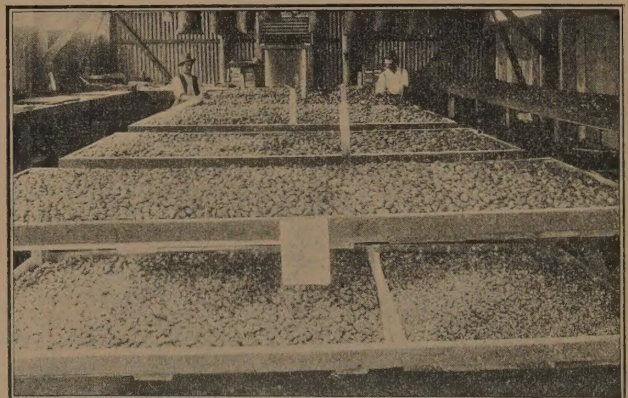

(3) White Agapanthus. (Cut Flower Section).

(4). Interior of one of the Fern Houses.

(5) One of the Shrub Houses.

(6). Interior of the Bulb Shed.

Our Nurseries embody a fairly extensive space, the areas included incorporating the **CUT FLOWER SECTION, BUSH and GLASS HOUSES, BULB BEDS, TREES and SHRUBS**, and last but by no means least our "**OUT DOOR GROWN**" Seedling Beds.

Here every possible attention is bestowed upon the growing plant which leaves our nursery in a **hardy, well established condition**.

The greatest care is exercised in the **packing and forwarding** and we leave it to our clients to acquaint us of the **speediest and safest route** regarding despatch—we will do the rest.

Searl's Culinary Plants, Roots, Bulbs

ETC., ETC.

KINDLY NOTE.—All Plants and Bulbs leaving our establishment are in good order and condition, and are carefully packed and addressed. We, therefore, do not think we should be held responsible for any loss incurred through damage or deterioration in transit. To further minimise disappointment we might here emphasise the rule that, when ordering plants, customers should acquaint us with the speediest and safest route.

GENERAL LIST

OF

Searl's Sovereign Flower Seeds

ABRONIA

3d. per pkt.

Umbellata.—Rosy lilac.

Pretty trailing plant, suitable for rockeries; waxy, verbenalike flowers, scented; hardy annual. Sow spring and autumn. 6 inches.

ABUTILON

6d. per pkt.

Hybrids.—Fine mixed.

Hardy flowering shrub, with large bell-shaped flowers of drooping habit; various colours. Sow seed September to November in pots or boxes; prick out when about 4 inches high. Perennial.

ACHIMENES

1s. per pkt.

Best Mixed.—Choice strain.

These make fine pot or basket flowers for the greenhouse or bush-house. Seed should be sown in light sandy loam during January and February.

ACROCLINIUM

3d. per pkt.

Roseum.—Single, rose colour, dark eye.

„ **fl. albo.**—Single, white, pretty

„ **fl. pleno.**—Colour rose, double flowers, 50 per cent. true.

„ **fl. pleno. Album.**—Colour white; double flowers.

Mixed Varieties.—50 per cent. true

Most beautiful everlasting annual. Sow autumn and spring. Height, 12 inches

ADONIS

3d. per pkt.

Aestivalis (Flos Adonis).—Red, annual.

Free-flowering, feathery foliage. Sow in spring. Height, 12 in.

AGATHAEA

6d. per pkt.

(BLUE MARGUERITE)

Coelestis.

A beautiful perennial; blue flowers with yellow centre; similar to Paris Daisy. Sow autumn and spring; very hardy; grows 3 ft.

AGERATUM

3d. per pkt.

Mexicanum Coeruleum (Imperial Dwarf).—Blue.

Hardy, free-blooming plants, useful both for cutting and bedding effect. Sow autumn or spring. Annual. Height, 12 inches.

ALONSOA

3d. per pkt.

Albiflora.—White, very constant flowerer.

Warscewiczii.—Brilliant scarlet.

Very showy, half hardy annuals. Sow autumn or spring. Height, 12 inches.

ALTHAEA

6d. per pkt.

(HOLLYHOCK)

Chater's Superb.—Splendid mixed, choice strain, double.

This noble plant produces flower spikes 6 feet high, studded with splendid Camellia-like blooms, 3 feet of their length. It is not difficult to grow from seed; likes a rich soil (tender perennials). Sow in early autumn. Height, 6 feet.

ALYSSUM

3d. per pkt.

Benthami Compactum (Little Gem).—Quite distinct, charming white.

Maritimum Benthami (Sweet Alyssum).—Produces small trusses of white flowers in great profusion.

Saxatile.—Yellow perennial.

Saxatile Compactum.—Yellow perennial; the best variety of edging; compact habit.

Seed should be sown during autumn and spring in seed beds. Plant out into the borders when about 4 inches high. Grows 9 inches in height.

AMARANTHUS

3d. per pkt., 5 pkts. post free for 1s.

SEARL'S SOVEREIGN STRAIN.—A choice mixture of all varieties which we can thoroughly recommend. 6d. per pkt.

Atropurpureus.—Very fine scarlet. Height, 4 feet.

Henderi.—Leaves carmine, orange, yellow, and green. Height, 4 feet.

Melancholius Ruber.—Blood-red leaves. Height, 4 feet.

Salicifolius (Fountain Plant).—Long, narrow, graceful foliage, crimson plumes. Height, 4 feet.

Tricolor Splendens.—Very beautiful, great improvement on Tricolor. Height, 6 feet.

Tricolor (Joseph's Coat).—Red, green and yellow leaves, very ornamental; beautiful tropical-coloured foliage. Height, 6 ft.

Magnificent foliage plants of tropical appearance, with gorgeous leaves of crimson and gold, and green and yellow; colours deepen in the autumn. They are beautiful border plants, requiring plenty of room, good soil, and a warm position. All are grown for beautiful coloured leaves; they are hardy annuals. Sow during spring and summer. Height, 4 to 6 feet.

ANAGALLIS

3d. per pkt.

(PIMPERNEL)

Grandiflora.—Finest mixed.

A family of dwarf-growing annuals, constant bloomers, compact habit. Sow in autumn or spring. Height, 12 inches.

ANCHUSA

3d. per pkt.

Capensis.—Bright azure blue.

A free-flowering, hardy perennial, excellent for bouquets; resembles a strong-growing forget-me-not. Sow autumn or spring. Height, 2 feet.

ANEMONE

St. Brigid (the Irish Poppy-flowered Anemone).—Large single and semi-double flowers of a wonderful variety of colour. 6d. per packet.

Tuberous-rooted plants, easily produced from seed; they bloom early in the spring. Requires good, rich, well-drained soil, perennial. Sow in the early autumn. It is known that when sowing this seed it is easier treated if mixed with a small quantity of sawdust.

ANTIGONON

6d. per pkt.

Leptopus.—A deep rose pink.

A handsome creeper; likes a sunny position; very hardy perennial. Seed can be sown during spring and summer. Height, 6 ft.

ANTIRRHINUM

(SNAPDRAGON)

MAJUS, TALL VARIETIES.

SEARL'S SOVEREIGN STRAIN, No. 1.—**Grandiflorum Tall.**—A most glorious combination of colours; giant flowers. It contains 12 distinct varieties in choice mixture. 6d. and 1s. per packet.

Choice Named Varieties. A selection of twelve charming shades to choose from. 6d. per packet.

Choice Mixed.—3d. per packet.

Brilliant.—Bright scarlet and yellow.

Bonfire.—Lovely orange and flame colour.

Blood Red.—Brilliant.

Cerise King.—Cerise pink, white throat and lip.

Delilia.—Rosy lilac and white.

Feltham Beauty.—Deep rose pink, white centre.

Luteum.—Yellow.

Nelrose.—Rich coral pink.

Orange Beauty.—Orange scarlet, golden lip.

Queen Victoria.—Large white.

Rose Pearl.—Soft rose, white lip and throat; lip slightly tipped with yellow.

Venus.—Delicate pink white throat.

MAJUS NANUM, DWARF VARIETIES.

SEARL'S SOVEREIGN STRAIN, No. 2.—Composed of dwarf-growing varieties, suitable for bedding and border work.

A most beautiful variety of unique and uncommon colours. 6d. and 1s. per packet.

SEARL & SONS

FLOWER SEEDS

SYDNEY

ANTIRRHINUM—Continued.

Tom Thumb.—Finest mixed dwarf varieties. 3d. per packet.
Choice Named Varieties. embodying twelve glorious colours. 6d. per packet.

Beautiful hardy blooming plants, with fine spikes of flowers. The Tom Thumb varieties are very fine. Easily raised from seed. Sow during autumn and spring. 1 to 3 feet.

Amber Queen.—Canary yellow, overlaid chamois pink and golden lip.

Admiration.—Bright scarlet, white throat.

Black Prince.—Deep maroon.

Buff Queen.—Rose, canary lip shaded orange.

Captivation.—Chamois, shaded pink.

Fascination.—Deep flesh pink.

Fawn.—Terra-cotta pink and pale yellow.

Flamingo.—Deep terra-cotta, orange yellow centre, white throat.

Golden Morn.—Raspberry red, and old gold lip.

Maize Queen.—Salmon maize, yellow lip.

Pink Queen.—Lovely pink, yellow lip.

Wild Rose.—Light pink, white throat.

AQUILEGIA

(COLUMBINE)

SEARL'S SOVEREIGN STRAIN.—A most charming variety, comprising all shades of colours, and of the much sought after long-spurred type. Very highly recommended. 1s. per pkt.

Mrs. Scott Elliott's Strain. An excellent strain incorporating some magnificent colourings, all long-spurred. 1s. per packet.

Single Mixed.—Fine sorts, all colours. 3d.

Double Mixed.—Choice, many colours. 3d. per packet.

Very showy, hardy, herbaceous perennials make handsome plants in the border; easily grown. They require a light soil. Sow autumn and spring. Height, 18 to 24 inches. We specially recommend sowing our **SOVEREIGN STRAIN**, the long-spurred type.

ARABIS

3d. per pkt.

(ROCK CRESS)

Alpina.—White, very dwarf.

Excellent for border or rock work, blooming freely; hardy perennial. Sow in spring. Height, 6 inches.

ARCTOTIS

3d. per pkt.

Grandis.—White, lilac on the outside, delicate pale violet centre.

A charming glaucous green-foliated annual, of succulent growth; free blooming; splendid for cut blooms. Seed can be sown during spring. Height, 24 inches.

ARISTOLOCHIA 6d. per pkt.

Elegans (Dutchman's Pipe).—Immense flowers, dark purple and white.

A splendid climber, free flowering; flowers peculiarly shaped, resembling a pipe, hence its name. Sow in the autumn. Height, 10 feet.

ASTER

A lovely family of annuals, easily grown from seed; must have plenty water during summer; like a light, rich soil. Sow autumn or spring. Height, 6 to 24 inches. Should be grown in every garden, their chrysanthemum-like flowers being most attractive, and very useful late in the autumn when the borders are generally devoid of bloom.

GIANT AMERICAN CREGO.—Tasmanian grown seed. A greatly improved type of Aster; beautiful double flowers, similar to the well-known branching Aster; but the new varieties are borne on long stems; of robust habit; no garden lover should be without them.

Crego
Crimson
Lavender Mauve
Pink
White
Purple
Azure Blue

6d. per packet; or the collection of six colours for 2s. 6d.

Choice Mixed.—6d. and 1s. per packet.

TASMANIAN, LARGE BRANCHING—

Choice Mixed
Heliotrope
Pink
Purple
Red
Snowflake (White)

6d. per packet; or the collection of six colours for 2s. 6d.

Choice Mixed. 6d. and 1s. per packet.

BALSAM

3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—The choicest improved camellia-flowered varieties only are introduced into this mixture. 6d. per packet.

Camellia Flowered.—Choice mixed.

Double Spotted.—Mixed.

Rose Flowered.—Mixed.

Our Balsams come from the most superb strains, with beautiful form and colours. The flowers are delicately striped and spotted. Like a rich soil and plenty of moisture. Suitable also for pot cultivation. Sow in the spring and summer. Height, 18 inches.

BARTONIA

3d. per pkt.

Aurea.—Yellow.

A useful showy annual. Sow seed in autumn and spring in light sandy soil. Grows height 2 feet.

BEGONIA (Tuberous-Rooted)

SEARL'S SOVEREIGN STRAIN.—A choice mixture of all the leading varieties. 2s. 6d. per packet.

Basket Begonias.—This new class is specially adapted for basket culture. Choice mixed, 1s. 6d. per packet.

Double Varieties.—Mixed, choice strain; from a rich collection. 1s. 6d. per packet.

Single Choice.—Mixed, very showy. 1s. per packet.

Semperflorens.—Fine mixed (fibrous rooted), free flowering, effective for bedding. 6d. per packet.

Fine decorative plant, very handsome and easily cultivated in pots. These charming plants require great care in raising from seed, which is very fine, and must be sown in light soil in a frame or greenhouse, and afterwards grown in pots. Foliage is very handsome, graceful, drooping flowers, most attractive; tender perennials. The Begonias will succeed out of doors in sheltered situations. Sow the seed in spring. Height, 18 inches.

BELLIS PERENNIS

(DOUBLE DAISY)

Longfellow.—Very double, dark rose blooms. 6d.

Snowball.—Large double white. 6d.

Fine Mixed.—Good, choice mixture. 3d.

Monstrosium—

Pink, double giant-flowered. 6d.

White, double, giant flowered. 6d.

Choice Mixed, double. 6d.

BLUE MARGUERITE

(See AGATHAEA)

BRACHYCOME 3d. per pkt.

Iberidifolia.—Fine mixed.

Hardy annual, compact, stands dry weather, flowers daisy-like, borne in great profusion; likes light, rich soil. Sow autumn or spring. Height, 9 inches.

BROOM

White Gem.—An improvement on the old white Portugal variety. The plants are more compact in growth. Very free-flowering, and it is literally covered with pure white flowers. 6d. pkt.

Yellow Spanish.—Beautiful yellow-flowering shrub, attains a height of 8 feet; very hardy. 6d. per packet.

CALCEOLARIA 1s. per pkt.

SEARL'S SOVEREIGN STRAIN.—A magnificent collection of all shades of colours; an exhibition variety. 1s 6d. pkt.

Kelway's Model.—A glorious combination of giant flowered types in choice mixtures. 2s. 6d. per packet.

Choice Mixed.—All varieties in mixture. 1s.

A charming plant for frame, conservatory, or bush-house culture, requiring rich, light, fibrous soil, and plenty of pot room. They cannot be grown in the open border. Sow in the autumn. Height, 12 to 18 inches.

SEARL & SONS

FLOWER SEEDS SYDNEY

CALENDULA 3d. per pkt (MARIGOLD)

Meteor.—Double, orange, striped.
Officialis fl. pl.—Double, fine mixed; good sort.
Pigmy. Double yellow, dwarf, 8 in., excellent for beds and borders.
Prince of Orange.—Double, rich orange, striped.
Pluvialis (Cape Marigold).—White, exterior of petals shaded maroon.
Pongel, fl. pl.—Double, effective, useful.
Well-known annuals, capital for bedding or border; exceedingly hardy. Sow in the autumn or spring. Height, 12 to 24 inches (See also Tagetes.)

CALLIOPSIS 3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—A superb mixture of all varieties. 6d. per packet.
Beauty. Golden yellow, crimson centre; very profuse bloomer; height, 8 inches.
Bicolor Nigra Speciosa.—A beautiful variety, almost black.
Coronata.—Lovely yellow, most useful for cutting.
Crimson King. Dark crimson; compact and massive; height, 7 inches.
Drummondii.—Yellow, crimson centre.
Nana Compacta (Red Star).—This novelty is very useful for bedding and borders. Flowers red and star-shaped; compact growth.
Star of Fire. Cactus-shaped flowers, fiery red; height, 1 foot.
Tall Sorts.—Mixed; a choice strain.
This is one of the best of our hardy annuals. A most beautiful plant in the garden, not particular as to soil, a long time in bloom. Plants 2 feet apart. Sow autumn and spring. Height, 2 feet.

CAMPANULA 3d. per pkt. (CANTERBURY BELLS)

SEARL'S SOVEREIGN STRAIN.—A splendid mixture. 6d. per packet.
Calycanthema.—Splendid mixed, resembling cup and saucer.
Double Choice Mixed.
Single Choice Mixed.
A family of very showy border plants, the colours being very distinct and rich; the single varieties are exceedingly pretty, and the Calycanthema double and Pyramidalis varieties are magnificent. Easily raised from seed. Sow in frame or box, and plant out in the border later. Hardy perennials. Sow autumn or spring. 1 to 3 feet.

CANNA 6d. per pkt. (INDIAN SHOT)

Ozzy's Hybrids.—Fine mixed, very ornamental plants, both for flowers and foliage.
Ornamental plants with handsome foliage; brilliant flowers. Height 3 to 4 feet. Sow autumn and spring.

CARDIOSPERMUM 6d. per pkt (BALLOON VINE)

Halicacabum.—A vine not very well known. We offer reliable seed of it; curiously shaped flowers; seed should be sown in autumn.

CARNATION 6d. per pkt. (MARGUERITE SECTION)

Kelway's Chabaud.—A most choice selection of giant-flowered Margaret Varieties; a superb mixture. 1s. per packet.
Giant or Malmalson.—Improved type of Margaret, extra large flowering. This strain has given wonderful satisfaction. 1s. per packet.
Margaret Varieties.—A superb strain, mixed; robust habit. 6d. per packet.
The Margaret Variety, a charming strain, bearing a great profusion of bloom, which forms a most striking object to the borders; a large percentage comes very double and beautifully fringed; most suitable for bouquet purposes. Sow autumn and spring. 30 inches.

CARNATION 1s. per pkt. (PERPETUAL SECTION)

SEARL'S SOVEREIGN STRAIN.—A most choice selection, embracing all the leading types; a grand mixture. 2s. 6d. per packet.
Perpetual.—Choice mixed, 80 per cent. of doubles, superb free bloomers.
Riviera Market.—The finest Marguerite Carnation, and of rapid growth; splendid double flowers. 1s. per packet.

CELOSIA 6d. per pkt. (COCKSCOMB)

Cristata Nana Mixed.—A splendid strain of fine quality of the true Cockscomb type.
Empress.—Bright crimson combs, dark foliage; very beautiful.
Glasgow Prize.—Very fine crimson combs; splendid.
Thompsoni Magnifica.—A feathered Cockscomb of great beauty; a stately plant, well branched, producing abundance of side shoots, with feathered crests of mixed colours. Height, 4 ft.
Old English favourites. The four first-named produce large cockscomb-like heads of brilliant colours. Height, 2 feet. Half-hardy annuals. Sow in spring and summer.

CENTAUREA 3d. per pkt.

Cyanus (Cornflower).—Mixed; single varieties; a choice strain.
Royal Blue.—Bright blue, fine quality.
Imperialis.—Mixed (Giant-flowering Sweet Sultans); a very hardy class.
Moschata Alba (Sweet Sultan).—White; excellent.
Atropurpurea.—Purple, very fine.
Coerulea.—A beautiful blue.
Suaevolens.—Yellow; very pretty.
Fine Mixed.—A choice strain.
The Single Blue Cornflower, so common in the English fields, is one of the most useful annuals in cultivation. It blooms during winter in profusion, and it is most useful for cutting for bouquets in winter and spring. The plants should stand 1 foot apart, and can be transplanted. This interesting family comprises the well-known Sweet Sultan. Height, 1½ to 2 feet. Sow during autumn and spring.

CENTROSEMA 6d. per pkt. (BUTTERFLY PEA)

Grandiflorum.—Flowers from 1½ to 2½ inches across, of a beautiful inverted pea shape; rosy violet to reddish purple, feathered with white.
An exceedingly beautiful perennial climber; easily grown from seed, which should be soaked for a few hours in tepid water before sowing. Sow in spring.

CHEIRANTHUS MARITIMUS (VIRGINIAN STOCK)

Fine Mixed.—Height, 6 inches. Very dwarf; free blooming, hardy annual; very effective for edgings. Sow seed in early spring. 3d. per packet.

CHRYSANTHEMUM 3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—Choice mixture of all varieties; a grand selection. 6d. per packet.
FINEST MIXED, Single.—Good varieties.
FINEST MIXED, Double.—Various colours.
Northern Star.—Giant white with black centre, with yellow ring.
Frutescens.—Marguerite, white.
Inodorum, Bridal Robe.—Of very compact and upright habit, grows 10 inches in height; double pure white flowers.
These varieties are hardy annuals; strong growers, showy, and are admirably suited for cutting; they keep a long time in water. Should be sown during autumn or spring. 18 inches to 2 feet high.

CINERARIA

SEARL'S SOVEREIGN STRAIN.—Giant-flowered exhibition varieties in choice mixed. 1s. 6d. per packet.
Kelway's Perfect Model.—A glorious mixture of large exhibition varieties. 2s. 6d. per packet.
Most elegant and charming bush-house or green-house plants. Should be raised in a frame, in pots and boxes. Can also be grown as border plants in a sheltered suitable position. Sow in the autumn. Height, 18 to 24 inches.

CINERARIA MARITIMA CANDIDISSIMA

Very ornamental; large leaves. 3d. per packet.
This variety, although classed as a Cineraria, is grown as a hardy foliage plant only, its beautiful silvery leaves being very effective in carpet beddings; it is of no value as a flowering plant. Sow in spring. Height, 12 inches.

CLARKIA 6d. per pkt.

SEARL'S SOVEREIGN STRAIN. A magnificent assortment of double named varieties.
Albo Fl. Pl. Glistening double white.
Brilliant. Beautiful carmine-rose.
Chamois Queen. Delicate pale chamois.
Orange King. Striking orange scarlet.
Purple Prince. Fine, rich purple.
Rosy Morn. Exquisite rose pink.
A showy, hardy annual; easily grown; very effective in masses. Sow spring and autumn. Height, 18 inches.

COBOEA SCANDENS 6d. per pkt.

Purple.—Large purple. **Fl. Alba.**—White, very fine.
Most useful and ornamental; perennial; large bell-shaped flowers; rapid grower. Should be raised in pots and planted out in the autumn or spring. Height, 6 feet.

COLEUS

SEARL'S SOVEREIGN STRAIN.—A glorious strain of LARGE-LEAVED VARIETIES in choice mixture. 1s. 6d.

Finest Varieties.—Splendid mixed. From a superb collection. 6d. per packet.

As a foliage plant the Coleus, for ordinary cultivation, cannot be surpassed; easily grown and admirably adapted to our climate. As a pot plant, grown either in conservatory or bush-house, it is charming. Sow in spring and summer; likes a good rich soil, plenty of moisture.

COLUMBINE

(See AQUILEGIA)

CONVOLVULUS 3d. per pkt.

(MORNING GLORY)

Minor (Dwarf).—Fine mixed; a variety of colours.
Major (Tall).—Fine mixed. This is a climber, suitable for trellis.
Mauritanicus.—Blue, for suspending; perennial.

COREOPSIS 3d. per pkt.

Grandiflora.—Very large, golden yellow; perennial.
Lanceolata.—Yellow, fine, true. (See also Calliopsis.)

CORNFLOWER 3d. per pkt.

(See CENTAUREA)

COSMEA 3d. per pkt.

(COSMOS)

Mammoth Finest Mixed.—A choice mixture.
Crimson Ray.—Handsome crimson flowers. The petals are narrow and fluted, separated in star-like form.

Klondyke.—Rich, deep orange, vigorous grower and free-flowering. Most showy and charming annuals, producing single flowers of great beauty; white, purple, etc., with fine foliage; most useful for table decoration. Sow autumn and spring. Height, 6 feet.

DOUBLE CROWN.

Fanny Golding.—White, 6d. per packet.

Albert Golding.—Pink, 6d. per packet.

Choice Mixed.—6d. per packet.

A very striking variety, the flowers having a perfectly double centre beautifully crested, giving it an appearance of a crown. Growth strong and vigorous similar to the ordinary Cosmos.

CYCLAMEN 1s. per pkt.

SEARL'S SOVEREIGN STRAIN.—A magnificent strain of giant-flowered types in choice mixture. 2s. 6d. per packet.

Giganteum.—Covent Garden strain. Finest mixed, fine form, and a very free-flowering variety.

Persicum Papilio (Butterfly Cyclamen).—Superb strain, choice mixed.

A most interesting tribe of tuberous plants. Seed should be sown in the autumn. Easily produced from seed if grown in light soil; raised in a box. They will not flower till the second season. A good winter-flowering pot plant.

DAHLIA

Cactus.—Mixed. Saved from the finest-named varieties of pointed petal sorts. 6d. per packet.

Collarette.—Single type, with second row of petals forming collar. Glorious mixture. 6d. per packet.

Paeony Flowered.—Choice mixed. This new variety has become a great favourite; a choice mixture of colours. 6d. pkt.

Pompone.—Choice mixed. This is one of the prettiest types of Dahlia. Very effective for decoration. 6d. pkt. 3 to 5 feet. This universal favourite is easily raised from seed. Types are exceedingly beautiful, and are now established as great favourites. Sow seed autumn and spring. 3 to 5 feet. Of course, they readily transplant.

DELPHINIUM

(PERENNIAL LARKSPUR)

SEARL'S SOVEREIGN STRAIN.—A superb collection of all shades of blue, mauve and heliotrope, comprising a glorious mixture. 1s. and 2s. 6d. per packet.

Charming family of perennials, with handsome foliage and fine spikes of flowers. Very effective in the border. They make handsome plants. Sow during autumn and spring, and transplant into good rich deeply worked soil. Height, 2 to 4 feet when in flower.

DIANTHUS

3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—A splendid mixture of 12 named varieties, single and double, specially selected. 6d. per packet.

Barbatus (Sweet William).—Various, single, fine mixed. 3d. per packet.

Barbatus, fl. pl.—Mixed, double, choice sorts.

Heddewegii.

Atropurpureus, fl. pl.—Very dark and good.

Atropurpureus Albo Marginatus, fl. pl.—(Mourning Pink), very charming.

Crimson Belle.—Brilliant, blood-red in colour.

Eastern Queen.—Rose, showy, single-flowered.

Finest Single.—Mixed, beautiful.

Hybridus, fl. pl.—Double, choicest mixed, very large flowering.

Diadematus, fl. pl. (Diadem Pink).—Splendid mixed.

Laciniatus.—Single, fringed, mixed; extra good.

Laciniatus, fl. pl.—Charming variety, finest double mixed.

Laciniatus (Snowdrift).—A striking, beautiful double, white, free-flowering Dianthus, of vigorous branching habit; the flowers are large, deeply fringed, and of the purest white. 6d. per packet.

Mirabilis fl. pl.—Beautiful double mixed.

Superbissimus.—Choice mixed. A superb new strain of Dianthus, with crested surface to petals, and white throated, giving the flowers a charming appearance. 6d. per packet.

The varieties of this magnificent tribe adapt themselves particularly well to our climate, and will bloom nearly the entire season. Sow during autumn and spring. Height, 12 inches. Suit all good garden soil.

DIGITALIS

3d. per pkt.

(FOXGLOVE)

Monstrosa, Finest Mixed.—A well-known English favourite; does well here, is easy of cultivation, and very striking when in flower. Sow in the autumn or spring. Height, 4 feet.

DIMORPHOTHECA

Aurantiaea.—Golden orange, dark brown centre. 3d. per pkt.

Hybrids.—A choice collection of assorted colours. 6d. per pkt.

Exceedingly nice and rich-flowering annuals of easy culture. Dwarf, compact-growing bushes, suitable for beds and borders. Large Marguerite-like flowers.

DOLICHOS

3d. per pkt.

Giganteus.—A splendid variety.

Lab Lab.—Purple (Hyacinth Bean).

Albus.—White.

Mixed.

Lignosus.—Lilac.

Albus.—Small leaf, white.

A quick-growing climber, bearing small, pea-shaped blossoms in clusters; capital for covering an old wall or fence. Seed should be sown in autumn or spring; very hardy perennial.

ERIGERON COULTERI 6d. per pkt

A free-flowering plant from Colorado; graceful, well-shaped flowers on stems 18 inches long; pure white, with black centre, somewhat resembling a Giant Marguerite; a splendid acquisition. Sow in the spring.

ESCHSCHOLTZIA 3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—A grand collection of named varieties in choice mixture. 6d. per packet.

Californica.—Bright yellow.

Alba.—Pure white.

Carmine King.—A valuable variety with large flowers. Colour carmine-rose; very useful.

Mandarin.—Very fine, deep orange.

Mixed Single Sorts.—A choice strain.

This is one of the most beautiful of the Californian annuals; has handsome foliage; expands its flowers to the blazing sun, and is of a dazzling brightness. It wants plenty of space, and will thrive in any ordinary soil. Sow autumn or spring. Height, 9 inches.

FREEZIA

3d. per pkt.

Hybrida Bagionieri.—An entirely new species of Freesias, they being composed of various colours, such as:—Pink, rose, purple, blue, orange, sulphur yellow, brown. 6d. per pkt.

Leichtlini.—Yellow.

Refracta Alba.—White.

Although generally grown from bulbs, they are very hardy, and easily raised from seed. Will flower first season. Sow in early autumn.

GAILLARDIA

3d. per pkt.

Kelway's Exhibition.—Giant-flowered. A superb strain; greatly improved grandiflora. Choice mixed. 6d. per packet.

Grandiflora.—Splendid, mixed, perennial, lovely.

Picta Drummondii.—Single, red and yellow.

Lorenziana.—Double, finest mixed.

A most hardy plant, blooms throughout the summer in the driest soil; very attractive, and, for decorative purposes stands unrivalled. Sow autumn or spring. Height, 1½ to 2 feet.

GEUM

Coccineum fl. pl., Mrs. J. Bradshaw.—One of the finest additions to the herbaceous border ever introduced. The flowers are of good substance and borne on long stems, and measure 2½ to 3 inches across, and are nearly double; the colour is a brilliant orange scarlet. 6d. per packet.

GLADIOLUS

6d. per pkt.

Gandavensis.—Splendid mixed.

Lemoinei.—Finest mixed. We are able to offer seeds of this magnificent class of spotted Gladiolus, saved from the very best strains.

GLOBE AMARANTH

(See GOMPHRENA)

GLOXINIA

SEARL'S SOVEREIGN STRAIN.—Same as exhibited and so much admired in our window. Splendid mixture. 1s. 6d. per packet.

Kelway's Model.—The very choicest erect flowering varieties; a beautiful collection of colours; a glorious mixture. 1s. per packet.

Gigantea.—Splendid, mixed; choice, giant-flowered. 1s. packet. One of the handsomest tender tuberous plants in cultivation; requires frame culture to germinate the seeds, and pot cultivation, and the shelter of a frame, bush-house, or conservatory. Sow in the autumn.

GODETIA

SEARL'S SOVEREIGN STRAIN.—A glorious mixture of finest semi-dwarf varieties, a lovely strain, saved from 12 named varieties. 6d. per packet.

Choice Mixed.—Comprising a very choice selection in mixture. 3d. per packet.

Duchess of Albany. Pure satin white. 3d per packet.

Duke of York. Dazzling scarlet. 3d. per packet.

Fairy Queen. Attractive, white with crimson spot. 3d. pkt.

Fulgida. Brilliant scarlet, with white centre. 3d. per packet.

Gloriosa. Deep blood red, very compact.

Mandarin. Sulphur coloured; very distinctive. 3d. per packet.

A pretty tribe of really beautiful hardy annuals; will grow in the poorest soil, and produce a grand display of gorgeous flowers, even in a dry season. Should be sown during autumn and spring. Height, 12 inches.

GOMPHRENA GLOBOSA

(GLOBE AMARANTH)

White, Purple, Orange, Flesh Pink, also Choice Mixture, in distinct colours at 3d. per packet. Useful autumn flowering annuals. Sow spring and summer.

GOLDEN FEATHER

(See PYRETHRUM AUREUM)

GYPHOPHILA

3d. per pkt.

Elegans Grandiflora Alba.—Pure white.

Elegans Grandiflora Carminea.—Carmine flowers.

Paniculata.—Good white, very fine flowers.

Handsome lovely sprays of tiny flowers, making it very suitable for mixing with flowers in vases. Very hardy. Sow in autumn or spring. Height, 18 inches.

HELENIUM BIGELOWI

Beautiful hardy perennials, flowers golden yellow with black centre; very striking for cut blooms. 1s. per packet.

HELIANTHUS

3d. per pkt.

Annus (Primrose-coloured).—Lovely.

Argyrophyllus.—Pretty and ornamental; silver-leaved.

Californicus, fl. pl.—Large, double yellow.

Giant Russian.—The largest variety.

Globosus Fistulosus, fl. pl.—Double, golden, fine; 6 feet.

Manus, fl. pleno Lilliput.—Double; 3 feet; fine golden yellow.

Cucumerifolius.—Branching. Nice foliage; 4 to 5 feet.

Cucumerifolius Diadem.—Large flowers, citron colour.

Cucumerifolius Orion.—With crisped petals; good.

Cucumerifolius "Stella."—Flowers 3 inches across; pure golden yellow, black centre.

New Red Hybrids (Miniature). 6d. per packet.

Star-shaped Double (Miniature). Very elegant. 6d. packet.

These hardy annuals are of a majestic appearance, some varieties attaining from 6 to 8 feet, with flowers of enormous size. The small-flowered varieties, Stella and Cucumerifolius, are most decorative and useful for cutting. One of the best summer yellow annuals. Sow spring and summer.

HELICHRYSUM

3d. per pkt.

(EVERLASTINGS)

Monstrosum Splendid.—Mixed.

Everlasting flowers of great beauty; hardy, and free blooming, and very useful for cutting. Sow autumn and spring.

HELIOTROPIUM

6d. per pkt.

(HELIOTROPE)

New Large Flowering.—Finest mixed; very choice strain.

Sow in a frame or bush-house; pot off as soon the the plants are fit to handle. Delicious perfume. Sow in autumn and spring. Height, 2 to 3 feet.

HESPERIS

3d. per pkt.

Matronalis (Rocket, Sweet).—Mixed.

Very pleasing early spring-flowering plant; profuse bloomer, very delicious, fragrant flowers; commonly called Dame's Violet. Sow autumn or spring. Height, 18 inches.

HOLLYHOCK

(See ALTHAEA)

HUNNEMANNIA

3d. per pkt.

Fumariefolia.—Fine feathery foliage, and charming buttercup yellow single flowers, cup-shaped, with red on the stamens.

Sow in autumn and spring in permanent position. Does not transplant well.

HUMULUS

3d. per pkt.

(HOP)

Japonicus.—Lovely foliage; good climber.

Japonicus Pol. Variegatus.—Leaves variegated with white, true from seed; annual climber, beautiful foliage; quick grower; hardy.

HYACINTHUS CANDICANS

White.—Yucca-like; splendid. Sow autumn. 6d. per pkt.

IBERIS

3d. per pkt.

(CANDYTUFT)

SEARL'S SOVEREIGN STRAIN.—A choice selection of named varieties, comprising all shades of colour; a glorious mixture. 6d. per packet.

Coronaria (White Rocket).—White; great favourite.

Coronaria Empress.—Large trusses; pure white.

Coronaria, Little Prince.—Very dwarf, large spikes.

Annual Sorts.—Finest mixed; a lovely strain, comprising many colours.

The whole of a family well worth a place. Sow in spring. Height, 12 inches.

ICE PLANT

(See Mesembryanthemum Crystallinum)

IMPATIENS

6d. per pkt.

(JAPANESE BALSAM)

Holsti Hybrida.—Choice mixed. Brilliant vermilion flowers; makes an excellent pot plant. It is of a very robust growth, a free bloomer of the easiest culture. Likes a nice, loose compost. Sow autumn or spring. Height, 18 inches.

IPOMOEA 3d. per pkt.

Bona Nox.—Large blue flowers.

Imperialis (Japanese Giant).—Rich colours. 3d. per packet.

Leoni.—Dark blue. 6d. per packet.

Quamoolit (Cypress Vine).—Mixed. 3d. per packet.

A splendid family of climber; rapid growers; fine foliage; handsome Convolvulus-like flowers. Sow in autumn and spring.

IPOMOPSIS 3d. per pkt.

Fine Mixed.—Brilliant colours.

Succeeds best in light, rich soil. If planted in a sheltered position is very attractive; tender biennials. Sow during autumn and spring. 3 feet.

JAPANESE KUDZU VINE

6d. per pkt.

Pueraria Thunbergiana.—A vine of very rapid growth; purple pea-shaped flowers in clusters; a valuable perennial. Frost cuts down the vine, but it comes along again in spring. Sow autumn and spring.

LARKSPUR 3d. per pkt.

(ANNUAL DELPHINIUM)

SEARL'S SOVEREIGN STRAIN.—A choice selection of named varieties in a superb mixture. 6d.

Dwarf Rocket.—Double; various colours, mixed.

Dwarf Stock Flowered.—Various colours, mixed.

Giant Hyacinth Flowered.—Spikes of beautiful double flowers; mixed.

Ranunculi Flowered.—Resembling the well-known Ranunculus.

Most valuable hardy annual; producing flower spikes 6 or 8 inches in length in beautiful colours. Sow autumn and spring. Height, 12 to 18 inches.

LATHYRUS ODORATUS

(SWEET PEAS)

Spring Flowering Spencer Varieties

America Spencer.—Ivory white, heavily flaked crimson. 6d. per packet.

Apple Blossom Spencer.—Pinkish rose. 3d. per packet.

Arthur Green.—Colour, light purple maroon. 6d.

Asta Ohn Spencer.—Immense blooms of mauve and lavender. 6d. per packet.

Aurora Spencer.—A bright orange-pink, striped, flaked and splashed on white. 6d. per packet.

Beatrice Spencer.—White ground, tinted with soft pink and buff on the standard. 6d. per packet.

Countess Spencer.—Giant pink. 3d. per packet.

Dainty Spencer.—Pale primrose, changing to white with pink edge. 6d. per packet.

Duplex.—Standard and wings rich cream-pink. 6d. per packet.

Empress Eugenie.—A delicate shade of light grey, flaked with light lavender. 6d. per packet.

Ethel Roosevelt.—Ground colour is a lovely shade of cream, beautifully flaked and mottled with light rose. 6d. per pkt.

Flora Norton Spencer.—A bright blue, with a little tint of purple. 3d. per packet.

Florence Nightingale.—Large lavender, practically a self-colour. 6d. per packet.

Florence Morse Spencer.—Pale pink, deepening towards edges. 3d. per packet.

Gaiety Spencer.—White, striped blue. 6d. per packet.

George Herbert Spencer.—The standards are rosy magenta, with deep carmine wings. 6d. per packet.

Helen Lewis Spencer.—Orange colour. 3d. per packet.

Hercules.—An improved Countess Spencer.

Irish Belle or Dream.—Lovely rich lilac, flushed with pink. 6d. per packet.

Illuminator Spencer.—Warm, salmon-orange ground colour with cerise. 6d. per packet.

King Edward Spencer.—Rich carmine, scarlet and glossy. 6d. per packet.

King White Spencer.—A perfect White. 6d. per packet.

Marks Tey.—Violet, with bronze wings.

Mrs. G. W. Breadmore.—Buff ground, edged with pink.

Mrs. Routzahn Spencer.—Buff or apricot ground, suffused with rose. 3d. per packet.

Orchid.—Deep lavender, suffused pink.

Othello Spencer.—Deep rich maroon. 6d. per packet.

Paradise Ivory.—Deep buff or ivory; very fine. 6d. per pkt.

Primrose Spencer.—Primrose self. 3d. per packet.

Queen Victoria Spencer.—Deep primrose. 6d. per packet.

Royal Purple.—Excellent rich purple.

Scarlet Empress.—Large rich scarlet. 6d. per packet.

Scarlet Emperor.—Gorgeous shade of true scarlet. 6d. packet

Senator Spencer.—A varying combination of deep claret and chocolate, striped and flaked on a ground of light heliotrope. 6d. per packet.

Stirling Stent.—Delightful shade of salmon. 6d. per packet.

Tennant Spencer.—Purple mauve self-colour. 6d. per packet.

Thomas Stevenson.—Orange scarlet. 6d. per packet.

Vermilion Brilliant.—Intense pure scarlet. 6d. per packet.

Wedgwood Spencer.—Wedgwood blue self. 6d. per packet.

White Spencer.—Dazzling white. 3d. per packet.

W. T. Hutchins.—The buds show a decided buff colour, upon opening the colouring inclines to a pure cream, margined with pink blush. 6d. per packet.

SEARL'S SOVEREIGN STRAIN CHOICE MIXTURE.—Which includes all the leading varieties; specially recommended. 6d., 1s. and 2s. 6d. per packet.

SEARL'S GLORIOUS WINTER FLOWERING SPENCER SWEET PEA

NAMED VARIETIES

At 6d. per packet, except where otherwise priced.

Beauty.—Delightful shade of apricot pink, with lighter wings, beautifully waved standard.

Black Chief.—Rich glowing maroon self; similar to the well-known Othello.

Blue Bell.—A charming shade of pale blue self.

Blue Flake.—Colour is a deep rich blue flake over greyish white ground.

Chocolate Flake.—Beautiful combination of colour, being a chocolate flake on a white ground; an exquisite variety.

Concord Charm.—Light heliotrope standard, bluish white wings; a very pretty combination of colours.

Concord Countess (Improved).—Beautiful shade of pink, lighter at base; very large flower.

Concord Exquisite.—Rich creamy pink or light apricot shade; an ideal variety for decorative work.

Concord Purple.—Very large blooms; the colour is a delightful shade of mauvy purple, changing to purple blue.

Dairymaid.—Standard a pleasing shade of red, the wings light pink, shading of white.

Eric Hatcher.—Rose pink, quite distinct; blooms of largest size.

Florence Sulman.—The colour is a rich cerise self, perfectly formed, bold flower, borne on long stout stems.

Illustris.—A brilliant flower, charming cerise self.

Lavender Bicolor.—Beautiful combination of colours, standard being a self lavender with pure white wings; fine bold flower.

Lavender Pink.—Delicate shade of pale pink shading to lavender; very dainty flower borne on long stems.

Lilac Gem.—A true lilac shade, exceptionally dainty colour.

Melrose Rubra.—Pure, ruby red self of exquisite form.

Miss Bowley.—An ideal florist's flower, the colour being lavender mauve.

Mrs. A. Simpson.—Bold white standard, shaded chocolate, waved open type.

Picotee.—Deep cream ground with deep pink picotee edge; very distinct.

Pink Pearl.—A beautiful deep rose pink, lighter at base on both standard and wings.

Pink Perfection.—A clear shell pink self, immense standard with bold wings, which fold back, giving the appearance of a double standard.

President.—Very handsome and distinct variety, being a rose and carmine, the colours intermingling throughout.

Primrose Queen.—Soft primrose colour, fine bold flower, with beautifully waved standard.

Purple King.—Pure purple and maroon.

Red Prince.—A glorious shade of carmine scarlet.

Royal Purple.—Rich glowing purple standard, with amethyst veinations; wings a purplish blue.

Scarlet King.—A splendid scarlet flower of wonderful brilliance.

White Queen.—A pure white flower of great substance.

Yarrowa.—Pale rose, changing to pink as the flower develops, lighter wings.

SEARL'S SOVEREIGN SEEDS — GOOD AS GOLD

**SEARL & SONS****FLOWER SEEDS****SYDNEY****LEPTOSYNE** 3d. per pkt.**Maritima Grandiflora.**—The great yellow winter-flowering Marguerite.

A hardy annual, lemon yellow flowers on long stalks; very effective as a border plant, coming into flower in early spring. Valuable for cut flowers; much resembling the favourite Marguerite.

LEUCANTHEMUM**Maximum** (Moon Penny Daisy).—Large white. 3d. per pkt.**Maximum King Edward.**—Large white. 6d. per packet.**Maximum Hybridum** (Shasta Daisy).—A lovely perennial, of easy culture; large white, yellow centre; excellent for cutting. 3d. per packet.**Snowstorm.**—The largest Shasta Daisy grown. 6d. per packet.**LINARIA** 3d. per pkt**Bipartita.**—Fine mixed.**Cymbalaria.**—Perennial, known as Kenilworth Ivy; useful for hanging baskets, vases, etc.**Maroccana.**—Fine mixed; good colours; improved strain.

One of the most beautiful species of hardy annuals grown for spring flowering, with beautiful spikes of Lobelia-like flowers. Sow during autumn or spring.

LINUM 3d. per pkt.
(FLAX)**Choice Mixed.**—A superb mixture.**Also in separate colours, viz., White, Scarlet, Blue and Yellow.**

Flowers are borne on slender stems; foliage good; soak seed in warm water before sowing. Sow in spring. Height, 12 inches.

LUNARIA 3d. per pkt.**Biennis** (Honesty or Satin Flower).

Free-flowering, hardy biennial; its silvery seed pods are very pretty cut and dried for winter decorations. Sow during autumn and spring. Height, 18 inches.

LOBELIA 3d. per pkt.**Cardinalis.**—Red. Splendid for bedding. 6d. per packet.**Erinus Compacta, Crystal Palace.**—Splendid habit; dark blue flowers.**Hybrida Sapphire.**—Trailing habit. The pale blue blossoms are unusually large, thickly set on long graceful sprays of foliage. 6d. per packet.**Royal Purple.**—Very dark rich purple.**Erinus (Gracilis).**—Blue.**Erinus Pumila Alba (White Perfection).**—Pure white.

Exceedingly beautiful, free-blooming, hardy annuals; good for edgings, ribbon, or carpet bedding, producing a dense carpet of bloom. Sow during autumn and spring. Height, 6 to 9 inches.

LUPINUS 3d. per pkt.
(LUPINS)**SEARL'S SOVEREIGN STRAIN.**—It embraces a splendid assortment of colours in a glorious mixture. 6d. per packet.**Arboreus** (Tree Lupins).—A good acquisition, attains height of 3 feet; very profuse flowerer.**Yellow Boy.**—Rich, golden yellow. 6d. per packet.**Snow Queen.**—Dazzling white. 6d. per packet.**Somerset.**—Deep yellow. 6d. per packet.**Mixed Annual Sorts.**—A good variety; very showy.**Kelway's New Hybrids.**—A magnificent strain of the perennial type; choice mixed. 6d. per packet.**Polyphyllus.**—Perennial sorts. Finest mixed; producing superb spikes of flowers.

All are very hardy; great favourites. Sow in the autumn or spring.

MANDEVILLA
SUAVEOLENS 6d. per pkt.

A beautiful white-flowered climber; one of the best. The foliage is graceful, and the flowers are light and wax-like; very useful for bouquets. Sow in the spring. Height, 20 feet

MATRICARIA**Double White.**—Excellent; producing a profusion of small white daisy-like flowers. 3d. per packet.**MATTHIOLA** 3d. per packet**(EVENING SCENTED STOCK)****Bicornis.**—Beautiful pink and lilac flowers, fragrant, which open in the evening.

Hardy annual. Sow in spring. Height, 18 inches.

MAURANDYA 6d. per pkt.**Fine Mixed.**—Beautiful flowers.

A beautiful close-growing climber; would do well on a wire fence or on a verandah trellis; remarkably quick-growing and free-blooming; its foliage is small, but dense, and of a lively green colour. They are half-hardy perennials, liking a rich friable soil. Sow autumn and spring.

MEDEOLA 3d. per pkt.
(SMILAX)**Asparagoides.**—Flowers white, orange-scented.

Handsome climbing bush-house plant. The beauty of its foliage renders it valuable for vases. Soak seed in tepid water some hours before sowing. Sow in spring in pots. Plants of Medeola, 1s. each.

MESEMBRYANTHEMUM

3d. per pkt.

Crystallinum (Ice Plant).—Peculiar glistening foliage, small white flowers; very pretty. Height, 6 inches.**Tricolour.**—Crimson, white and purple; suits sandy soil well. Grows to a height of 6 inches.

Beautiful dwarf-growing plants of compact habit; half-hardy perennials. The Tricolour is a good rockery plant; Crystallinum is prized for its foliage, which looks as if the plant were covered with ice. Sow spring and summer.

MIGNONETTE**(See RESEDA)****MIMOSA PUDICA** 6d. per pkt**(SENSITIVE PLANT)**

Very pretty foliage. A tender annual for bush-house culture; curious from the fact that when touched its leaves close up and droop for a time, hence its name. Sow in spring. Height, 18 in.

MIMULUS 6d. per pkt.**(MONKEY FLOWER)****Moschatus** (Musk).—Scented, yellow flower.**Trigrinus Grandiflorus** (Queen's Prize).—Very large flowered; beautiful.

A charming plant for pot culture; likes rich, light soil, and a liberal supply of water. Tender perennials. Sow in spring.

MINA LOBATA 6d. per pkt.

A charming climber. Its abundant, beautiful creamy-white flowers are bright orange when half-grown, and when in bud of a vivid red. Grows to a height of 20 feet. Sow in spring. 6d. each. 5s. per doz.

MYOSOTIS 3d. per pkt.**(FORGET-ME-NOT)****Alpestris** (Forget-Me-Not.) Blue. 3d. per packet.**Palustris.**—A true marsh Forget-Me-Not. 3d. per packet.**Ruth Fischer.**—The blooms measure fully 1/2 inch across, and colour of the true Forget-Me-Not. 6d. per packet.

This charming plant should be sown in the autumn, when it will bloom profusely during spring, covering itself with flowers of the most lovely hue; very useful for bouquets. Height, 1 foot.

NASTURTIIUM**(See TROPOEOLUM)****NEMESIA** 6d. per pkt.**SEARL'S SOVEREIGN STRAIN, Strumosa Suttoni.**—A magnificent strain of choice, large-flowered types. 6d.

Pretty, compact-growing annual, of great merit. Sow in autumn. Height, 12 inches.

NEMOPHILA 3d. per pkt.**Insignis.**—Blue; excellent for borders. 3d. per packet.**Mixed.**—All sorts; choice strain; beautiful.

A charming family of Californian annuals, of dwarf growth, and profuse bloomers, and charming colours. Sow autumn or spring. Height, 6 inches.

SEARL & SONS

FLOWER SEEDS

SYDNEY

NICOTIANA (TOBACCO PLANT)

Nicotiana Affinis.—Beautiful white flowers, with a long delicate tube. Sow during spring. Height, 36 inches. 3d. per pkt.

Nicotiana Sanderae Hybrida.—A mixture of the recently-introduced varieties; flowers are borne on bushy, freely branching plants, 2 feet high. 6d. per packet.

NIGELLA (LOVE IN A MIST)

3d. per pkt.

Damascena, fl. pl., Miss Jekyll.—Finest double blue.

Mixed.—A good selection of colours.

Pretty hardy annual, with graceful foliage. The flowers are nearly hidden in light feathery leaves; an attractive flower. Sow in autumn or spring.

PANSY or HEARTSEASE

SEARL'S SOVEREIGN STRAIN.—A mixture embracing all the best exhibition strains, from the famous growers on the Continent. 1s. 6d. and 2s. 6d. per packet.

KELWAY'S EXHIBITION.—A good strain; giant-flowered; choice mixed. 1s. per packet.

Cassier's.—Large flowered; mixed; blotched; good. 6d. pkt.

English.—Finest mixed (the true English-faced Pansy). Very showy plants; compact. 3d. per packet.

LARGE FRENCH STAINED.—We consider this one of the finest stains in cultivation; the colours are most beautiful, and include the grand new shade mahogany crimson; yellow and blue; fine form. 6d. per packet.

MASTERPIECE EXHIBITION.—Very distinct, rich-coloured varieties. Extra-fine mixture. 6d. per packet.

Choice Named Bedding Varieties.—A selection of twelve glorious shades to choose from. 3d. per packet.

The seed should be sown in boxes in autumn, and planted out early in spring so as to secure good flowers; a sandy soil is most suitable. Liquid manure during blooming season will greatly assist the size of the flowers. Height, 6 inches.

PAPAVER (POPPY)

3d. per pkt.

SEARL'S SOVEREIGN STRAIN. The Shirley Poppy.

We have imported this most beautiful flower and old favourite in eighteen (18) separate colours, and have mixed them together so as our clients can be sure of getting a good range of colours. This will not doubt be a great advantage to all lovers of the Shirley Poppy. 6d. per packet.

Admiral.—White, with broad scarlet band.

Black Prince.—Very good; nearly black.

Charles Darwin.—Rich dark purple.

Dainty Lady.—This dainty Poppy is of Australian origin; the colour being a charming shade of rosy mauve; a very welcome colour amongst the Poppies; very dark green foliage.

Danebrog.—Brilliant scarlet blotched with silvery white.

Glaucum (Tulip Poppy).—Vivid scarlet, with dark spots.

Nudicaule, Single Mixed (The Iceland Poppy).—Red, yellow, and white; perennial; unsurpassed for cutting; lasts wonderfully in water.

Iceland Double Mixed Poppies.—A superb variety of double flowers.

Oriente Royal Scarlet.—The darkest red; perennial.

Oriente Excelsior.—A glorious strain of mixed colours.

Rheas, fl. pl.—Ranunculus-flowered. Very fine, double mixture.

Rheas (Shirley Poppy).—Finest mixed, single-flowered; lovely

The Bride.—Single; white fringed.

Umbrosus.—Glowing vermilion.

Virginea.—This new large-flowering single Poppy of the annual class produces beautiful large white flowers with fringed soft pink edge. 6d. per packet.

The Poppies are undoubtedly the most desirable of all annuals. They cannot be surpassed for decorative purposes, especially the Shirley varieties. Sow during autumn or spring. 18 to 36 inches.

PENTSTEMON

SEARL'S SOVEREIGN STRAIN.—A magnificent strain of giant-flowered Gloxinia type; a most superb collection of colours. 1s. per packet.

Hartwegi Grandiflorus Mixed.—Various colours, choice strain. 3d. per packet.

A fine hardy genus, free-flowering, and bearing the spikes of pendant trumpet-shaped flowers; perennial; sow during autumn or spring.

PHASEOLUS CARACALLA (SNAIL CREEPER)

A slender climber, with full foliage, producing clusters of lovely lilac flowers, shell-shaped; very curious and beautiful. 6d. pkt.

PETUNIA

Choice Mixed, Single.—Large flowered. 6d. per packet.

Double Fringed.—Choice mixed. 1s. 6d. per packet.

Single Fringed Varieties.—Superb mixed. 1s. per packet.

SEARL'S SOVEREIGN STRAIN.—A splendid strain, producing immense Gloxinia-flowered blooms, 4 to 6 inches across, well frilled, and a most charming range of colours from almost pure white to dark purple. 1s. per packet.

Seed sown in spring will bloom during winter and autumn. This magnificent plant is admirably adapted to our climate, and blooms in profusion. Seed can also be sown in the autumn. Seeds from the double varieties will produce about 50 per cent. double flowers. Height, 30 inches.

PHLOX DECUSSATA (PERENNIAL PHLOX)

6d. per packet.

Mixed.—Quite distinct from the annual or Drummondii section.

It does not flower the first season, but the flower spikes it throws the second year are often 2 feet in height; perennial. Sow autumn and spring.

PHLOX DRUMMONDII 3d. per pkt.

SEARL'S SOVEREIGN STRAIN.—This exquisite strain is comprised of a superb mixture of 12 named varieties of the Grandiflora type and distinct colours. It is far superior to any other variety. 6d. and 1s. per packet.

Cuspidata.—Finest mixed. Distinct class, with long-winged and hinged petals; attractive.

Drummondii Nana Compacta.—Mixed. A beautiful dwarf variety, with a profusion of exquisite flowers; bush-like habit; does not run.

Grandiflora.—Finest mixed. Lovely, large-flowered varieties, with beautiful markings; the finest strain in cultivation.

Among our summer-blooming annuals, the Phlox Drummondii must take a first place. Sown in the autumn it will flower in winter, and continue for several months. A later sowing in early spring will give plants which will bloom throughout the summer, and if planted in beds will produce a most dazzling effect, as the flowers often hide the foliage. The Phlox possesses a great variety of colour; it is dwarf in habit and hardy. Some varieties are of delicate colours, while others are brilliant and dazzling.

PORTULACCA

Grandiflora, Double.—Mixed; large variety. 6d. per packet.

Grandiflora, Single.—Mixed; splendid colours. 3d. per pkt.

A plant particularly well adapted to our climate, and flowers magnificently in the warmest situation. Will thrive in hottest and driest places. Very hardy annual. Sow spring and summer. Height, 8 inches.

POTENTILLA 3d. per pkt.

Hybrida Single.—Finest mixed. The colours are shades of red and brown, some striped.

Handsome herbaceous perennials. They keep in flower a long time; both double and single varieties. Sow during autumn and spring. Height, 12 inches.

PRIMULA 6d. per pkt.

Obconica Grandiflora Fimbriata.—Mixed. Very floriferous, and excellent for pots and bouquets.

Sinensis Fimbriata. Finest mixed, large type. 1s. per pkt.

PYRETHRUM 3d. per pkt.

Aureum (Golden Feather).—The flowers are insignificant, but when kept down by pinching the flower stems, the young leaves produced are of a bright golden colour, which is most effective as a carpet border or ribbon bordering. Height, 9 in.

Roseum Hybridum.—Single, fine mixed, 18 inches. These useful edging Pyrethrums make very effective borders. P. Roseum is the flowering type, and have blossoms resembling Marguerites on long stems. Perennial. Should be sown in autumn and spring.

RANUNCULUS 6d. per pkt.

Asiaticus Superbissimus.—Finest varieties, mixed; producing flowers in a great variety of colour the first season from sowing seed. Seed should be sown in January or February.

RESEDA ODORATA 3d. per pkt.

(MIGNONETTE)

SEARL'S SOVEREIGN STRAIN.—A choice mixture of the leading Machets. 6d. and 1s. per packet.

Crimson Giant.—A beautiful red-flowering sort.

Golden Queen.—Free-flowering, highly perfumed.

Odorata.—Old sweet-scented. Deliciously perfumed.

Machet.—Excellent for pots; reddish spikes; the best variety grown.

Machet New Giant Crimson.—A new variety of Machet, spoken very highly of in England.

Red Giant.—Rich and fragrant.

Rubin.—Beautiful bright copper scarlet.

White Pearl.—Fine, white-flowered Machet.

This grand old annual is known to all, and its delicious perfume cannot be surpassed. It is easily grown, and some varieties make excellent pot plants. Sow in open garden during autumn and early spring.

RHODANTHE 3d. per pkt.

Finest Mixed.—Single sorts; choice.

Maculata Alba.—Pure white.

Maculata.—Rosy pink, dark centre. One of the choicest of the early-flowering everlastings; we highly recommend it.

These hardy annuals; are well adapted to the dry places in the garden. They are a specie of everlastings. Sow in spring. Height, 12 inches.

RICINUS AFRICANUS

(CASTOR OIL PLANT)

3d. per packet.

Sow in spring and summer. Height, 5 feet.

ROMNEYA 6d. pkt.

(CALIFORNIAN TREE POPPY)

Coulteri.—Pure white flowers, of 5 to 6 inches in diameter, with delicate perfume.

A hardy perennial plant, suitable for outdoor cultivation; foliage deeply cut and glaucous. Sow in spring. Height, 6 feet.

RUDBECKIA 3d. per pkt.

Bicolor Superba.—Golden yellow. 3d. per packet.

Neumannii.—Dwarf, floriferous; flowers vivid yellow, dark centre. 6d. per packet.

These handsome perennial hybrids produce a mass of yellow or bronze flowers striped and blotched in a remarkable manner with purple brown. The flowers have a purple centre, and are from 2 to 3 inches in diameter, borne on long stems continuously through the summer. They are of a beautiful class of semi-annuals, which make very effective garden plants; splendid for cutting. Sow in spring.

SALPIGLOSSIS

SEARL'S SOVEREIGN STRAIN.—A most brilliant collection of large flowers, reselected from the well-known Superbissima strain. A magnificent mixed. 6d. per packet.

Variabilis Grandiflora.—Finest mixed. 3d. per packet.

For brilliancy of colour, variety of tint and marking, and size and striking effect, Salpiglossis may be fitly designed "the Orchids of the hardy annuals." It can scarcely be said that there are any true self colours, for diversity of marking is seen on all, but some more nearly approach the self-character than others, while some are very handsomely striped and flaked. There is no other annual which makes such a striking effect when bunched as does the Salpiglossis, and it is a flower which should find a place in every garden.

SALVIA 6d. per pkt.

Coccinea Splendens.—Scarlet, lovely, free-flowering.

Bonfire.—Brilliant glowing scarlet.

Brilliant.—Glowing scarlet; beautiful.

Farinacea.—Beautiful bright lavender; most adaptable for mass bedding.

Patens.—One of the brightest blue-flowered plants; very beautiful. 1s. per packet.

Most striking garden plants. The scarlet is easily grown, and is very hardy. Patens is not so easily grown, but the beauty of its lovely blue flower will repay the necessary care.

SHASTA DAISY

(See LEUCANTHEMUM)

SCABIOSA

(MOURNING BRIDE)

SEARL'S SOVEREIGN STRAIN.—An improved dwarf strain; immense flowers and a glorious mixture of colours. 6d. per packet.

Azure Fairy.—Beautiful rich pale blue, large flowered; a decided acquisition. 6d. per packet.

Caucasia.—The flowers, which will last in winter for a week, are of a most lovely lilac tint. In warm climates they should be grown in shade and protected from hot winds. 2 feet. Perennial. 6d. per packet.

Caucasia Alba.—A most beautiful white. Same form as the Caucasia. 6d. per packet.

Dwarf.—Double mixed. An excellent variety. 3d. per packet.

Japonica.—A hardy Japanese perennial of graceful, bushy foliage and habit, 3 feet high, producing immense numbers of beautiful mauve or lavender blue flowers on stiff wiry stems, fully 18 inches long. 6d. per packet.

SCHIZANTHUS 1s. per pkt.

Wisetonensis.—It bears a mass of nice dainty flowers, varying from white with yellow eye to a brilliant rose with bronzy centre, carried well above the feathery foliage. Splendid for pot culture; handsome foliage, and bears thousands of butterfly-like blossoms. Well worth a place. Sow during autumn and spring. Height, 24 inches, except dwarf variety.

SMILAX

(See MEDEOLA)

SNAPDRAGON

(See ANTIRRHINUM)

STATICE 3d. per pkt.

Perennial Sorts.—Fine mixed.

Sinuata Hybrids, Mixed.—Containing an assortment of all the annual varieties.

STOCKS (Ten-Week Variety)

SEARL'S SOVEREIGN STRAIN, No. 1.—Mixture of the best strains; splendid. 6d. per packet.

Giant Perfection.—Finest mixed. Gorgeous, large flowering. 3d. per packet.

Large Flowering Dwarf.—Finest mixed. Produces enormous spikes. 3d. per packet.

Sutton's Giant Perfection.—Choice mixture in original packets. 1s. per packet.

Giant Nice Varieties

SEARL'S SOVEREIGN STRAIN, No. 2.—This special strain is made up of all the leading Nice varieties of Stock, specially for those who require a reliable mixture of QUALITY not QUANTITY. 1s. and 2s. 6d. per packet.

Almond Blossom.—White, tinted palest pink. 6d. per packet.

Abundance.—This splendid class of Nice Giant or Early Large-flowering Winter Stocks, is of a dwarf habit, with a quite phenomenal profusion of bloom. The colour is a fine shade of carmine-rose. 6d. per packet.

Bianca.—Large white. 6d. per packet.

Beauty of Nice.—Grows 2½ feet high. Flowers are particularly large, good form, fragrant and delicate shade of fleshy pink. 6d. per packet.

Crimson King.—One of the most recent. Beautiful crimson, large-flowering type. 6d. per packet.

Canary Yellow.—A pure yellow; large-flowered. 6d. per pkt.

Carmine.—A welcome addition to this favourite class of Stocks. A pretty shade of carmine, distinct; splendid for bedding. 6d. per packet.

Deep Lilac.—Delicate shade of colour. 6d. per packet.

La Brillant.—Glowing scarlet. 6d. per packet.

Peach Blossom.—Beautiful deep pink self. 6d. per packet.

Pride of Keller.—Glorious purple. 6d. per packet.

Princess Alice.—Pure white; beautiful. 6d. per packet.

Queen Alexandra.—This is a splendid variety. The flowers are extra large and well arranged on an immense central spike nearly a foot high, and surrounded by numerous side shoots. The flowers are a delicate rosy lilac. 6d. per packet.

Rose of Nice.—A rosy mauve. 6d. per packet.

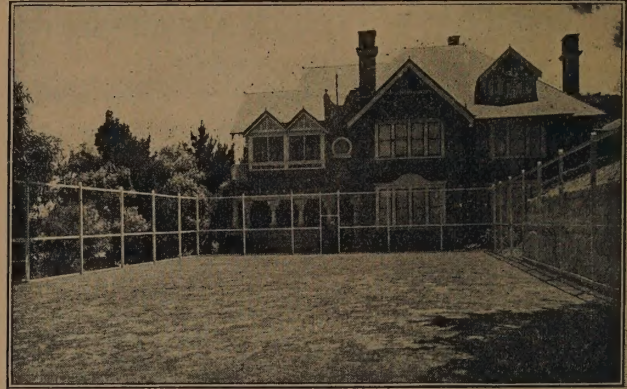

Soleil de Nice.—A good yellow of good form; large flowered; 6d. per packet.

White Lady.—An exquisite variety with enormous heads of dazzling whiteness. Undoubtedly the finest white yet grown. Stocks succeed well in any part of our State if the season is favourable: if they are grown in good rich soil. They are all beautiful plants, very showy, and delightfully perfumed. The intermediate and Brompton Stocks produce splendid spikes of flowers. Stocks are gross feeders and like manure and well-enriched soil worked deep. The Bromptons, if sown in the autumn, will flower the following spring. The Ten-weeks are hardy annuals and grow about 12 inches. The Brompton and intermediate are hardy biennials. Sow the Nice varieties from mid-December to May, other sorts during autumn.

LAYING-OUT AND RECONSTRUCTION WORK

In the Making.

Day of Completion.

(The above photographs depict the formation of a Tennis Court for Mrs. Casey, Point Piper).

The Garden and Residence of Richard Hughes, Esq., Drummoyne.

SAMPLES OF OUR WORK.

BRIGHTER HOMES

Remodelling and **Laying-Out**, are two very important branches of our Out-door Work.

Artistic Fencing, Rustic Paths, Pergolas, Bush Houses, Lily Ponds, Tennis Courts, Walls, etc., are undertaken by a competent staff and executed in a style that carries its own advertisement.

SEE US ABOUT YOUR HOME.

STOKESIA

6d. per pkt.

Cyanea, Blue.
Cyanea, White.—Large white.
Stokes' Aster. Very pretty and hardy biennials.

STREPTOCARPUS

1s. per pkt.

Veitch's Hybrids.
Choice mixed hybrids, very beautiful miniature Gloxinia-like flowers. Suitable for pot culture.

TAGETES (Marigold)

(See also CALENDULA)

3d. per packet.

Hardy, constant bloomers. French varieties have beautifully shaped orange flowers, striped and flaked with brown. African varieties have large self-coloured flowers. All are annuals. Sow during spring and summer. Height, 18 inches to 2 feet.

Erecta, 1. plena, Aurea.—Tall orange.
Erecta, 1. plena, Sulphurea.—Tall lemon.
Erecta, Dwarf Double African.—Fine mixed.
Erecta, Tall Double African.—Fine mixed.
Fatula, Tall Double French.—Mixed.
Fatula, Dwarf Double French.—Mixed.

TREE MARIGOLD

A beautiful acquisition to our list. Attains height of 8 feet, and is literally covered with magnificent orange yellow blooms; very hardy; does well in cold climate. 6d. per packet.

THUNBERGIA

6d. per pkt.

Alata.—Fine; mixed colours.
A beautiful half-hardy annual, of twining habit; flowers of brilliant colours, and very striking; the plant grows rapidly when once started. Sow in spring. Height, 36 inches.

TORENIA

1s. per pkt.

Fournieri.—Blue.
An elegant and extremely ornamental pot plant, of great beauty; tender perennial, suitable only for glass or bush-house cultivation. Height, 12 inches.

TROPAEOLUM

3d. per pkt.

(NASTURTIIUM)

MAJUS. TALL NASTURTIIUMS.

Finest Mixed.—All the best varieties.
Tall Ivy-leaved.—Mixed. 6d. per packet.

NANUM (TOM THUMB). DWARF NASTURTIIUMS.

Tom Thumb Varieties.—The colours are gay and attractive, lending themselves admirably to borders, rockeries and mass bedding.

Golden Cloth.—Yellow foliage, scarlet flowers.

H. M. Stanley.—Rich, bronze yellow.

King.—Brilliant scarlet, dark foliage.

King Vesuvius.—Deep crimson, dark foliage.

Pearl.—Delicate pale primrose.

Bronze.—Most enchanting shade.

Terracotta.—Unique colour; very showy.

Spotted.—Dazzling variations of colour.

Finest Mixed.—All the best sorts.

Dwarf Ivy-leaved Nasturtium.—Mixed. 6d. per packet.

Dwarf varieties do not grow more than 9 inches, and form compact bushes, and flower abundantly; can be transplanted, and should be planted 12 inches apart. The tall varieties will spread or climb 15 feet. Sow autumn and spring. Hardy annuals, and do well in any soil.

TROPAEOLUM

CANARIENSE

(CANARY CREEPER)

Yellow. One of the most beautiful of our tender annuals; the foliage is very delicate, and the flowers of a golden yellow colour; must have a sheltered position. Sow in the spring. 6d. packet.

VERBENA

6d. per pkt.

Mammoth Grandiflora.—Large flowered; very fine, mixed.
Hybrida (Auricula-Eyed) Monstrosa.—The flowers measure 1½ inches across, of good substance, and in a great variety of colours. 1s. per packet.

One of our most beautiful bedding plants, very hardy and of magnificent colours; not particular to soil or situation; blooms in profusion. Sow in autumn or spring. Height, 18 inches.

VINCA

3d per pkt.

Choice Mixed.

Pretty perennial border plant with periwinkle-like flowers. Two feet.

VIOLET

6d. per pkt.

Admiral Avellan.—The well-known red variety.

Odorata Alba.—White.

Odorata Mixed.—All sorts.

Odorata (Sweet Violet).—Old fragrant variety.

Princess of Wales.—Large dark blue, beautiful perfume.

The Czar.—Rich, dark purple.

The Czar, 1. Albo.—Large white.

WAHLENBERGIA

6d. per pkt.

Perennial Campanula.—A very pretty and effective blue flower. Makes an attractive pot plant.

WALLFLOWER

Double Mixed.—Beautiful double flowers of various colours; a good selection. 6d. per packet.

Kewensis.—A very early single-flowering variety. Seed sown in January, February and March will produce an abundance of flowers during the winter months; very sweetly scented. 6d. per packet.

Single Mixed.—A beautiful selection of all colours. 3d. pkt.
Well-known English favourites, beautiful perfume, and the double varieties are striking and most beautiful. Sow autumn or spring. Height, 12 inches.

ZINNIA

GRANDIFLORA ROBUSTA PLENISSIMA.

The flowers are giant-flowered. It is a decided advantage to those who wish to grow these in distinct colours, that they may be bought in the following colours: **CRIMSON, VIOLET, SULPHUR YELLOW, GOLDEN YELLOW, SCARLET, FLESH COLOUR, PURPLE, WHITE.** 3d. per packet, 8 packets for 1s. 6d.
Elegans Grandiflora Robusta Pleniissima.—Mixed. A Zinnia of immense size, and very robust in growth, the flowers measuring 5 to 6 inches across.

Elegans Pumila, 1 pl.—A surprisingly beautiful dwarf strain; wonderful shades of colour, and flowers all double.

Elegans Tom Thumb.—Double; various brilliant colours; very dwarf, only 12 inches.

Lilliput Flowered.—Mixed. A charming small flowering class, of double Zinnias, suitable for borders; flowers adaptable for bouquets, etc.

Striata, 1. pl.—Striped; fine; mixed.

One of the grandest annuals in cultivation; has been wonderfully improved of late years, and Zinnias flower throughout the entire summer. They should always be transplanted. Tall varieties, 2 feet 6 inches to 3 feet.

SEARL'S RAINBOW COLLECTION 2/-

OUR LEADING SPECIALITY

Collection of Flower Seeds for Autumn or Spring Sowing, easily Grown from Seed.

These Collections, made up to suit the season, contain only Seeds of the best quality and of the most popular varieties, and will produce an abundant supply of bloom. Specially recommended for Amateur Gardeners.

Post free to any part of the world, 2/- each collection of 12 packets.

FRESH PLANTS EVERY DAY

Can be supplied at our City Depot of Seasonable Annuals, so that our City Customers may get them taken from the ground the same day as they buy them.

PALMS, FERNS and other POT PLANTS always on hand.

Searl's Novelty Roses for 1920

At 3/6 each.

Captain F. Bald (H.T.).—(A. Dickson). The growth is vigorous and branching habit, blooming profusely; the blooms are large, full, and globular in form; colour rich apricot, flushed salmon-pink; an entirely new shade; delightfully fragrant.

Chas. K. Douglas (H.T.).—(A. Dickson). Vigorous upright growth; flowers large, full and fine form, with long pointed buds abundantly produced right throughout the season; colour intense flaming scarlet, flushed bright velvety crimson; very sweetly scented.

Climbing H. V. Machin (H.T.).—(Hugh Dickson). A vigorous climbing sport of this well-known and justly esteemed rose; a climbing novelty of the greatest value.

Countess of Lonsdale (H.T.).—(Hugh Dickson). Free, vigorous grower; flowers medium size and fine form; colour deep cadmium yellow; a fine bedding rose of good habit and type; very sweetly scented.

Duchess of Abercorn (H.T.).—(Hugh Dickson). Vigorous, upright branching growth; flowers large, full and beautifully formed; colour creamy white, flushed and tinted bright rose at edges of petals.

Edel (H.T.).—(McGredy). White, with the faintest ivory shading towards the base, passing to pure white; a fine grower with uniform stout habit, making it specially suitable for massing and bedding.

E. Godfrey Brown (H.T.).—(Hugh Dickson). Vigorous upright growth; enormous flowers of splendid form; a magnificent exhibition rose, with petals of great size and substance, full and high centred; colour deep reddish crimson.

Elegante (H.T.).—(Pernet Ducher). A very vigorous grower of erect branching habit; gay green foliage; long, sulphur yellow bud; large, full, globular flower; creamy yellow colour; very free flowering.

John Davison (H.T.).—(McGredy). Deep rich crimson, shaded velvety crimson; very perpetual blooming; every bloom comes good and large enough for exhibition purposes; good for bedding and massing.

Kathleen Harrop (Bourbon).—(A. Dickson). This is a very distinct and beautiful sport from Zephyrine Drouhin, possessing its delightful fragrance; the large semi-double flowers are a soft pale shell-pink, a delightful shade; highly recommended.

Lady Dixon (H.T.).—(A. Dickson). Vigorous growth and branching habit, blooming profusely; rich apricot, flushed salmon-pink, an entirely new shade; an excellent rose for exhibition or massing.

Louise Baldwin (H.T.).—(McGredy). Rich orange with soft apricot shading over the entire petal; a beautiful even colour, and a big advance on all roses of the Lady Hillingdon type. Quite hardy, a good grower, and very free blooming.

Mr. C. V. Haworth (H.T.).—(A. Dickson). As the bloom expands its colour is cinnamon apricot, developing into a delightfully delicate biscuit-buff, with very delicate cerise rose sheen on the reflex.

Mrs. C. W. Dunbar-Buller (H.T.).—(A. Dickson). Colour veined, warm, clear rosy deep carmine, on rosy white, with lemon base. The reflex of the petals is solid rosy cerise, and the edges of the shell-shaped petals become silvery white as the globular buds develop their large and full imbricated blooms; an absolutely distinct variety either for exhibition or massing; a profuse bloomer.

Mrs. H. Morse (H.T.).—(McGredy). Bright rose, deeply impregnated and washed vermillion, with clear vermillion veneerings on petals; a superb exhibition bloom; sweetly scented.

Novelty Rose of Australian Origin

Black Boy (New Climbing Rose).—This magnificent rose was raised by Mr. Alister Clark, of "Glenara," Bulla, Victoria, and has been presented to the South Australian Horticultural and Floricultural Society and the National Rose Society of South Australia. "Black Boy" is the darkest climbing rose yet offered. The bud is well shaped and the flowers most attractive. The colour is a deep crimson, shaded with blackish maroon overlaying fiery scarlet, giving a rich luminous effect, and it is sweetly scented. It has great vigor and good foliage, which is mildew-proof, and when covered with its dark crimson flowers is a remarkable sight. It is a most distinct rose and will grow strongly anywhere. It has been admired by all who have seen it, and it will fill the want of a good dark climber. 2s. 6d. each; postage extra.

Recently Introduced at 2/6 each

Alexander Emelie (Hybrid Tea).—Ruby red, on deep velvety crimson ground, free bloomer.

Australia Felix.—A welcome introduction of good habit and possessing all the essential points; deliciously perfumed; free and continuous bloomer. It makes a fine bush, and will do well in any garden with or without pruning. Colour, an exquisite shade of pink; well shaped, and lasting well when cut. Awarded Gold Medal, National Rose Society of Victoria.

Chameleon (Hybrid Tea).—Pure flame shade, edged with cerise; very free blooming.

Christine (Hybrid Tea).—Clear, deep golden yellow; very free.

E. N. Ward (Kershaw).—New dwarf polyantha rose, soft warm pink sometimes tipped with carmine; free bloomer; foliage glossy and mildew proof; the best polyantha to date.

Frances Gaunt (Hybrid Tea).—Deep fawny apricot; an excellent introduction.

Golden Ophelia (Hybrid Tea).—Deep golden yellow, centre paler towards edges.

H. F. Pinkerton (Hybrid Tea).—Brilliant scarlet, heavily shaded and flushed deep crimson; a splendid bedder.

Mrs. H. Balfour (Hybrid Tea).—Exquisite ivory white with primrose shading.

Nora Power.—New climbing decorative rose of very strong climbing habit, handsome foliage of a rich bronze colour in the young stage; the colour of the flower is deep apricot, shaded with red, opening to a light buff, tinged with peach. The flowers are single and borne in great profusion. Awarded Certificate of Merit, National Rose Society of Victoria.

Queen Alexandra (Hybrid Tea).—Intense vermillion, heavily shaded old gold on reverse of petals; free and full.

T. F. Crozier (Hybrid Tea).—Deep canary yellow; large, full and fine form; free and splendid bedder.

Ulster Volunteer.—Single bedding rose, brilliant red, with clear white centre, very large flowers borne in great masses.

STANDARD ROSES

WHEN ORDERING ROSES. Customers at times unintentionally refer to "Dwarf" Roses, as "Standards." As there is both a difference in habit as well as price we would ask our clients to kindly bear this fact in mind when ordering.

We have a fine stock of plants, and give a list of the varieties on application which we specially recommend as most suitable for growing as Standards.

Full Standards, 3/6 each.

Stems about 3 feet high.

Half Standards, 3/- each

Stems about 2 feet high.

GENERAL LIST of

Ever-Blooming Tea, Hybrid Tea, ROSES

Hybrid Perpetual and Polyantha

Directions for Planting.—See that the drainage is good when selecting ground to plant Roses. The land should be well drained if moist; this done, the ground should be trenched 18 to 24 inches deep, as the nature of the soil will permit; and be particular that the surface soil is left upon the top, introducing manure freely. After this treatment the beds will last for several years with occasional dressings of manure. Make the ground even, and when digging the holes to receive plants, take out sufficient soil to let the roots down, say, four or five inches below the surface, open the soil for a good distance around so as to allow the roots to spread freely, sprinkle fine soil over them, cover all evenly, and tread down firmly so as to consolidate soil about the roots, then stake them carefully and give them a good watering.

EVER-BLOOMING ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

Admiral Ward.—Vigorous, globular flower, with large petals; crimson red colour, shaded with fiery red.

Alexandra (T.).—Flowers orange buff, shaded bronze, good shape. This variety was especially named by H.R.H. Edward VII in honour of Queen Alexandra.

Alexander Hill Gray (T.).—Its growth is vigorous and erect. The colour is lemon yellow. Strongly tea perfumed.

Alice Grahame.—Ivory white, tinted salmon. Distinct and magnificent rose of the highest excellence and perfect form. This variety frequently varies, both in form and colour. Free and continuous bloomer.

Alliance Franco-Russe (T.).—Flowers bright yellow, shaded salmon in centre; strong upright stalk and a long bud; a first-class variety.

American Beauty (T.).—Exquisite bloom, rosy cerise.

Antoine Rivorie (H.T.).—Pale rosy-flesh, shaded salmon.

Archduchess Marie Immaculata.—Terra-cotta-red, shaded coppery-yellow; large and full.

August Compté (T.).—Reddish-yellow centre, outer petals beautiful carmine red.

Autumn Tints (H.T.).—Coppery red, shaded with orange and salmon; medium sized flowers.

Avoca (H.T.).—Colour crimson scarlet; buds long and pointed; flowers large and sweetly perfumed; makes a fine bush.

Beatrice (H.T.).—When fully developed the outer petals are very pale flesh and the centre bright pink.

Beryl.—Long, beautiful buds of a rich orange colour; one of the best for buttonhole and decorative work.

Betty (H.T.).—Colour, ruddy gold; of fine form; growth vigorous and erect.

Beauty Inconstant (T.).—Coppery-red, shaded carmine and yellow.

Belle Siebrecht (H.T.).—Bright rosy-pink; buds long and handsome; large and fairly full.

Bertha Gaulis.—Flowers very large, full, and of perfect form; colour, China rose, with darker centre.

Bessie Brown (H.T.).—A first-class grower, with extra large ivory-white flowers with blush centre.

Bridesmaid (T.).—A clear, bright pink sport from Catherine Mermet.

Brilliant (H.T.).—Colour, the most intense scarlet, the brightest colour yet achieved in roses, the fiery brilliance of which is quite startling.

British Queen (H.T.).—Pure white, bud generally flushed in early stage.

Cardinal (H.T.).—Cardinal red, large, full, sweet and floriferous, growth vigorous.

Carine (H.T.).—The colour is orange-carmine, blush buff, creamy-fawn, and coppery-salmon; strongly tea perfumed.

Catherine Mermet (T.).—Light rose uniform colour; large, full, and of excellent form.

Charles de Lapsisse.—Creamy-white, very large, full and well-formed.

Chas. J. Grahame (H.T.).—(Dickson). Colour a rich orange crimson, of good substance and perfect shape; petals large and smooth; of vigorous growth and handsome foliage. Awarded F.O.C. of R.H.S.

Chateau de Clos Vougeot (H.T.).—Velvety-scarlet, shaded with fiery red, changing to dark velvety-crimson as the flowers expand.

Chrissie Mackellar (H.T.).—Deep ochry madder, veined carmine.

Clara Watson (H.T.).—A beautiful light-coloured rose of perfect shape; tree of good habit; centre of flower shaded salmon and rose.

Clarice Goodacre (H.T.).—Biscuit chrome on ivory white.

Cleveland.—Coppery rose, flushed metallic reddish copper.

Colcestria (H.T.).—A strong pillar rose, blooms large and full and delightfully perfumed. Colour satin rose. Awarded the "Clay Cup" at Holland House Show for fragrance and general excellence.

Colonel Oswald Fitzgerald (Hybrid Tea).—Blood red velvety crimson, beautifully finished blooms produced in great profusion on erect stems; growth vigorous and branching; pure Tea perfume. 1s. 6d. each

Corallina (T.).—Deep rosy carmine flowers, shaded coral red; growth vigorous; a charming novelty for decorative work.

Coronation.—Beautiful shrimp pink.

Countess Clanwilliam (H.T.).—Colour, delicate peach pink at the base of the petals, which are heavily edged with deep cherry red; a beautiful contrast of colour.

Countess of Pembroke.—Soft satiny rose, with deep centre extra large and full.

Comtesse de Labarthe (T.).—Rosy-flesh, fine globular form, and fairly full; very free flowering.

Comtesse du Cayla (China).—Reddish-carmine, tinted orange on reverse of petals to large orange-yellow, shaded carmine.

Comtesse La Barthe.—Rosy-flesh, globular and fairly full; very free blooming.

Countess of Gosford (H.T.).—Vigorous, salmon-pink and rose-pink running into each other; the base of the petals suffused saffron-yellow.

Crimson Chateaufort (H.T.).—Similar in habit and freedom of flowering to Madame Abel Chateaufort; crimson red.

Crimson Emblem (H.T.).—Dazzling crimson scarlet, foliage mildew proof.

Cupid.—Single, produced in clusters; the colour in the half-developed stage is a flesh with a touch of peach, softening to delicate flesh and opal when fully expanded; pillar.

C. V. Haworth (Hybrid Tea).—Intense black scarlet, with rich crimson pile. The blooms are of good size, perfectly formed and freely produced, growth vigorous; a fine rose with delicious perfume. 1s. 6d. each.

Dean Hole (H.T.).—The blooms are very large, of great substance; colour, silvery-carmine, shaded salmon.

Devoniensis (T.).—Creamy white blush centre.

Donald MacDonald (H.T.).—Orange carmine, very glowing; beautifully shaped petals.

Dorothy Page Roberts.—Colour being a lovely shade of coppery-pink suffused with apricot-yellow.

Double Pink Killarney (H.T.).—This variety will supersede the Killarney now grown. It possesses more petals than the original type; free.

Dr. Cazaneauve.—Intense dark red.

Dr. Grill (T.).—Light rose, centre coppery yellow.

Duchess of Portland.—Clear sulphur yellow, delicate.

Duchess of Sutherland (H.T.).—Delicate warm, rose-pink, with lemon shading on the white base.

Duchess of Wellington (H.T.).—Intense saffron-yellow stained rich crimson.

Duchesse of Westminster (H.T.).—Very sweetly perfumed. The colour is a dainty clear rose.

Earl of Gosford (H.T.).—Dark crimson, fine, strong grower; fragrant.

Earl of Warwick (H.T.).—Flowers rich soft salmon-pink, shaded in the centre with vermillion.

Edgar M. Burnett (H.T.).—Colour, flesh tinted rose. This is undoubtedly the sweetest scented rose in existence, surpassing even La France.

Edward Mawley (H.T.).—Beautifully scented, rich dark crimson

Eli Hartmann (H.T.).—A charming new rose of vigorous and erect growth, producing large quantities of bloom of a rich old golden yellow colour; sweetly scented.

Ernest Metz.—Soft carmine, deep centre, vigorous.

Ethel Dickson (Hybrid Tea).—Flowers large and very full, with high-pointed centre. Colour, deep salmon rose with silvery reflexes; vigorous and upright growth; a fine bedding variety. 1s. 6d. each

EVER BLOOMING ROSES—Continued.

Etoile de France (H.T.).—Colour, velvety crimson, centre vivid cerise-red, blooms large, full and of magnificent cupped form; first class.

Florence Pemberton (H.T.).—Creamy-white; a superb variety; vigorous grower, of free-branching habit.

Frances Dubrioul (T.).—Velvety-crimson, reflexed with cerise and amaranth; a very fine red tea rose, with buds of great beauty.

Fran Lila Mautenstraugh.—Apricot orange suffused yellow; large good exhibition rose.

Frau Margrethe Moller (H.T.).—Centre old rose, shading on paler towards the outer petals; large and perfectly-formed flowers; very sweetly scented.

Friedrichsruh (H.T.).—Blood red; large and full, flowers freely and continuously; compact habit. Awarded Gold Medal at Dusseldorf; colour very rich.

Freiherr von Marschall (H.T.).—Colour deep rosy red, with darker veins; large, free and full; a beautiful rose of MdM. Jules Grolez type, but darker in colour.

G. Amadee Hammond.—Colour cadmium or egg yolk, shading off to fawn or delicate buff; blooms large, full; floriferous and fragrant; growth robust. Gold Medal N.R.S.

George C. Wand (H.T.).—A glowing orange-vermilion. The flowers are large, perfectly formed, with highly-pointed centre.

George Dickson (H.T.).—Produces blooms quite 5 inches across. Velvety black scarlet crimson with brilliant scarlet reflexed tips, heavy and uniquely pure crimson maroon veining on the reverse.

George Schwartz (T.S.).—Bright, deep canary-yellow, very deep and rich in colour; large and fairly full.

General MacArthur (H.T.).—Flowers of the richest crimson, shaded scarlet.

General-Superior Arnold Janssen (H.T.).—Brilliant carmine; nice form; growth vigorous; an excellent cutter for the home; can recommend.

Gladys Harkness (H.T.).—Salmon-pink; large and fragrant; of fine form; growth vigorous.

Gladys Holland (Hybrid Tea).—Colour, buff, shaded orange yellow outside of petals soft rose. Fine form and size, and of uniform habit of growth, carrying blooms on upright stems, delicately sweet scented. Awarded Gold Medal of the National Rose Society. 1s. 6d. each.

Golden Spray (Hybrid Tea).—The growth is quite distinct from any known variety, sending up long arching shoots forming elegant sprays; every bud opens in succession. Deep Marechal Niel yellow. Awarded Gold Medal of the National Rose Society. 1s. 6d. each.

Gorgeous (H.T.).—Colour, deep orange-yellow, flushed copper-yellow, and heavily veined with reddish copper.

Grace Molyneux (H.T.).—Colour, creamy-apricot, flesh in the centre

Grand Duchess Alexandra (H.T.).—Creamy-white; sweet-scented.

Gruss an Teplitz (H.T.).—Flowers large and cupped; very free and vigorous; colour, bright crimson-scarlet.

Gustave Grunerwald (H.T.).—Bright china pink, with apricot centre; large and full; good garden rose, with a delicious perfume.

Hadley (H.T.).—A fine new American introduction; deep velvety crimson; flowers beautifully formed; full and sweetly scented.

H. Armytage Moore (H.T.).—The colour is a delightful shade of rosy-pink on the outside of the petals, the inside of the petals being a delicate silvery-pink.

Harry Kirk.—Colour, deep sulphur-yellow, passing to a lighter shade at edge of petals.

Hector Mackenzie (H.T.).—Enormous flowers, of a light red colour; petals of extra length; flowers full and of good form; a fine exhibition and garden rose of first-class habit.

Henrietta (H.T.).—Colour fiery orange-crimson; one of the finest roses for bedding purposes; flowers erect on long stems, buds long and pointed, petals of exquisite shape; very free habit, and sweetly scented.

H. E. Richardson (H.T.).—Deep rich crimson, vigorous upright growth, large and beautifully-formed flowers

Herzogin Maria Antoinette.—Pure orange old gold, very long-pointed buds, deep orange, striped salmon and crimson.

His Majesty (H.T.).—Dark crimson; shaded deep vermilion.

Homere.—Pale rose with salmon centre; petals often bordered with pink; full and good form; blooms in clusters.

Hoosier Beauty (H.T.).—A magnificent rose; beautifully formed flower carried on stiff stems; colour richest glowing crimson, with amaranth shading; a splendid variety for florists' work.

Hugo Roller.—The ground colour is rich lemon-yellow, the petals being edged and suffused with crimson; flowers of medium size.

H. V. Machin (H.T.).—Colour intensely black grained scarlet crimson, the blooms are carried on rigid flower stalks; faintly tea perfumed.

Iona Herdmann (H.T.).—A pure clear orange flame, the greatest lift in colour yet attained in roses; without question the most beautiful decorative yellow rose in existence.

Irish Elegance (H.T.).—Single, long buds of a coppery-salmon shade, very vigorous.

Irish Engineer (H.T.).—Single. The colour is dazzling scarlet; very brilliant and attractive.

Irish Fireflame.—Single. In the bud stage it is a deep maddery orange, splashed with crimson, which, as the bud develops, becomes fiery orange crimson.

Irish Harmony (H.T.).—Single. Of vigorous growth and perfect branching character. Colour, cream, changing to white.

Isobel (H.T.).—Carmine red, shaded orange scarlet; single; sweetly scented.

Janet (H.T.).—Its colour in the young stage is delicate egg-yoke, silky salmony flesh or golden-ochre, with thick shell-like petals.

J. B. Clarke (H.T.).—Intense deep scarlet; growth sturdy and upright.

Jean Note (H.T.).—Creamy white, with rich chrome yellow centre; tree of good branching habit; flowers very freely produced; shape good.

Jean Pernet (T.).—Bright yellow, changing to deep yellow; large and full

Jonkheer J. L. Mock (H.T.).—One of the finest of roses; flowers extra large, carried on stiff erect stems; sweetly perfumed, and of perfect formation; colour, carmine, changing to Imperial pink. Awarded two gold medals.

Joseph Hill.—Salmon-pink, shaded with yellow and ochre, outside of petal coppery-pink; fine both in bud and flower.

Juliet (T.).—Outside of petals, old gold, interior rich rosy red changing to deep rose as the flowers expand.

Kaiserin Augusta Victoria (H.T.).—Pure white, centre slightly shaded with cream; large, very full and of perfect form; free-flowering and vigorous; one of the best.

Killarney (H.T.).—Very free and perpetual; large, long-pointed buds; flesh tinted white and pink.

Killarney Brilliant (H.T.).—This is an improvement on the original pink Killarney, much more brilliant in colour.

King George V. (H.T.).—Colour rich blackish crimson, with deep velvety violet flush.

K. of K. (Hybrid Tea).—Semi-single rose of intense scarlet, large velvety petals; vigorous and branching growth; blooms are produced in great profusion. Awarded Gold Medal of the National Rose Society. 1s. 6d. each.

Konigin Carola.—A seedling from Caroline Testout, with extra large silvery rose-coloured flowers.

Kootenay (Hybrid Tea).—Large globular form and good substance, produced in great profusion. Colour, beautiful primrose; an improved Kaiserin Victoria. 1s. 6d. each.

Lady Alice Stanley (H.T.).—Deep coral rose, inside pale flesh, slightly flushed deeper flesh; blooms large and full; fragrant.

Lady Ashtown (H.T.).—Colour, very pale Rose du Barri, shading to yellow at base of petals, reflex of petals silvery-pink.

Lady Battersea (H.T.).—Beautiful cherry-crimson, with orange shading; long, pointed bud.

Lady Dunleath (H.T.).—A rose whose long-pointed ivory-cream-white, egg-yoke, yellow-zoned petals create beautifully-finished blooms.

Lady Hillington (T.).—Orange-yellow, long buds; fine exhibition rose.

Lady Plymouth (T.).—Of the Sou. de P. Notting type, whose pearly delicate, but deep ivory cream petals are very faintly flushed.

Lady Roberts (T.).—Reddish-apricot, the base of the petals coppery-red; large, full, and of good shape.

Lady Ursula (H.T.).—Colour, a delightful shade of flesh pink, and thoroughly distinct.

Lena (T.).—Colour rich, glowing apricot; long bud; the flowers are freely and continuously produced. Sprays of from seven to nine perfect blooms are frequently produced.

Leslie Holland (H.T.).—Deep crimson, heavily shaded intense scarlet.

L'Innocence (H.T.).—A white seedling from Caroline Testout

La France (H.T.).—Pale peach colour, reverse of petals deep rose; large, full, and well formed; very free and fragrant.

La Tosca (H.T.).—Vigorous, good habit; strong and erect stalk; large, well-shaped, solitary flower; soft blush white.

Laurent Carle (H.T.).—Vigorous, fine dark green foliage, large flowers borne on long stems, of perfect form, brilliant velvety-carmine.

Liberty (H.T.).—Brilliant crimson; very striking.

Lillian Moore (Hybrid Tea).—(The One Thousand Dollar Prize Rose.) Colour, deep pure Indian yellow, with slightly deeper centre; flowers large, of perfect camelia shape; buds long and pointed. Awarded Silver Medal of the American Rose Society. 1s. 6d. each.

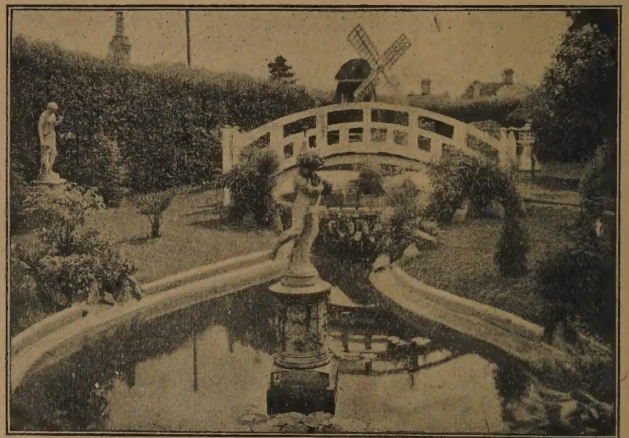

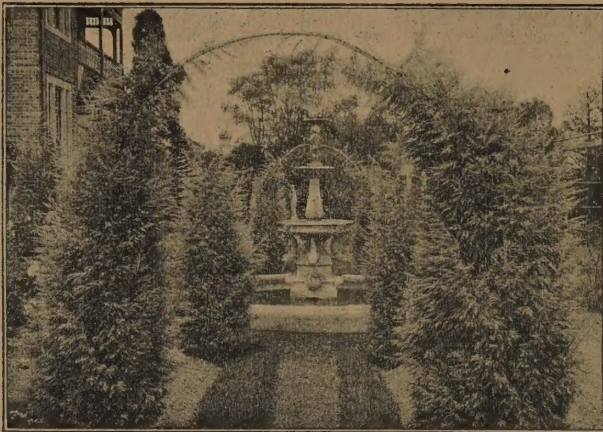

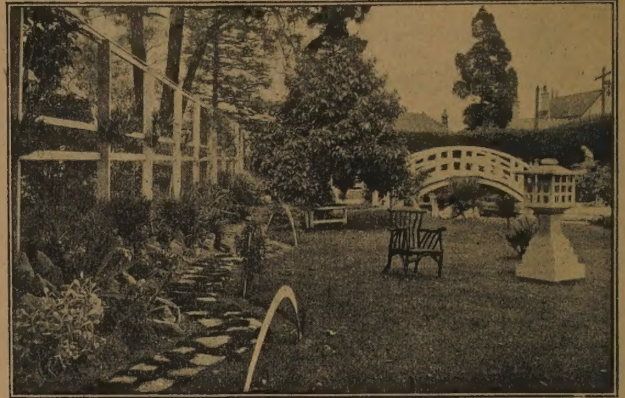

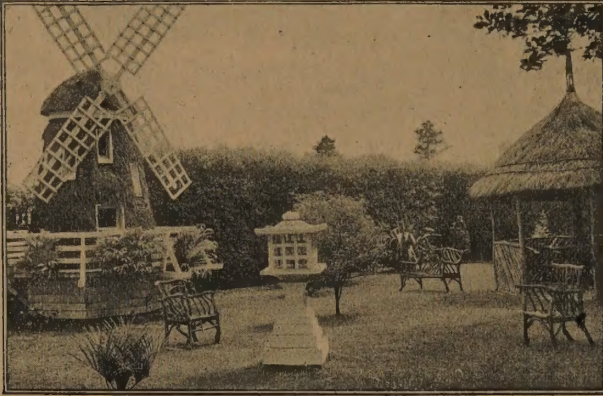

Lord Tarquin (T.).—Pale flesh colour; very free-flowering; one of the best.

Los Angeles.—One of the finest roses ever introduced. The growth is very vigorous and produces a continuous succession of long-stemmed flowers of a luminous flame-pink toned with coral, and shaded with translucent gold at the base of the petals. 1s. 6d. each.

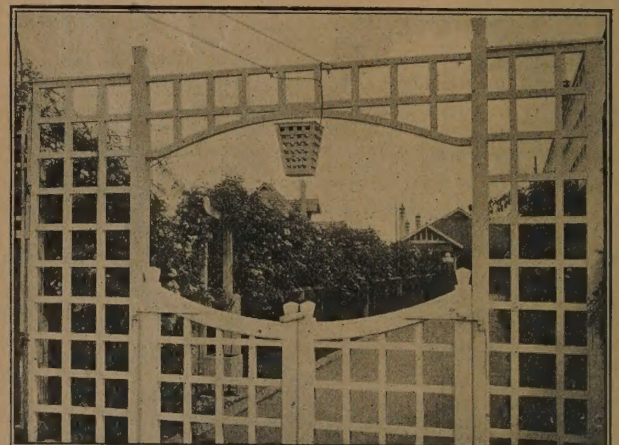

Lyon-Rose.—Buds coral-red, tinted with chrome-yellow at the base, open flowers, shrimp-pink at the edges of the petals, with centre of coral-red; large and broad petals; perpetual flowering; inclined to die back.

Mabel Drew (H.T.).—(A. Dickson and Sons). Cream to orange; fine, full flower; an exhibition variety; growth appears good. Gold Medal N.R. Society by unanimous vote.

THE HOME BEAUTIFUL

The Residence of Mrs. David Ross, Ashfield. A striking illustration of our Landscape Work.

A Garden at Croydon, note the Rustic Border effect.

Artistic Ornamental Trellage. "The Embroidery of the Home."

The above photographs depict the far-reaching artistic effects of our **landscape gardening**, which can be applied with almost equal results to the small holding as well as the large.

We are experts in this particular branch, and are always open to **submit suggestions**, together with **estimates** for any class of garden beautification, either laying out or remodelling.

Our experience and advice is always at your service.

EVER-BLOOMING ROSES—Continued.

Madame Abel Chatenay (H.T.).—Pale flesh, shaded rose, good form, stiff petals; bold flower; vigorous.

Madame Antoine Mari (T.).—Ground colour rose, freely washed and shaded white; very handsome buds.

Madame Augustine Guinoisseau (H.T.).—Outer petals creamy-white, sometimes shaded light pink.

Madame Bardow Job.—Chrome yellow, and canary citron yellow.

Madame Caroline Testout (H.T.).—Deep, bright, fleshy rose; petals large and incurving; very free-flowering.

Madame Charles (T.).—Rich apricot in the bud, opening to fawn, large bud; fairly full; vigorous.

Madame Chas. Lutaud (H.T.).—Buds ochre-yellow, tinted with carmine, open flowers chrome-yellow.

Madame Constant Soubert (T.).—Large blooms, well formed; colour, deep apricot, shaded peach; very fine.

Madame C. Martel (Hybrid Tea).—Colour, pure sulphur yellow deeper in the centre of the flower; large globular blooms with exceptionally large petals. 1s. 6d. each.

Madame Edmond Rostand (H.T.).—Flowers pale flesh shaded with salmon, centre reddish orange.

Madame Edouard Herriott.—Of free branching growth, producing its flowers in great profusion; colour, a deep terracotta or reddish copper; unique and very beautiful.

Madame Marcel Delaney.—A beautiful rose! colour distinct, being pale pink or soft rose, shaded hydrangea pink; flower full and fragrant; vigorous grower and free flowerer. Awarded Gold Medal by City of Paris, 1915.

Madame P. Euler (H.T.).—Silvery vermillion rose, a beautiful shade of colour; very full.

Madame Segond Weber (H.T.).—Petals large and firm; habit of growth all that could be desired; colour, rosy-salmon.

Madame Vermorel (H.T.).—Rose and coppery-yellow centre, shaded and lined with red.

Madame de Watteville (T.).—Creamy-white, each petal edged with rose like a tulip; large and full.

Mademoiselle Christine de Noue (H.T.).—Rosy-lake; outer petals darker and shaded with purple; a vigorous grower.

Madame Jean Dupuy (T.).—Yellow towards the margin, outer petals edged with rose.

Madame Jules Bouche.—Salmon-white, centre shaded virginal pink; large, full, good form, hard petals.

Madame Jules Grolez (H.T.).—Brilliant China rose; very free; large shell-shaped petals; long, handsome bud.

Madame Lambard (T.).—Salmon-rose, shaded pink; large, full, and of good form; exceedingly free-flowering.

Maman Cochet (T.).—Flesh-coloured rose sometimes shaded carmine, sometimes salmon-yellow; large, full, and well formed; buds long and handsome; a first-class variety.

Marcella (H.T.).—Buds buff, opening flower salmon flesh, extra large, well filled, and very handsome.

Margaret (H.T.).—A very clear and delicate tint of soft pink; buds long and handsome.

Margaret Dickson Hamill (H.T.).—A magnificent rose, with deep shell-like petals of a deep maize straw colour, flushed with delicate carmine on back of petals; deliciously and powerfully scented.

Marie Adelaide, Grand Duchesse de Luxembourg (H.T.).—(Souperet Notting, 1914). A deep orange yellow, long bud, good form; up to show standard. Gold Medal, Nancy.

Marie Van Houtte (T.).—Very pale yellow, generally edged with rose; large, full, and well formed; a good old variety.

Marquise de Ganay.—Vigorous. Silvery rose; extra large; finely scented.

Marquise de Sinety (H.T.).—Buds carmine ochre, open flowers ochre-yellow tinted with red.

Mary, Countess of Ichester (H.T.).—Warm crimson-carmine, of great size, with large, massive petals.

Mdlle. Augustine Guinoisseau (H.T.).—A sport from La France; outer petals creamy-white or very pale flesh, centre soft pink; very large, full, perfect form; a grand rose.

Medea (T.).—A very large globular flower; lemon-yellow, canary centre; vigorous grower and free bloomer.

Melody.—Intense pure deep saffron-yellow, with primrose edges.

Mildred Grant (H.T.).—Enormous flower, on strong, firm stalk; fine form, with magnificent guard petals, pale rosy-white.

Miss Alice de Rothschild (T.).—The colour is rich, deep, citron-yellow. The flowers are very large, full, and of perfect form.

Miss Muriel Jamison (T.).—A single-flowered variety; deep orange colour; a dainty decorative rose.

Mme. Jules Bouche.—Salmon-white, centre shaded virginal pink; large, full, good form, hard petals.

Modesty (H.T.).—Cream, flushed with rose; fine form; exhibition or garden.

Molly Bligh (Hybrid Tea).—Colour, deep maddery pink, heavily zoned orange madder at the base of petals; exquisite musk rose. 1s. 6d. each.

Molly Sharman-Crawford (H.T.).—The colour is delicate eau-de-nil, which, as the flower expands, becomes dazzling white.

Mrs Ambrose Riccardio (H.T.).—Deep honey yellow, overlaid brighter yellow; of great size and substance.

Mrs. Andrew Carnegie (H.T.).—White, occasionally beautifully lemon tinted; flowers very large, beautiful form, with every flower coming perfect shape.

Mrs. Archie Gray (H.T.).—Colour, deep creamy-yellow, opening to light canary-yellow; of fine habit.

Mrs. Archibald Mackey.—Best described as a huge Belle Siebrecht, rather deeper in colour; fine exhibition rose, and good bedder; fragrant.

Mrs. Arthur E. Coxhead.—Vigorous. Claret red, shaded vermillion.

Mrs. A. R. Waddell (H.T.).—Long buds of a reddish-salmon tint; a wonderfully good grower, producing a large quantity of beautiful buds.

Mrs. A. Ward (H.T.).—Flowers are large and full; colour, Indian-yellow sometimes washed into salmon-rose.

Mrs. Bryce Allan (H.T.).—Beautiful carmine rose, exquisitely perfumed; one of the best.

Mrs. Charles E. Allan (H.T.).—The buds are long pointed, opening pale orange, gradually changing as the flower expands to clear ochre, and yellowish buff with age.

Mrs. Cornwallis West (H.T.).—The petals are very smooth, shell-shaped, leathery, and are entrancingly beautiful. The purity of the transparent delicate pink—which is between a shell and a rose pink—one the purest white, gives it an attraction all its own that it is difficult to convey.

Mrs. David McKee (H.T.).—(Dickson and Son). Growth strong and vigorous; with erect branching habit; foliage large and handsome; every shoot crowned with a bud which develops into a flower of large size and substance, and of perfect form, and of a beautiful creamy yellow colour.

Mrs. Dudley Cross.—Pale chamomile yellow, in the way of Marie Van Houtte, but the flowers are larger and of better habit.

Mrs. Dunlop Best (H.T.).—Reddish apricot, moderately full; free flowering; good garden variety.

Mrs. E. Mawley (T.).—Exquisite salmon rose.

Mrs. Foley-Hobbs (T.).—The growth is robust. It is a veritable giant amongst Teas; colour, delicate ivory white, faintly tinged clear pink on the edges of the petals.

Mrs. Forde (H.T.).—A magnificent rose, with daintiest colourings, stained deep carmine rose, on delicate rose pink, with a zone of clear chrome yellow at the base of each petal.

Mrs. Franklin Dennison (H.T.).—Porcelain-white, veined primrose-yellow, deepening to ochre at the base of the petals.

Mrs. Frank Bray (H.T.).—Rich, deep coppery ecru, developing as flower opens to a very delicate coppery fawn.

Mrs. Fred Searl (Hybrid Tea) (Alex. Dickson and Son).—A superb rose, producing flowers of very large size and spiral globular form, of fawny shell pink. The reflex of petals is warm silvery carmine, rose deeper at edges; inside of petals richest fawn; tea perfumed. 1s. 6d. each.

Mrs. Fred. Straker (H.T.).—The colour in the young flower is orange-crimson; as the bloom develops it becomes silvery-fawn.

Mrs. George Gordon (H.T.).—Colour, bright, rosy-pink, flushed silvery-pink towards the edges of the petals, which are heavily zoned yellow at the base.

Mrs. George Preston (H.T.).—The colour is a very warm silvery rose-pink.

Mrs. George Shawyer (H.T.).—Similar in colour to Madame Jules Grolez, but a larger flower with longer and stiffer stems.

Mrs. Harold Brocklebank.—The colour is creamy-white, centre buff, base of petals soft golden yellow.

Mrs. Harvey Thomas (H.T.).—Colour, carmine shaded coppery-red, base of petals canary-yellow; very beautiful.

Mrs. Herbert Hawksworth (T.).—The colour is deeply zoned delicate ecru on milk white, which as the blooms expand, become silky creamy white.

Mrs. Hubert Taylor (T.).—The colour, which is very beautiful and distinct, is shell pink, the edges of the petals being ivory-white.

Mrs. H. Stevens (T.).—White centre shaded with fawn and peach; buds long and pointed.

Mrs. Mackellar (H.T.).—Its pronounced highly-pointed centre is solid deep citron, or delicate pure canary, and as the blooms expand the stiff guard petals reflex and become pearly primrose white.

Mrs. Muir Mackean (H.T.).—Bright carmine crimson, without shading; a grand exhibition and garden rose.

Mrs. Myles Kennedy (T.).—A Gold Medal Rose; colour delicate silvery white, shaded buff, deeper in centre; back of petal edged with pink; described by Dicksons as "a glorified Souv. d'Elise Verdon."

Mrs. R. D. McClure (H.T.).—Brilliant salmon-pink, free, constant bloomer, vigorous; large, full flower, exquisite form.

Mrs. Richard Draper (H.T.).—Colour bright, reddish satiny-pink on the outside of the petals, inside of the petals silvery flesh.

Mrs. S. T. Wright (Tea and Decorative).—The guard petals are delicate cadmium old gold, the centre petals have a delicate and charming suffusion of delightful pure rose pink on cadmium orange chrome.

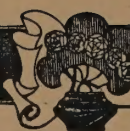

Mrs. Theodore Roosevelt (H.T.).—A magnificently-built camellia-shaped flower, with petals of great substance; colour silvery white, slightly flushed rose in centre; tree of good habit; a splendid rose.

Mrs. T. Hillas (H.T.).—Chrome-yellow flowers, large and full, of elongated cup shape; a good garden and exhibition rose.

Mrs. Wallace H. Rowe (H.T.).—The colour is bright sweet pea mauve.

SEARL & SONS

ROSE PLANTS

SYDNEY

EVER-BLOOMING ROSES—Continued.

Muriel Grahame (T.).—A cream sport from Catherine Mermet; habit similar to the parent.

Natalie Bottner (H.T.).—Delicate cream yellow. It combines with the excellent qualities of both the celebrated roses K. A. Victoria and Druschki.

National Emblem (H.T.).—Dark crimson; of perfect shape and habit; buds long and pointed.

Nellie Parker (H.T.).—Creamy white, cream centre. Silver, Gilt and Gold Medals.

Merissa (H.T.).—Creamy yellow, shaded with white, centre of flower tinted peach colour.

Niphetos.—Pure white or pale lemon; very long, beautiful bud.

Nita Weldon (T.).—The colour, which is distinctly unique, is an ivory-white, with the edges of each petal faintest blush.

Old Gold (H.T.).—Vivid reddish-orange, with rich coppery-red and apricot shadings.

Ophelia (H.T.).—Salmon-flesh, with deeper shade at base of petals; large, and of perfect shape.

Papa Gontier (H.T.).—Semi-double; very large petal; bright rose, reverse rosy-crimson; fine well-formed bud.

Paul Nabonnand.—Satiny rose, veined with peach; large, full, and well formed.

Paul Lede (H.T.).—Superb carmine-rose, shaded with yellow.

Peace (T.).—Pale lemon-yellow; bud very long and pointed; flowers large, full; growth vigorous; very floriferous.

Penelope (T.).—Outer petals deep reddish-crimson, while the centre is a lovely cream-white, similar to the White Maman Cochet; a striking rose.

Perle des Jardins (T.).—Deep canary yellow; very large bud; of globular and good habit; free flowering; one of the best.

Prince de Bulgarie (H.T.).—Silvery flesh, very delicately shaded with salmon.

Princess de Sagan.—Velvety crimson, with purplish shade; very loose when expanded, but attractive.

Professor Ganiviat.—Bright purplish rose, medium size; full and free; vigorous.

Queen of Fragrance (H.T.).—Shell pink, tipped with silver; very fragrant.

Queen of Spain.—Pale flesh colour darker in the centre, flowers carried on stout stems, very full, of excellent form.

Queen of the Belgians (H.T.).—Salmon pink. Gold Medal.

Queen Mary (H.T.).—Deep, bright canary-yellow, crayoned with pure deep carmine; the crayoning gives a gloriously warm colouring.

Queen Olga of Greece (T.).—Flowers deep soft rose pink, centre shaded yellow; large, and of good shape; quite a distinct colour.

Rainbow (T.).—Rose-pink, striped dark red; variable; large, but not full; free-flowering and vigorous.

Radiance.—Blooms carried on long stiff stems, and keep well. Red on outside, and pink on reflex of petals.

Rainbow Improved.—A great improvement on Rainbow; same habit; beautifully marked; extra fine in autumn.

Richmond.—Superior to Liberty in size and form, pure red scarlet, very free flowering; free.

Red Cross (H.T.).—Orange crimson scarlet; charming.

Red Letter Day (H. Te., Decorative).—Velvety, brilliant, glowing scarlet crimson.

Reine Marguerite D'Itale (H.T.).—Bright carmine, centre shaded with vermillion; very large and full; of good form and habit.

Rhea Reid (H.T.).—Flowers red, large and fragrant, free and continuous in blooming, with a good constitution.

Rose d'Evian (H.T.).—Buds magenta, opening flowers inside petals carmine, outside rose.

Safrano (T.).—Deep apricot, changing to fawn when expanded; splendid winter bloomer.

Seabird (H.T.).—Colour, clear primrose-yellow; vigorous free-branching growth; flowering in the greatest profusion.

Souv. de Marie Zayas (H.T.).—Blooms very large and perfectly formed; buds long and pointed; colour rich vivid carmine, with deeper shading; really first-class.

Souvenir de Catherine Guillot (T.).—Colour orange red, tinted carmine on yellow ground; an exceedingly beautiful combination of colours.

Souvenir de la Malmaison (B.).—Pale flesh, with deeper centre; very large and full; continuous bloomer.

Souvenir de Pierre Notting (Tea-scented).—Fine, apricot-yellow, washed with golden-yellow, and shaded with orange.

Souvenir de President Carnot (H.T.).—Rosy-flesh, shaded with white at edges of petals good form.

Souvenir du Rosieriste Rambaux (T.).—Creamy-yellow, edged carmine-rose, medium size; cupped and fragrant.

Souvenir of Stella Gray.—The predominating tone is deep orange, with slashes or veination of yellow, apricot, salmon and crimson.

Souvenir de Therese Levot (T.).—Dark crimson, outer petals shaded maroon; large, full, and of good form.

Sou. Henry Graham (H.T.).—Faintly or charmingly blushed carmine on pearly delicate cream or buff white.

Star of Queensland (H.T.).—Colour, very rich deep velvety-crimson, shaded with maroon, and a lovely sheen. Reverse of petals cardinal to cerise.

Sunburst (H.T.).—Cadmium yellow, with orange-yellow centre; large cupped form, the buds borne generally singly on long stout stems.

Sunset (T.).—Deep apricot; large and full; good in all stages.

The Bride (T.).—White, sometimes with a greenish tinge, sometimes tinted rose; large, full, and of excellent shape.

The Meteor (H.T.).—Deep rich velvety-crimson; a very bright and lasting colour; good size, full, well-formed; profuse, continuous bloomer; vigorous grower.

The Queen (T.).—Pure white; large and fairly full; buds long and handsome.

Theresa.—As the flower expands it becomes veined flesh-pink passing to silver; the flowers are produced in the greatest profusion.

Ulster Gem (H.T.).—A fine new single; pale primrose yellow; large bloom. Gold Medal, N.R.S.

Waltham Scarlet (H.T.).—Single, crimson scarlet; very large for a single rose.

Warrior (H.T.).—Buds blood-red, long and handsome; flowers opening vivid scarlet crimson.

White Killarney (H.T.).—A sport from the well-known pink-flowered variety of Killarney; American origin.

White Lord Tarquin (T.).—A pure white sport from Lord Tarquin; a constant bloomer.

White Maman Cochet (T.).—In every respect equal to the now celebrated Pink Maman Cochet; cream rather than white.

William Cooper (H.T.).—(Hugh Dickson, 1915). Deep lake red; fine bold flower; moderately full; vigorous grower, and continuously in bloom; a fine garden rose.

William Shean (H.T.).—Vigorous. Its colour is the purest pink, with delicate ochre veination.

Willowmere (H.T.).—Rich shrimp-pink, shaded yellow in the centre, and toning to carmine pink towards the edges of the petals; vigorous growth and erect branching habit.

W. C. Gaunt (H.T.).—Brilliant vermillion, tipped scarlet.

W. E. Lippiatt.—Brilliant velvety-crimson, shaded maroon, most distinct.

W. B. Smith (T.).—The colour is creamy-white, flushed and suffused with bright rosy-pink.

W. B. Smith (H.T.).—Maman Cochet type; fine show bloom; creamy pink; vigorous grower; one of the best.

Yvonne Vacherott (H.T.).—Porcelain-white, strongly marked with pure pink; large pointed bud on stiff stems.

CLIMBING ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

Ards Pillar (H.T.).—Garden and pillar rose; rich velvety crimson.

Ards Rambler.—The colour is a velvety-orange, shading to rosy-carmine at the base of the petals; perfumed; a grand climbing rose.

Ards Rover (H.P.).—Deep crimson, shaded maroon; perfect shape.

Australian Beauty (H.T.).—Colour, the richest crimson, shaded velvety amaranth, deliciously perfumed.

Bardo Job (H.T.).—Bright crimson; large, but not full.

Belle Siebrecht (H.T.).—Deep rose; long, pointed buds; large, fairly full; one of the best.

Biliard and Barre (H.T.).—Large flowers, with stout petals; colour, rich golden-orange.

Climbing Caroline Testout (H.T.).—A climbing form of the beautiful and popular variety Caroline Testout.

Climbing Frau Karl Druschki (H.T.).—A climbing form of the well-known white rose, which has been such a favourite.

Climbing Georges Schwartz.—A vigorous climbing sort of the beautiful dwarf; a fine acquisition.

Climbing Irish Fireflame (H.T.).—Identical with the normal type; true climber.

Climbing Lady Ashdown.—Lovely pink, with a yellow glow in the centre; a splendid rose.

Climbing Liberty (H.T.).—This splendid climbing sport from Liberty will be welcomed by all; growth similar to Ards Pillar; colour, the most dazzling crimson.

Climbing Mad. Abel Chatenay (Hybrid Tea).—An excellent climbing type of this old favourite; free-flowering and vigorous. 1s. 6d. each.

Climbing Maman Cochet.—A strong climbing sport from the general favourite bush variety; flowers similar.

Climbing Prince Camille de Rohan.—Is a climbing sport from that old favourite Prince Camille de Rohan; flowers identical with the parent, being of that deep velvety crimson so generally admired.

Climbing Reine Victoria.—Is a sport from Reine Victoria. The colour is a brilliant rose of the most perfect form, marvellously free-blooming, of strong and robust growth; should be in every collection of climbing roses.

Climbing Richmond (H.T.).—Of true climbing character; scarlet colour and free flowering habit.

Climbing Segand Weber.—A vigorous climbing sport from the well-known dwarf.

Climbing Sou. de Therese Levot.—A climbing sport from well-known dwarf variety; valuable acquisition to dark crimson climbers.

Climbing Sunburst.—A most welcome addition to the climbing yellows, and possessing all the qualities of the dwarf type. 1s. 6d. each.

CLIMBING ROSES—Continued.

- Climbing White Lord Tarquin** (T.).—A local sport of this most useful of white roses. Splendid for florists' work; free.
- Climbing White Maman Cochet** (H.T.).—The flowers are identical with the lovely dwarf variety. The habit of the plant as a climber is certainly all that could be desired.
- Cloth of Gold** (N.).—Pale sulphur-yellow, centre deeper; large, full, and well-formed; free-flowering and vigorous.
- Compesse Labarthe** (T.).—A strong climbing sport of the old bush variety. For covering arches, fences, or training up verandahs it will prove a valuable acquisition.
- Devoniensis** (T.S.).—Creamy-white, bluish centre; large, full, and finely shaped; very free-flowering and extremely vigorous.
- Duchesse de Auerstadt** (T.S.).—Yellow, centre deep nankin; large, full, and of fine cupped form.
- England's Glory**.—A magnificent climbing rose, being a seedling from Gloire de Dijon, crossed with Belle Siebrecht; flowers large, full, and well-formed; outside petals are pale satiny pink; coppery centre.
- E. Veyrat Hermanos**.—A most distinct rose of strong climbing habit; apricot and carmine, reflex with deep red.
- Gloire de Dijon**.—Yellow and buff, shaded salmon; large and full; free.
- Gloire de Limbourn** (T.).—Bright canary-yellow, centre salmon-yellow; large, full, and of good form.
- James Sprunt**.—Very rich scarlet crimson; large, full, globular; blooms in clusters; sweet; a Bengal rose.
- Jessie Clark** (H.T., Single).—A pillar rose that everyone should have. The flowers are large, up to 5 inches across, and of a delicate opal flesh tint, petals of extra substance, lasting well when cut.
- Kaiserin Augusta Victoria** (H.T.).—A climbing sport from the dwarf of the same name; of extra vigorous growth, and without doubt the best climber of its colour; creamy-white.
- Lady Waterlow** (H.T.).—Pale salmon rose, edged with carmine; large, semi-double flowers.
- La France de 89** (T.).—Brilliant rosy-red; very large and free-flowering; very sweetly scented; good pillar rose.
- Lamarque**.—White, centre tinged with yellow; medium size; full, blooms in clusters; free.
- La France**.—Pale peach colour; very free and fragrant.
- Madame Berard**.—Salmon-rose, shaded yellow; large, full, good shape; free.
- Madame Andre Duron**.—Bright china pink; sweetly scented; distinct, and very useful; vigorous.
- Madame de Watteville** (T.).—A very vigorous climbing form of this beautiful tea; particularly free and good.
- Madame Driout**.—A beautiful sport from R. M. Henrietta, with flowers richly striped with rose; a novelty in climbers.
- Madame Jules Gravereaux** (T.).—Deep yellow, centre rosy peach; buds very long and pointed; an exhibition rose of the first rank. In America this rose was awarded the Nickerson Medal for the best tea rose raised since 1900; and in England is considered the best yellow tea grown; very vigorous habit.
- Madame Wagram Compesse de Turenne** (T.).—A beautiful new climbing variety, with large flowers of a satin rose colour; a new colour in climbers.
- Marechal Niel** (N.).—Rich golden-yellow; very large, globular, full; exceedingly fragrant; unrivalled as a climber.
- Miss Marion Manifold** (H.T.).—A rich velvety-scarlet, shaded with crimson; very large and full; gold medal N.R.S.
- Mons. Desir** (H.T.).—Velvety-crimson shaded violet; very fragrant.
- Mrs. C. Guilfoyle** (T.).—Salmon rose. A seedling from Madame Verard, which it very much resembles, but of a more pleasing shade; thornless.
- Niphetos** (T.).—Pure white, long buds; free-flowering. A sport from Niphetos, but better all round; growth vigorous.
- Noella Nabonnand** (T.).—Extra large; semi-double; velvety-crimson flowers with very large petals; very sweet; handsome in bud.
- Papa Gontier** (H.T.).—A vigorous climbing sport from this well-known and popular variety.
- Paul's Carmine Pillar**.—Flowers single, brightest rosy-carmine; free bloomer and extra-strong grower.
- Paul's Scarlet Climber** (Hybrid Wichuriana).—Vivid scarlet, shaded with crimson; suitable for pillars and pergolas. Gold Medal.
- Perle des Jardins** (T.).—A climbing sport from this popular yellow rose, possessing all the good qualities of the parent.
- Reine Marie Henriette** (H.T.).—Bright rosy-cerise, sometimes crimson; large and full; long petal; good shape; free.
- Reve d'Or** (N.).—Coppery yellow, large and full; good pillar rose.
- Rev. T. C. Cole**.—Bright yellow; large, full, well-shaped; free; intermediate between Marechal Niel and Cloth of Gold.
- Sheila Wilson** (H.T.).—Vigorous growth, will make an excellent pillar. A single rose of much beauty, with large, well-shaped petals; rosy carmine.
- Souvenir d'Leone Viennot**.—One of the most beautiful climbing roses of recent introduction. Carmine shaded, canary-yellow; a beautiful combination of colours.
- Souvenir de la Malmaison** (Bourbon).—A sport from the well-known dwarf variety; equal as free-flowering, and exceedingly vigorous.
- Souvenir de Madame Metral** (H.T.).—Bright red with a shade of vermillion; perfect shape; very large and full; first-rate.

- Souvenir de Wotton** (H.T.).—Another welcome addition to our red climbers; of extraordinary vigour and beautifully scented.
- Waltham Climbers** (No. 1).—Good climbers; various shades of crimson; No. 1 medium and 3 dark crimson; moderate.
- White Marechal Niel** (N.).—A creamy white sport of Marechal Niel, originated in America. We have bloomed this variety, and find it quite distinct from the original, though not a pure white.
- Wm. Allan Richardson** (N.).—Deep orange-yellow; small; full and free.

HYBRID PERPETUAL ROSE LIST

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

- Annie Crawford**.—Clear bright pink; yellow at the base of the petals; very large, full, beautifully-formed flowers.
- Black Prince**.—Dark crimson; cupped large, full, and very finely shaped.
- Capt. Christy**.—Rosy flesh, deeper in centre; a grand rose.
- Coronation** (H.P.).—Colour shading from flesh to bright shrimp-pink.
- Dr. Hogg**.—Violet red; best of its shade.
- Dr. Rushpler**.—Dark velvety crimson, shaded black; almost perpetual.
- Duke of Edinburgh**.—Brilliant scarlet-crimson, shading to maroon; flowers large and freely produced.
- Earl of Dufferin**.—Velvety crimson, shaded maroon; very large, full; perfect form; free blooming; superb.
- Emperor de Morocco**.—Rich velvety-crimson, shaded maroon; a most distinct variety; growth vigorous.
- Frau Karl Druschki**.—Snowy-white; extra fine in bud; a strong-growing variety, producing flowers of exceptionally handsome appearance, both on plant and when cut; very free.
- General Jacqueminot**.—Rich velvety-scarlet, changing to brilliant crimson; magnificent buds; very showy and good.
- Gloire de Chedane-Guinoisseau** (S.).—Vigorous. Bright, velvety-vermillion; very large, with fine buds; showy and attractive.
- Grand Mogul**.—Deep crimson, shaded scarlet and black.
- Her Majesty**.—Clear bright satiny rose; extra large; strong grower.
- Hugh Dickson** (H.P.).—Brilliant crimson, shaded scarlet; flowers large, full, and well-formed; growth vigorous.
- J. B. Clark** (H.T.).—Awarded Gold Medal by National Rose Society of England, 1905. Colour rich velvety crimson; flowers extra fine; growth very vigorous; evidently requires a season or two to become acclimatised.
- Jean Liabaud**.—Velvety crimson, shaded black; large, full, and of fine form.
- Louis Ricard**.—Deep velvety-crimson, shaded with vermillion and black; does not burn.
- Merrie England**.—It has proved very constant, and so far, is the best striped rose we have seen.
- Mrs. John Laing**.—Soft pink; large, full, well shaped, and very fragrant; a vigorous grower.
- Old English Cabbage**.—Rosy-red; an old favourite on account of its perfume.
- Paul Neyron**.—Dark rose colour; very large, but somewhat coarse; free-flowering and very effective; growth robust.
- Prince Camille de Rohan**.—Crimson maroon, shaded with blood-red; very rich and velvety; large and full; distinct and good.
- Princess de Bearn**.—Rich black crimson; a fine dark rose.
- Roger Lambelle**.—Petals crenated; dark red in colour, with margin of white.

POLYANTHA ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

- Aglaia**.—Beautiful bright yellow variety, almost evergreen, and bearing immense clusters of trusses of rosette-shaped flowers, sweetly scented.
- Atropurpurea**.—Colour, deep purplish red, very large trusses and free flowerer.
- Climbing Cecil Brunner**.—A splendid climbing sport from this favourite Polyantha. Laterals bearing beautiful clusters of fairy-like buds the whole length of the main stem.
- Etoile d'Or**.—Petals pale chrome, centre deep lemon, the expanded flowers nearly white.
- Jessie**.—Bright orange-red; small, almost single flowers in clusters.
- Leonie Lamesch**.—Bright coppery-red, shaded with deep red and yellow; very rich, and a new colour in this section.
- Mad. N. Levavasseur**.—Semi-double, rosy-crimson flowers; good; a fine decorative plant; dwarf.
- Miss. Cecile Brunner**.—Delicate salmon-pink, with deep salmon or coppery centre; a tiny bloom, very full, and pretty shape; free and delicately scented.
- Mrs. Taft** (Polyantha).—Rosy crimson; dwarf habit; superior to Madame N. Lavavasseur.

SEARL & SONS

ROSE PLANTS SYDNEY

POLYANTHA ROSES—Continued.

- Orleans Rose.**—Colour, brilliant geranium red, suffused rose, with white centre; bushy habit, and very free-flowering; splendid for bedding or borders; always in bloom.
- Papa Hemeray** (Hemeray Aubert).—Bright vermilion, red with white centre, single; produced in corymbs; growth vigorous; very free flowering; like a dwarf *Hiawatha*.
- Perle d'Or.**—Nankeen yellow, buds deep apricot; medium size, and very full; very constant and free-blooming; vigorous grower.
- Petit Constant.**—Deep, coppery red, reflected with orange; blossoms in clusters; a new colour in this class.
- Philippine Lambert.**—Silvery rose, deeper centre.
- Red Pet.**—Brightest dark crimson; continuous bloomer.
- Rodhate.**—Clear cherry red, large semi-double; vigorous and free-flowering.
- Thalia.**—Flowers pure white; long, trailing branches.
- Wallflower.**—Rosy lake crimson blooms.
- Yvonne Eabier** (Poly.).—Pure white, with clear sulphur-yellow centre; medium size, producing enormous trusses.

DWARFS.

- This is a very pretty class of Miniature Roses, especially valuable for decorative purposes, buttonholes and sprays. They are most prolific bloomers at all seasons, and quite hardy. No collection should be without a few of these little gems.
- Aenchen Muller.**—Large clusters of brilliant rose-coloured flowers produced till late in autumn; good for massing.
- Aschenbrodel.**—Rosy peach, centre salmon orange; small and cupped.
- Boskoop Baby.**—Bushy habit; masses of pretty china rose blooms; a little gem.
- Cineraria.**—Bright pink, white centre; bushy habit.
- Coronet.**—(Wm. Paul.). Yellow, shaded with rose; very free and effective, and quite distinct.
- Cyclone.**—Dwarf habit; crimson maroon, with a white stripe; very attractive.
- Cyrano.**—(F. Dubreuil). Bright scarlet reflexes; growth dwarf and bushy; very free flowering.
- Ellen Poulsen.**—Bright rose pink; semi-double flowers, produced in trusses; very pretty.
- Erna Teschendorff.**—Deep red, fine trusses; holds its colour well; dwarf, bushy habit.
- Eugenie Lamesch.**—Bushy; flowers ranunculus shaped, and produced in trusses of 20 to 30 blooms; colour orange yellow, passing to clear yellow, shaded rose.
- Fairy Gem.**—Silvery pink, nicely shaped; little blooms.
- George Elger.**—(E. Turbat and Co., 1912). Flowers in big corymbs, golden coppery yellow, passing to clear yellow when expanded.
- Jeanne Souper.**—Blush white; large compact trusses; extra free flowering.
- Jessie.**—Bright crimson; fine trusses; very free flowering.
- Leonie Lamesch.**—Growth erect. The blooms are of medium size, full, produced singly; colour bright copper red, with golden centre, a most charming effect; very distinct and beautiful.
- Madame Cecil Brunner.**—Salmon pink, centre coppery; one of the best.
- 1s. 3d. each; 13s. dozen, except where otherwise priced.

CLIMBING POLYANTHA and RAMBLER ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

- Blush Rambler.**—Beautiful soft blush, resembling apple blossom; sweetly scented.
- Clb. Orleans Rose.**—A climbing sport from this valuable rose; free and very perpetual; a decided acquisition.
- Crimson Rambler.**—Large trusses; vigorous.
- Mdlle. Cecile Brunner.**—A climbing form of the old favourite *Polyantha*, flowers same form and colour.
- Non. Plus. Ultra.**—A dark-coloured form of *Crimson Rambler*.
- Stella.**—Bright carmine, with rich white centre; single.
- Tea Rambler.**—The flowers are of a coppery-pink, changing as they expand to a soft salmon-pink.
- Tausendschon.**—Blush white, flaked with pink; very beautiful.
- Veilchenblau.**—Bluish-purple double flowers, produced in large clusters.

WHEN ORDERING ROSES.—Customers at times, unmeaningly, refer to "Dwarf" Roses as "Standards." As there is both a difference in habit, as well as price, we would ask our clients to kindly bear this fact in mind when ordering.

BANKSIAN ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

- Alba.**—Pure white; very small and full; produced in bunches; very sweet; a strong climber.
- Fortune's Yellow.**—Bronzy-yellow; semi-double; moderate climber.
- Fortunii.**—White; large flower; very vigorous.
- Lutea.**—Similar, but of buff yellow.

MOSS ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

- Blanch Moreau.**—White.
- Marie de Blois.**—Deep red.
- Wm. Lobb.**—Deep rose.
- Pink Moss.**
- Red Moss.**
- White Bath.**—Best for coastal districts.

BRIARS

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

- Persian Yellow.**—The richest yellow; large and double.

WICHURIANA ROSES

1s. 3d. each; 13s. per dozen; post free, 14s. dozen.

Very useful for covering old buildings, fences, or tree stumps. Strong growers.

- American Pillar.**—Flowers single; rich pink with a delicate white defined eye and yellow stamens; very showy.
- Coronation.**—(Turner). Bright crimson, shaded scarlet and splashed with small white streaks, flowers double and producing freely in large trusses.
- Delight.**—Single carmine, red flowers; good.
- Dorothy Dennison.**—A sport from Dorothy Perkins; a very lovely shell-pink, the base of petals being creamy white.
- Dorothy Perkins.**—A beautiful shell-pink; the flowers are borne in large clusters of small double blooms, and very sweetly scented; of strong climbing habit.
- Evangeline.**—Large single flowers, white, shaded and tipped with pink.
- Excelsa** (Wich.).—A fine addition to the *Wichuriana* class. Flowers double and of a bright scarlet colour; a striking novelty.
- Hiawatha.**—The flowers are single, bright rich crimson with white eye, produced in masses, magnificent in effect; foliage, deep glossy green.
- Lady Gay.**—Colour delicate cherry pink; trusses large, and borne in great profusion; habit of *Crimson Rambler*.
- Rosa Senica Anemone.**—A vigorous climber, bearing large quantities of single flowers of enormous size, up to 8 inches in diameter; colour pale rose. 1s. 6d.
- Rosa Senica Alba.**—Similar to above, but with pure white flowers.
- Shower of Gold.**—Vigorous; almost the colour of William Allen Richardson, but with not so much orange.
- Soderia.**—Bright carmine to scarlet red, large clusters of double blooms.
- Sylvia.**—Buds pale lemon yellow, changing when open to pure white, double, and exquisitely scented; flowers produced in large and elegant sprays in both summer and autumn.
- White Dorothy Perkins.**—Sport from Dorothy Perkins, producing white, or almost white, flowers; a valuable acquisition.

We are always open to answer any enquiries, but would respectfully ask our customers to enclose a stamped addressed envelope to cover replies.

Searl's Pines and other Conifers

For ornamental purposes Pines and Conifers are specially attractive, and most of them thrive well all over the Commonwealth, even if the soil be poor. To ensure success, trench the ground at least eighteen inches deep, and it should be drained if wet. Amongst Conifers are to be found trees suitable for Park or Garden.

Those marked *
thrive best in cold
climates ❄ ❄ ❄

Unless otherwise instructed, all Country Orders
are despatched in PAPER POTS, thus saving at
least 30 per cent. in freight and other charges.

Special quotations
for large quantities

ABIES—

	s.	d.
* Douglasii. 40 to 50 feet (Silver Fir)	from	2 0
* Alba. 80 feet (White Spruce)	from	2 0
* Nordmanniana. 80 to 100 ft. (Norway Spruce)	from	2 6

Elegans, of upright habit, well-branched, and covered with fine foliage, which changes from green to bronzy-crimson during the winter.	

CUPRESSUS (Cypress)—

* Benthami	2 0
Brunniana Aurea (New). This is a form of Golden Macrocarpa and will prove beyond doubt a meritorious novelty; conspicuous for hedges and solitary specimens. 10 feet	
each from	
3 6	
* Knightii. 60 to 80 feet	2 0
* Lawsoniana Aurea. An uncommon Cypress, beautiful golden foliage	3 6
Lawsoniana Glauca. Quite distinct, and a very fast grower, should be well-known, 30 feet	
2 0	

***Lambertiana Aurea** (the Golden Cypress), 30 to 40 feet

This is seen to great advantage on the mountains, and we can strongly recommend it to all plant buyers. Large specimens, 7s. 6d. to 20s.

* Lambertiana Horizontalis. 50 to 60 feet	3 6
* Macrocarpa. 50 to 60 feet	1 6
* Torulosus. Propagated from cuttings; very useful for hedge purposes (see description in Hedge Plants) ..	2 6
For quantity lots see under Hedge Plants.	

The best known and most largely grown of the Conifers, embracing a large number and variety of beautiful and quick-growing tree. They all do well near Sydney and other parts of the State.

GINKGO Biloba (See Salisburia).

JUNIPERUS—

* Bermudiana (Pencil Cedar). An exquisite tree, 20 to 30 feet	2 0
* Chinensis. 40 to 50 feet	2 0
* Hibernica (Irish Juniper). 5 to 6 feet	1 6
* Virginiana (Virginian Cedar)	1 6

The above can be supplied in large plants at advanced prices.

NORFOLK ISLAND PINE (See Acaucaria).

s. d.

PICEA (See Abies).

PINUS—

* Canariensis. 40 to 50 feet	2 0
* Densiflora (Japanese Pine)	2 0
* Excelsa (Bhotan Pine)	2 0
* Halapensis (Aleppo Pine). 100 feet	2 0
* Insignis (Remarkable Pine)	1 6

One of the handsomest of all the Pines, and popular in the Australian States; specially suited for wind-breaks.

* Longifolia. 80 feet; dense habit	2 0
Pinea (Stone Pine). This very picturesque tree thrives best in a sandy soil near the sea; 50 to 90 feet ...	
2 0	
* Rigida (Pitch Pine). 40 to 50 feet	2 0
* Strobis (Weymouth Pine). 50 to 60 feet	2 0
* Sylvestris (Scotch Fir). 80 to 100 feet	2 0
Price per 100 on application.	

PODOCARPUS—

* Totara (New Zealand Yew Tree)	2 0
* Elatus. The largest variety	2 0

We can offer a fine stock of these beautiful shade trees.

RETINOSPORA—

* Ericoides. 10 to 15 feet	All from 2/- each.
* Obtusa Aurea. Very pretty, dwarf-growing ..	
* Pisifera. 10 feet	
* Pisifera Aurea. 10 feet	
* Plumosa. 10 to 25 feet	
* Plumosa Aurea	

***SALISBURIA Adiantifolia** (Maiden Hair Tree), syn. **Ginkgo Biloba.** 50 to 60 feet

A fine tree, with foliage somewhat resembling an Adiantum.

***TAXODIUM Distichum** (The Deciduous Pine or Bald Cypress). Resembling the Yew; 50 to 100 feet ..

TAXUS (Yew)—

Baccata. 20 to 30 feet	2 0
* Argentea Variegata. Striped with silvery-white ..	2 6
* Hibernica Variegata	2 6
Very handsome tree-shrubs, quite hardy, compact in growth, and with good foliage.	

THUJA—

* Lobbi. A handsome tree from California	2 0
* Orientalis (The Book Leaf Pine). 30 to 40 feet ..	2 0

THUJOPSIS—

* Dolabrata. 60 to 80 feet	2 0
Dolabrata Variegata. 40 to 50 feet	2 0

***WELLINGTONIA Gigantea** (the Giant Tree of California). 400 feet

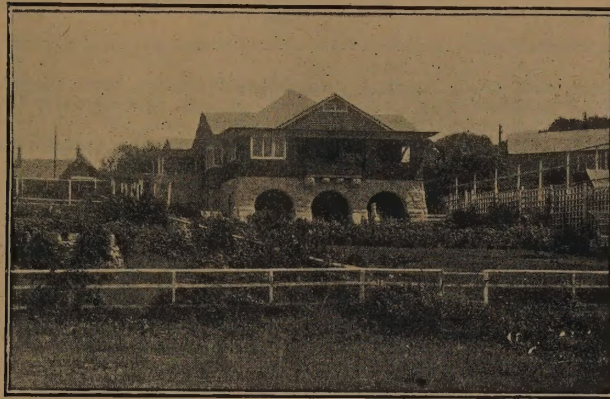

This is one of the most beautiful trees grown for avenue planting, or as single specimens. Specially adapted for cold districts.

YEW (See Taxus).

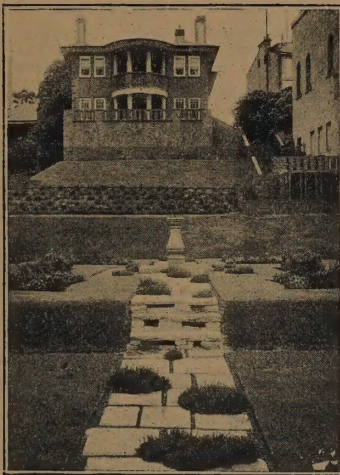

LARGE SPECIMENS.

We stock advanced conifers of various sorts up to 6 or 8 feet high, established in pots and tubs. Prices on application

SPECIMEN PRINTS OF OUR RECENT LANDSCAPE WORK

Searl's Hardy Climbing Plants

For covering old walls, etc., and transforming unsightly features into pleasing landscapes, these plants are serviceable, many varieties produce beautiful flowers, others are remarkable for their foliage. All the plants are evergreen except those marked "D," which are deciduous.

Plants marked thus * do best in cold climates—just a guide to our country friends, to show which is best for them to plant.

	s.	d.		s.	d.
*AKEBIA Quinata. —A beautiful climber from Japan; flowers are of a dark bell-trope colour, borne in small clusters	2	0	FUCHSIA Procumbens (Climbing Fuchsia) (Kirkii).—Flowers small; tube yellowish, upper portion reflexed blue	1	6
ALLAMANDA Hendersonii. —Large yellow flowers; it is usually grown as a green-house plant, but will do well in warm situation out of doors	2	6	GELSEMIUM Sempervirens. —Deep yellow	1	6
AMPELOPIS (Virginian Creeper).—			*HEDERA (Ivy) Helix	1	6
*Hederacia (American Ivy)	1	6	*Helix Rhomboidea Variegata	1	6
*Disecta	1	6	*Latifolia Maculata	2	0
*Engelmanni	1	6	*Helix Maderiensis Variegata. —Best of the variegated tribe, free-flowering and effective; leaves margined, creamy-white	2	6
*Hervyana. —Dark velvety-green, mid-rib and veins silvery-white; a beautiful variegation intensified in the autumn	1	6	Tricolor Marginata	2	0
Sieboldii Variegata. Pink and white variegated foliage	1	6	HEXACENTRIS Mysorensis (India), syn. <i>Thunbergia Mysorensis</i> .—Flowers scarlet in long bunches	1	6
Veitchii Purpurea. Foliage tinted red	1	6	HONEYSUCKLE (see <i>Lonicera</i>).		
ANTIGONON (Mexico).—			HOYA CARNOSA (Wax Plant).—Flowers pinkish-white, corolla fleshy	1	6
Leptopus. One of the prettiest climbers known for the mass of bright pink flowers it displays during the summer	2	6	Variegata. Very pretty variegated foliage	2	0
ARISTOLOCHIA Elegans, Brazil (the so-called Dutchman's Pipe).—Blackish-purple flowers, of peculiar shape	1	6	D *HUMULUS Lupulus (English Hop).—The heads of fruit are used in brewing, and young branched foliage is a good pot-herb	1	6
BEAUMONTIA Grandiflora. —White. Bearing large trumpet-shaped flowers	2	6	IPOMEEA Tuberculata. —Pink. The Pink Moon Flower	1	6
*BIGNONIA (syn. with <i>Tecoma</i>).—			Learii. —Blue. The Blue Moon Flower	1	6
*Australis (Wonga Wonga Vine). Cream and brown; a splendid creeper	1	6	Pandurata. —The White Moon Flower	1	6
*Capreolata. —Orange red; very distinct.	2	0	Horsfallae. —This is a beautiful climber, but must have a well-sheltered warm position. The flowers are a deep rich glossy rose colour, with handsome green foliage; extra choice	3	6
*Chirera (Mexico).—Vigorous, large scarlet flowers ..	2	0	IVY. —See <i>Hedera</i> .		
*Excelsa. —Yellow; handsome	1	6	JASMINUM Fruticans (Yellow Jasmin).—8 feet	1	6
*Floribunda. —Lavender; beautiful; flowers autumn and spring	2	6	Gracilis. —White, 5 feet	1	6
*Grandiflora. —Orange; colour handsome	2	0	Grandiflorum. —White, 10 feet	1	6
*Gulfweyia. —Red and orange	2	0	Officinale. —White, 8 feet	1	6
*Jasminoides. —White, pink throat	1	6	Primulinum. —Leaves dark green; yellow flowers ...	1	6
*Jasminoides Alba. —White; choice	2	0	*LATHYRUS (Everlasting Pea) Latifolius Alba. —Large white, choice	1	6
*Lindleyana (Mexico).—Lavender	1	6	*Pink Beauty. —Delicate pink	1	6
*Mackenzii. —Bearing lovely rose-coloured blooms; syn. with <i>Bignonia Rosea</i>	1	6	Pubescens. —Lovely pale-blue	1	6
*Rosea. —Syn. with <i>Mackenzii</i>	1	6	LONICERA (Honeysuckle).—		
*Tweediana. —A rich yellow	1	6	*Gigantea. —Butter-yellow	1	6
*Venusta (Mexico).—Orange	1	6	*Aurea Reticulata. —White and yellow foliage	1	6
BOUGAINVILLEA —			*Confusa. —Yellow	1	6
Braziliensis. —Bright mauve	2	0	*Halliana. —The best white	1	6
Glaba. —Rose lilac	2	0	*Sinensis. —White and red	1	6
Glabra Sanderiana. —Rose	2	0	Tartarica Splendens. —Red	2	0
Grandiflora. —Magenta	2	0	D MANDEVILLEA Suaveolens	1	6
Grimleyi. —Very choice pink variety	5	0	Lovely white flowers.		
Hessiana. —Purple	2	0	MANETTIA Bicolor. —Yellow and red flowers	1	6
Magnifica Trailli. —Bright purple, and can be recommended as the best purple variety and freest flowerer ..	2	6	MAURANDYA —		
Speciosa. —Purple, white centre	2	0	Alba. —White	1	6
Speciosa Variegata. —A charming variegated-foliage form of this very popular climbing plant; flower the same as the parent plant, <i>Speciosa</i>	2	0	Barclayana. —Blue	1	6
Spectabilis. —Rose lilac	2	0	MEDEOLA (<i>Smilax</i>) Asparagoides	1	6
Sanderiana Variegata. —Wonderfully variegated foliage, white and green; make a handsome pot plant	2	6	Suitable for bush-house or verandah culture.		
Splendens (syn. <i>Lateritia Splendens</i>).—Brick-red; absolutely the finest of the type; choice	5	0	Asparagoides Myrtifolia (<i>Myrtle-leaved Smilax</i>) ..	1	6
Bougainvilleas like a warm northerly aspect and shelter			The leaves resemble the small leaves of the common Myrtle, and are borne on long feathery trails.		
CANAVALIA Bonariensis	2	6	MIKANIA Scandens (Japanese Ivy).—Ivy-like foliage and yellow flowers	1	0
Bright purplish-red spikes of pea-like flowers; foliage beautiful glossy green.			MOON FLOWER. —See <i>Ipomoea</i> .		
D CLEMATIS —			NASTURTIUM (double-flowering).—Brick red, striped yellow	1	0
*Montana (American Virgin Bower).—Pure white ...	1	6	Scarlet Flower	1	0
Named Japanese sorts, 5/- each.			PASSIFLORA (Passion Flower).—		
COBEEA —			Cœrulea. —Blue and white	1	6
Scandens. —Dark purple	1	6	Constance Elliot. —Pure white	1	6
Scandens Alba. —White	1	6	Granadilla. —Large fruit	2	6
DOLICHOS —			Edulis (Edible Passion Fruit).—White flowers, tinged purple	0	9
Lignosus. —White	1	0	Sanguinolenta. —Red	1	6
Lignosus. —Pink	1	0	Passifloras should always be included among plants selected for covering unsightly objects.		
Fast-growing twiners.			PETRAEA Volubilis (Purple Wreath). Flowers purple, very beautiful; likes a sunny situation	2	6
FICUS Stipulata (Climbing Fig).—Special quote for quantity	1	6	D PHASEOLUS Caracalla (Snail Flower)	1	6
Minima. —Very pretty, small-leaved variety	1	6	Producing clusters of lovely lilac flowers, shell-shaped; very curious and beautiful.		
Repens Variegata (syn. <i>Radicans</i> Var.)	1	6	PHYSIANTHUS Albens (Aranja or Cruel Plant).—White flower, somewhat resembling <i>Stephanotis</i> ..	1	6
Adhering to walls, fences, rocks, and are very useful in general.			This has been called Cruel Vine, its flowers entrapping moths and butterflies.		

CLIMBING PLANTS—Continued.

QUISQUALIS Indica (Rangoon Creeper).—Flowers varying in colour from orange to red and pink	s. d. 2 6
RHYNCOSPERMUM Jasminoides	2 0
Jasminoides .—Variegated, choice	2 0
A bright perfumed, white-flowered creeper. It is evergreen and hardy, except in the coldest districts.	
SNAIL FLOWER .—See Phaseolus.	
SOLANUM Jasminoides .—White; a fast-covering climber	1 6
Jasminoides Alba Marginata	1 6
Seafortthianum .—Beautiful clusters of blue flowers	1 6
Wendlandii .—It blooms continuously—not stray blossoms—each one nearly three inches across, as many as 100 being in a cluster. The colour is an attractive shade of lavender-blue	1 6
STEPHANOTIS Floribunda (Madagascar Jasmine) ..	2 6
It is usually grown in the green-house, but will do well in warm situations out of doors. The flowers are pure white, wax-like, very fragrant, and abundant.	
STIGMAPHYLLON (Golden Vine) Ciliatum	1 6
Orchid-like flowers; yellow.	
SOLANDRA Grandiflora .—Peach-coloured, trumpet-flowered	1 6

TACSONIA (Passion Flower)—

Exoniensis .—Rose-pink	1 6
Ignea .—Intense scarlet	1 6
Manicata .—Scarlet colour	1 6
Smythiana .—Peculiar shade of orange-scarlet; fruit edible	1 6
Van Volxemii .—Crimson colour	1 6

This family is distinguished from the Passiflora by the long cylindrical tubes of the calyx of their flowers. They are very handsome, quick-growing, beautiful climbers.

TRUBERGIA—

Laurifolia .—Pale blue flowers	1 6
Coccinea .—Small red flowers	1 6

TROPEOLUM—

Pentaphyllum .—Vermilion and green	2 0
---	-----

VINCA (Periwinkle) **Argentea Variegata**.—Useful for low bordering; trailing habit

Minor.—Miniature leaves

VIRGINIAN CREEPER.—See Ampelopsis.

D *WISTARIA Magnifica.—This is an evergreen in warmer districts, producing in the summer beautiful lavender-blue flowers

***Multijuga Alba**.—White flowers

***Multijuga Alba**.—White flowers

Multijuga Rosea.—Lilac-rose flowers, lower petals yellow in centre; flower buds of a nice clear rose each

***Sinensis**.—Lavender

***Sinensis Alba**.—White

***Sinensis fl. pl.**—Double flowers, lavender

Aquatic Plants

The Nymphaeas are among the most beautiful and satisfactory of this class of plant; late years have added charming new colours and forms. They thrive and flower in small tubs or half-casks, aquariums, tanks, cemented basins, ponds, lakes or streams. We recommend growing in half-casks. Fill one third with the following material: One part coarse bones in the bottom, one part strong soil and cow manure, and white sand on top. Plunge firmly in soil, keep cask filled with fresh water, and the result will be a success. With judgment and careful selection how beautiful our lakes, streams and swamps might be made by covering the surfaces with foliage and flowers, while the margins could be covered with luxuriant vegetation.

THESE NYMPHEAS REPRESENT ALL THE SORTS AS GROWN IN CENTENNIAL PARK, THE ROOTS ARE STRONG, AND GUARANTEED TO FLOWER WELL THE FIRST SEASON AFTER PLANTING.

AZOLLA RUBRA .—A dense, floating aquatic, minimising evaporation	Each s. d. 1 0
LIMNOCHARIS HUMBOLDTII (Water Poppy). Covers the surface of the water with broad heart-shaped leaves of a beautiful glistening green, and soft yellow Eschscholtzia-like flowers which continue for several months	1 6
NYMPHEAS —	
Aurora .—The flower changes to three or four distinct shades; first day rosy-yellow, second day orange-red, then a darker shade	3 6
Colossea .—Flesh colour, turning to white	3 6
Gigantea (Australian Water Lily).—Strong tubers. May to October	3 6
The beautiful blue variety, native of our Northern rivers, which prefers a warmer situation than the others.	
Gladstoneana .—Fine white	5 0
Gloriosa .—Deep brilliant rose, suffused slightly with carmine; perfect shape	3 6
James Brydon .—Rosy-crimson; very fine	5 0
Laydekeri Lilacea .—Elegant flower; lilac pink, dotted with bright carmine	3 6
Lucida .—Rosy vermillion; choice	3 6
Lutea .—Tubers	2 6
The beautiful yellow variety.	
Marliacea Albida .—Splendid vigorous sort; large flower, 6 inches in diameter; milk-white; very floriferous	3 6
Marliacea Carneae .—Flesh-pink, fragrant and very large	3 6
Marliacea Chromatella .—Canary-yellow petals and stamens; leaves blotched with maroon	3 6

Moorei .—A New Zealand variety, large golden yellow	Each s. d. 3 6
Odorata Alba .—Tubers	2 6
The lovely White Water Lily, always seen in such profusion during summer and autumn.	
Odorata Luciana .—Flower rose carmine; bright vigorous sort	3 6
Odorata Rosea .—Rose, sweetly perfumed; extra choice	3 6
Robinsoni .—Brilliant vermillion, shaded with lustrous violet red, and touched with ochre towards the centre; stamens rich orange yellow; leaves spotted and streaked chestnut; marvellously fine colour; very beautiful	3 6
Sanguinea .—Flowers large, of a bright crimson colour, changing to deep blood-red; centre light orange-red, continuous flowering	3 6
Seignouretii .—Flower of medium size; carmine on pale yellow ground; arising 6 inches above the water; a profuse bloomer	3 6
Stellata .—Flowers blue, very delicately scented; produced in abundance throughout the summer months	5 0
Stellata Alba .—Same as Stellata, only white, choice	7 6
Suavissima .—Flowers clear pink, standing well out of water	7 6
Tuberosa Rosa .—Rose; very pretty	3 6
W. Falconer .—A very fine hybrid; deep, rich blood-crimson, shaded ruby, intensified by golden yellow centre, nice foliage	5 0
PAPYRUS ANTIQUORUM (Egyptian Paper Reed or Rush)	1 6

HEDGE PLANTS

Planting Hedges for use as well as for ornament—protection of orchards, farms and gardens—is becoming highly appreciated. They are a protection against high winds, and valuable in preventing the blowing off of fruit. Gardens produce earlier and fruit ripens better when thus protected. Besides their usefulness nothing can be more beautiful than hedges of evergreens or shrubs, well kept and pruned, to serve as boundary lines between lawn and garden, or to hide unsightly parts of the ground. By using the medium-sized plants we supply, a hedge can be made as cheaply as a good fence can be built.

E denotes **EVERGREEN**.

D denotes **DECIDUOUS**.

E—ABERIA CAFFRA (Kaffir Apple).—Plant 3 feet apart; very spiny, most useful for hedge. 16s. per doz.

D—AFRICAN BOX THORN (*Lycium Horridum*).—Plant 12 inches apart. 2s. 6d. doz., 17s. 6d. 100

This prickly hedge is a quick-growing evergreen, suitable for fencing large gardens.

D—BERBERIS VULGARIS.—Plant 12 inches apart. Useful hedge plant. 60s. per 100.

E—BOUGAINVILLEA GLABRA SANDERIANA.—Plant 2 feet apart; makes a pretty hedge, and flowers abundantly. 2s. each, 22s. per doz.

E—CRATAEGUS CRENULATA.—Glorious hedge. Plant 3 feet apart. 16s. per doz.

E—CALLITRIS ROBUSTA (Syn. *Frenella*).—Good hedge plant. 16s. per doz.

E—CEROSUS LAURO-CEROSUS (English Laurel).—Plant 3 feet apart. 80s. per 100, out of ground.

E—COPROSMA LUCIDA.—Plant 3 feet apart. 16s. per doz. This is a good hedge plant, and is particularly hardy, especially on the sea coast.

E—CUPRESSUS LAMBERTIANA HORIZONTALIS. True (see Conifers). 3s. 6d. each, 40s. per doz.

E—CUPRESSUS MACROCARPA.—Plant 3 feet apart. Well-known hedge plants. From 60s. to 80s. per 100.

E—CUPRESSUS TORULOSA.—Plant 3 feet apart. Plants of the true variety propagated from cuttings, and established in pots. 2s. 6d. each, 28s. per doz.; but a special quote for quantity.

This makes a splendid shelter or break-wind; there is nothing that we know of in this State that can equal it for this purpose; requiring little or no trimming for a long time, and does not produce quantities of seed-pods, which are so objectionable.

E—CYTISUS PROLIFERUS (*Tagosaste*).—Tree Lucerne. We recommend the sowing of seed only.

E—DURANTA.—Good hedge, always attractive. Plant 3 feet apart. 3-in. pots, 10s. per doz., 75s. per 100; 4-in. pots, 12s. per doz., 85s. per 100.

D—HAWTHORN QUICKS (May).—Plant 9 inches apart. 3s. per doz., 20s. per 100.

A fine, thorny, deciduous hedge plant, which flowers freely in the spring.

E—HIBISCUS.—Sorts. Plant 3 feet apart. 1s. 6d. each, 16s. per doz.

Will make a grand ornamental flowering hedge. See description in general shrub list.

E—LIGUSTRUM CHINENSIS (Chinese Privet).—Plant 3 feet apart. 16s. per doz.

E—LANTANA SELLOWIANA (The everblooming hedge).—A delightful little flower, mauve colour, and blooms all the year round. A variety from Brazil, and not a common weed like some of our native Lantanas; quick grower, does not sucker or seed; a refined variety. 1 to 2 feet apart. 11s. per doz.

E—LIGUSTRUM LUCIDUM (Large Leaf Privet).—Plant 12 inches apart. 2s. 6d. per doz., 17s. 6d. per 100; not less than 50 at 100 rate.

E—LIGUSTRUM VULGARIS (Small Leaf Evergreen Privet).—Plant 12 inches apart. 2s. 6d. per doz., 17s. 6d. per 100.

D—MACLURA AURIANTIACA (Osage Orange).—An excellent plant for forming hedges; thorny. 3s. per doz., 17s. 6d. per 100.

E—OLIVE, Common (*Olea Europa*).—Plant 12 inches apart. 3s. per doz., 20s. per 100.

The very best hedge for this State, as it withstands drought and heat splendidly; is a quick grower, and stands any amount of cutting back.

D—OSAGE ORANGE (See *Maclura*).

E—PITTOSPORUM EUGENOIDES.—16s. per doz., 120s. per 100.

E—PITTOSPORUM EUGENOIDES VARIEGATUM.—Specially grafted plants. 28s. per doz.

E—PITTOSPORUM UNULATUM (Victorian Laurel).—16s. per doz., 120s. per 100.

This makes fine evergreen hedges for a garden, and can be trimmed close into any desired shape. The foliage is handsome, and of a fine fresh green colour. Plant in single rows, 2 feet apart.

E—PLUMBAGO.—White and blue. Plant 2 feet apart. 16s. per doz., 80s. per 100.

E—PRIVET, Evergreen.—Plant 12 inches apart. 2s. 6d. per doz., 17s. 6d. per 100.

Of all the shrubs tried for hedging, none can compare with the Privet.

D—PRIVET, Golden City.—Plant 12 inches apart. 7s. 6d. per doz., 50s. per 100.

D—PRUNUS MYROBOLANA (Myrobolan Plum).—Hardy fruiting hedge. Plant 12 inches apart. Strong plants, 7s. 6d. per doz., 50s. per 100.

E—RAPHIOLEPIS (Indian Hawthorn).—Plant 2 feet apart; good-flowering hedge. 120s. per 100.

E—RHAMNUS (Buckthorn).—Very useful hedge. Plant 2 1/2 inches apart. 16s. per doz., 120s. per 100.

E—TECOMARIA CAPENSIS (known as *Tecoma Capensis*).—Bright red flowering hedge; looks well planted alternately with Plumbago. 16s. per doz., 120s. per 100.

E—VIBURNUM TINUS.—Plant 2 feet apart. Useful evergreen hedge. 16s. per doz., 120s. per 100.

Carpet Bedding and Edging Plants

Effective Bedding Plants. Should be planted from October to January. They make a grand show

Other varieties among the Annual List can also be used for this purpose.		

We have other Edging Plants; ask us about them.

SEARL'S SEEDLING PLANTS

8d. per dozen; 5/- per 100: unless otherwise marked.

We keep a daily supply of seasonable seedlings at King Street. They carry splendidly to all parts of New South Wales, at a cost of 3d. per doz. extra.

A GRAND SHOW IN YOUR GARDEN can be made by purchasing from this list.

MARCH TO SEPTEMBER.

Antirrhinum (Snapdragon).—Tall and Dwarf. in mixture. Named Sorts. 1s. 6d. per doz.
Aquilegia (Columbine).—Searl's Sovereign Strain. Extra choice, long-spurred varieties, mixed. 2s. per dozen. Single mixed. 1s. per doz. Double mixed. 1s. per doz.
Althea (Hollyhocks).—Double mixed. 1s. per doz.
Bellis Perennis (Daisies).—Mixed Varieties.
Monstrosum.—Giant pink. 1s. per doz.
Monstrosum.—Giant white. 1s. per doz.
Centaurea (Cornflower).—Choice Mixed.
Calendula (Marigold).—Best mixed.
Calliopsis Drummondii.—Splendid mixture, yellow. Large Yellow.
Campanula (Canterbury Bells).—Single mixed. 8d. per doz. Double Mixed. 1s. per doz.
Carnation (Margaret Malmalson).—2s. per doz. Marguerite. 1s. per doz.
Perpetual or Tree Seedlings.—3s. per doz.
Coleus Seedlings.—3s. 6d. per doz.
Cineraria.—Choice giant-flowered. 2s. per doz.
Delphinium, Searl's Sovereign Strain.—A choice mixture of Kelway's renowned strain. 2s. per doz.
Blue Butterfly.—2s. per doz., 12s. 6d. per 100.
Dianthus.—In variety, single and double mixed.
Gaillardia Grandiflora.—Large single mixed.
Larkspur.—Choice mixed.
Leptosyne Maritima.
Lupins.—Best mixed.
Nemesia Strumosa Suttoni.—A compact-growing annual of great merit; great diversity of colours. 1s. per doz.
Pansies.—First-class strains. Mixed Continental, 2s. per doz. Ordinary English Mixed. 1s. per doz.
Papaver (Poppy).—Best variety. Shirley. Choice mixed.
Petunia Hybrida.—Best mixed.
Searl's Sovereign Strain.—A splendid strain, producing immense Gloxinia-flowered blooms, 4 to 6 inches across, well frilled, and a most charming range of colours from almost pure white to dark purple. 2s. per doz.
Primula Malacoides.—A lovely mauve bedding plant. This is a beautiful miniature of the Primula Obconica type; very suitable for the bush-house, or bedding right out in the open; will stand hot sun, wind and frost with impunity. It grows about 8 inches high, throwing out long stems, bearing bunches of flowers of a beautiful rosy lavender tint, shading to mauve. Strong seedlings can be supplied in spring and autumn. 1s. per doz., 7s. 6d. per 100.
Pyrethrum Aureum.—Golden feather bordering.
Pentstemon.—Choice mixed. 2s. per doz.
Polyanthus.—2s. per doz. Splendid variety, all colours.
Phlox Drummondii Grandiflora.—Choice large-flowered, mixed.
Scabious.—Extra large flowers. Searl's Special Strain.
Summer Chrysanthemums.—In variety, single and double mixed.
Stock.—Nice varieties; mixed sorts. 1s. per doz. Separate Colours. 1s. 6d. per doz.
Verbena Seedlings.—1s. per doz.
Wallflower.—Choice mixed double. 1s. Choice single mixed, 8d.

OCTOBER TO FEBRUARY.

Amaranthus (Searl's Sovereign Strain).—Choice mixed; a magnificent collection. 1s.
Arctotis Grandis.
Asters.—Tasmanian; also choice mixed. 1s. per doz., 7s. 6d. per 100.
Crego.—Choice mixed. 1s. per doz., 7s. 6d. per 100.
Balsam.—Best mixed.
Celosia.—Dwarf, mixed.
Celosia Thompsoni Magnifica.—Without a doubt one of the finest annuals of the day. When in flower it is conspicuously beautiful.
Cosmos.—Single mixed.
Cosmos.—Double crown mixed. 1s. per doz.
Dahlia (Cactus).—Mixed seedlings. Sometimes one gets a pleasant surprise from these seedlings, and they brighten up the garden considerably. 1s. 6d. per doz.
Cactus Mixed.—1s. 6d. per doz.
Pompone Mixed.—1s. 6d. per doz.
Paeony-flowered Mixed.—1s. 6d. per doz.
Gomphrena Globosa.—Mixed sorts.
Helianthus Cucumerifolius.—Small single Sunflower.
Lobelia.—Crystal Palace. Dwarf, dark blue.
Mina Lobata.—Lovely annual creeper; red and yellow. In pots 6d. each, 5s. 6d. per doz. Seedlings, 3d. each, 2s. 6d. per doz.
Petunia Hybrida.—Best mixed.
Searl's Sovereign Strain.—A splendid strain, producing immense Gloxinia-flowered blooms, 4 to 6 inches across, well frilled, and a most charming range of colours from almost pure white to dark purple. 2s. per doz.
Portulaca.—Single mixed.
Pyrethrum Aureum.—Golden feather bordering.
Pyrethrum, Flowering.—Assorted. 2s. per doz.
Salpiglossis.—Choice mixed; colours very rich and gorgeous.
Salvia Bonfire (Perennial).—This plant has proved to be one of the very best for bedding-out purposes and for border decoration. Its colour, a brilliant scarlet. Price, 2s. per doz.
Salvia Hollandi.—Scarlet; very dwarf, and compact grower. 2s. 6d. per doz.
Tagetes.—African and French Marigold.
Zinnia.
Robusta Grandiflora.—Giant-flowered type; a very hardy and attractive annual. 1s. per doz.
Choice Mixed.—1s. per doz.

VERANDAH PLANTS 2

So many lovers of plants have no opportunity of indulging in their hobby, except in a verandah garden, that we add a short list of plants which can be successfully cultivated in pots or boxes in this way. They will all thrive, providing the ends of the verandahs are closed in to prevent sharp currents of air blowing on them. In cold districts a screen round will prevent frosts from injuring them.

STRONG PLANTS FOR THE PRICES MENTIONED.

AZALEAS

The Azalea is a lovely spring-flowering evergreen shrub, and planted in masses, affords a glorious display. This plant has no equal for richness and purity of colouring. In very dry seasons, Azaleas should be helped with heavy watering about once a fortnight. They can be grown as pot plants, and are suitable for bush-house or verandah culture.

Strong plants, 2s. each, 22s. per doz. (except where otherwise priced). Large plants at advanced prices, in full bloom. You cannot do better than leave a selection of 6 or 12 Azaleas to us.

S. denotes Single. D. denotes Double. S.D. denotes Semi-Double.

ALBA MAGNA (S.).—Large white, occasionally striped.
BARON DE VRIEBE (S.).—Pure white; very large. 3s.
BERNARD ANDRE ALBA (S.D.).—Double white. 3s.
CHAMBER (S.).—Bright amaranth; of good form.
CORONATA (S.).—Rosy red.
COMTE CHARLES DE KERCHOVE (D.).—A very free-flowering variety of perfect shape; flesh colour with white stripes. 3s.
DAME MELANIE (S.).—Very bright rose, edged with pure white, carmine blotch. 3s.
DEUTSCHE PERLE (D.).—This is, without doubt, the best double white Azalea; being very free-flowering, early blooming. 3s.
DUC DE NASSAU (S.).—Large, dark, rosy-purple.
EMPERESS OF INDIA (D.).—Flowers perfect; the other segments are gracefully wavy and well expanded; the segments which occupy the centre are carmine, white and salmon-rose. 3s.
EMPEREUR DE BRESIL (D.).—Large double rose of exquisite form, banded with white, upper petals marked with glossy red. 3s.

EULALIA VAN GERT (S.).—Pink, carmine spots.
EXQUISITE (S.).—Pink and white.
INDICA ALBA (S.).—Pure white.
MAGNIFICA (S.).—Large, deep purple.
MORTI (S.).—White, green tinge in centre.
REFULGENS (S.).—Purplish, shaded rose.
ROI DE HOLLANDE (S.).—Bright red.
SOUVENIR DE PRINCE ALBERT (D.).—Deep rose, broadly margined with white. 3s.
SPLENDENS (S.).—Fine rosy salmon; free bloomer.

AZALEA MOLLIS (S)

Strong plants from 3s. 6d. Orange colour, pale yellow. orange red.

It blossoms in a profuse manner, the large funnel-shaped flowers ranging in colour from rosy-salmon to various shades of yellow and bright orange.

BEGONIAS

BASKET BEGONIAS

A glorious type that will become very popular.
 Many shades, from 2s. 6d. each.

MOSTLY ADAPTED FOR BASKETS.

ORNAMENTAL-LEAVED BEGONIS

(REX TYPE)

The leaves are beautifully marked with bronze, silver, and crimson. Highly decorative pot plants for green-house, verandah, or bush-house culture. Most charming house plants. Sometimes called Rex or Painted Leaf Begonias.

All 1s. 6d. each, 16s. per doz., except otherwise priced. A fine collection of the most beautiful varieties known.

BRISBANE. 2s.	TAM o' SHANTA.
BELLA.	COUNTESS OF ROSE-
DUCHESS.	BERRY.
DESFONTAINE.	SILVER SPOT.
DOROTHY MAIDEN. 2s.	SPLENDIDA.
PRESIDENT CARNOT.	Mrs. W. D. SEARL. 2s.
MADAME PATE.	LOUIS CLAUSEN.
NOVELTY.	SILVER WINGS. 2s.
NELLIE MAIDEN. 2s.	SILVER SPOT.
VAN DEMONA. And many others.	

SHRUBBY BEGONIAS FOR BEDDING OUT

1s. 6d. each, 16s. per doz. Distinct from Tuberous-rooted varieties, and very useful for bush-house or sheltered place in the open garden.

DREGIANA.—White.
FUCHSIODES.—Red.
NYMPHOPHILA.—Pink.
LUMINOSA.—Red.
MANICATA.—Pink.
METALLICA.—Dark pink.
SPOTTED LEOPARD.—Creamy white.
WELTONIENSIS.—Pink.
FUCHSIODES GRANDIFLORA.—Large red.
NITIDA.—Pink and white flowers.
SEMPERFLORENS.—In three shades, pink, white and red.
ZEBRINA.—Green and grey stripes through the leaves.

TREE BEGONIAS

No other flowering plant can lay claim to so many advantages as a winter-flowering plant of this class.

The following are Tree Begonias, growing to height of from 10 to 12 feet, looking very picturesque if grown in a sheltered position out of doors. Especially adapted to bush-house culture in open ground.

BEATRICE ROSEBY.—Pink; a lovely shade. 1s. 6d.
CARRIERI (syn. Undulatum).—Tall-growing variety, producing clusters of pure white flowers. 1s. 6d.
CORALINA.—Beautiful green leaves, like angels' wings, producing beautiful clusters of a rich red colour. 1s. 6d.
CORALINA-CARNEA.—Another variety of the above type, with the palest of flesh-pink flowers, with handsome cool-looking foliage; a very choice plant. 1s. 6d.
INDIAN PRINCESS.—This is a most handsome variety, having beautiful bronzy green foliage, while the flowers are very large pure white. 2s. each.
MABEL ROSEBY.—Large white; the best. 1s. 6d.
METALLICA IMPROVED.—1s. 6d.
SMITHI.—A hybridised variety of the above, producing darker flowers of a rich carmine-rose, in very large clusters; an exquisite variety, the foliage bronzy-green, making a pretty contrast. 1s. 6d.

TUBEROUS-ROOTED BEGONIAS

Handsome summer-flowering plants. Flowers frequently measure 4½ to 6 inches across. Colours ranging from white and most delicate tints of pink, yellow and orange, to the most intense scarlet and richest crimson. The double-flowering sorts are perfect rosettes, full and double to the centre. They delight in a rich, mellow-drained soil, where they can be liberally supplied with water, and prefer a position well shaded from the direct rays of the sun. Succeed well as pot plants for the conservatory or window garden. On the approach of cold weather the tubers should be taken up, and after drying, stored away in dry sand, or similar material, in a cool place, free from frost, until spring.

SINGLE VARIETIES, 1s. 6d. each, 16s. per dozen. DOUBLE VARIETIES, 2s. each, 22s. per dozen.

BOUVARDIAS

1s. each, 11s. dozen, except those priced otherwise.

A beautiful class of plants, which rank amongst the most elegant border perennials we possess. They flower all through the summer, almost to the middle of winter. As cut flowers for floral work and table decorations, they stand unrivalled. In addition to this, some of them are beautifully scented, and are all more hardy than generally pronounced. They suffer but slightly from frosts in winter, and when once established are rarely killed in consequence. They should be well watered and mulched during the hot and dry summer months, and can be cut back each year in early spring.

- Alfred Neuner.**—Double petals, waxy white.
Beauty of Brisbane.—Pure white, very robust habit, free-flowering.
Bochii.—Bright pink, with white throat; very fine.
Coral Queen.—Rosy-scarlet, white throat.
Dazzler.—Fiery red.
Drummoynne.—Orange-salmon, large truss.
Duchess of York.—Cheerful blush pink, shading to a tinge of heliotrope.
Enid Oliver.—A distinct variety of a pale pink shade, and the individual flowers are formed by six petals, giving the whole truss a spidery appearance; strong grower. 1s. 6d.
Ethel Kerslake.—A good white variety. 1s. 6d.
Federal Queen.—A cross between President Cleveland and King of Scarlets, embracing the good qualities of both.
Flavescens.—Yellow, changing to white.
Flavescens Improved.—Largest yellow.
Harry Gazzard.—A very distinct bright pink, large flowers, choice. 1s. 6d.
Hogarathi.—Fl. pl. Dark scarlet, double.
Hogarathi.—A hardy variety, producing masses of scarlet flowers.

- Humboldtii Corymbiflora.**—Improved. Snow-white; large.
King of Scarlets.—Deep scarlet. 1s. 6d.
Mabel Porter.—Dark crimson, large and full.
Maiden's Blush.—Bright blush pink.
Miss Eileen Beeston.—Colour is a deep pinkish heliotrope, with a wine-red tube; huge trusses of large flowers; very free. 1s. 6d.
Miss Ida Cheesman.—Large flowers of a pale pink colour, the tube and reverse of petals being of a deeper shade, giving it a charming appearance; sweetly perfumed. 1s. 6d.
Mr. Deas Thompson.—Pale shade of rose pink.
Mrs. G. H. Kerslake.—Deliciously fragrant, dwarf sturdy habit, large trusses, white flowers. 1s. 6d.
Mrs. Sutton.—Large rosy-pink, white throat.
Mrs. McCulloch.—A very beautiful Bouvardia, producing immense trusses of large flowers of a reddish-salmon colour; distinct. 1s. 6d.
President Cleveland.—Very large, brilliant scarlet; one of the best.
President Garfield.—Double pale pink and white.
Priory Beauty.—Pale shade rose, very fine, large trusses.
Rubra.—Dark crimson variety; very floriferous.
Salmon Queen.—Colour salmon, with darker tube; distinct.
Searl's Coral Gem.—The petals are very pale pink, changing to white. The large, globular-shaped buds have a decided green tinge, which is retained in the fully-developed bloom. 1s. 6d.
Vreelandii.—White, hardy.
Walhallow.—The best coral-pink variety; very floriferous.
White Bochii.—Same habit and shape of Bochii, only white, the buds before opening showing a pink tinge.

Camellias

The Camellia succeeds well in this climate. The best soil is strong, well-drained loam of good depth, with liberal manurings once a year. In favourable soils the trees will grow to a height of from 12 to 20 feet. With proper attention, fine specimens can be grown in large pots or ornamental tubs for decorative purposes. Bloom from May to September.

From 3s. each, according to size.

We have many sorts in stock, some not listed here.

If left to our selection we will supply good and distinct colours.

- Alba Plena.**—White. 5s.
Augusta Superba.—Pink cupped.
Bonomiana.—White stripes, splendid flower.
Candidissima.—White, very beautiful.
Chandleri.—Red and white.
C. H. Hovey.—Velvety-crimson, shaded violet.
Cup of Beauty.—White, rose shaded.
Dryade.—Rose, fine form.
Fimbriata Alba.—Splendid, white-fringed. 5s.
Marriet Beecher Sheather.—Rosy-salmon, fine flower, free bloomer.
Isabella.—Large, handsome white.
Lavinia Maggi.—White, crimson blotches.
Metallica.—Dark red.
Mrs. Fairfax.—Rose pink.
Mrs. Hope.—Blush colour.
Mrs. Shottowe.—White, striped and dabbled rose.
Prince Frederick William.—Superb rose, reflexed, perfect shape.
Storyl.—Bright rose.
Venus de Medici.—Crimson, veined rose.
Virginia Franco.—Rose, changing to spot pink, flesh margin.

Dwarf Orchid-Flowering Cannas

Giant-Flowered. Gorgeous. Ever-Blooming.

A decorative plant of great beauty, quite hardy, nearly always in flower, magnificent in foliage like the leaves of the banana; not particular as to soil or situation.

The new race of Cannas which we offer may well be termed "Orchid-flowered," as they completely eclipse in beauty the old-fashioned varieties, now quite out of date.

At 1s each, 11s. dozen.

We have about 24 varieties to offer, all distinct. List of colours on application.

Coleus

A most attractive and easily-cultivated tribe of plants, with beautiful and varied foliage; suitable for pot culture, and cannot be surpassed for window or verandah culture. May be grown outside in favoured positions.

A very choice collection, 1s. each, 11s. per dozen.

Seedlings in early spring and summer at 3s. 6d. dozen; postage extra.

The Home should be the Centre
of your Happiness.
Make it so by having a Garden.

Searl's Carnations

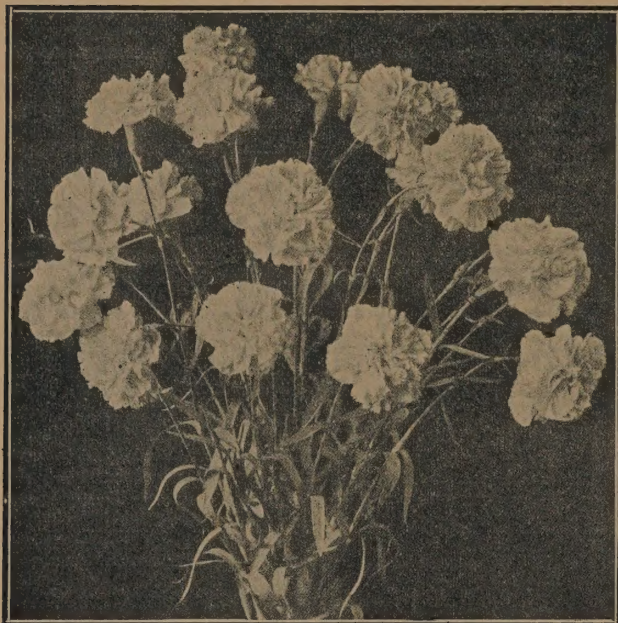

ONE OF OUR CHIEF SPECIALITIES

Strong, healthy, and carrying plenty of root, they must give satisfaction.

The flowering wealth of Carnations, their charm of colouring, combined with a delightful perfume, place them very high in popular estimation; whilst the long time they continue producing makes them invaluable to the florist. Easy of culture, thrive in any fair soil, and may be planted out from April to October for best results.

Those priced at 1s. each. 11s. per dozen. Those priced at 1s. 6d. each, 16s. per dozen.

We have catalogued all Carnations alphabetically with the following key:—A. denotes American. P. denotes Perpetual or Tree Flowering.

- A—After Dark.**—Deep velvety crimson, rich clove perfume.
- P—Alexandra.**—Yellow ground, fancy heavily striped purple maroon. 1s. 6d.
- P—Alice Bryant.**—Salmon pink, heavily splashed scarlet; choice.
- A—Alice May.**—Colour white, centre of flower rich soft pink, shaded crimson.
- A—Alma Ward.**—Pure white splashed with delicate pink.
- P—Arthur Fripp.**—Rich scarlet self.
- P—Avalanche.**—Snow white, of good form.
- P—Balacava.**—Very dark crimson; constant; perpetual.
- P—Basil.**—Deep crimson, smooth petals.
- A—Bath Premier.**—Pure canary yellow.
- A—Beacon.**—A very fine scarlet.
- P—Beatrice.**—Clear yellow, heavily edged, and marked bright purple.
- P—Belgium.**—Good scarlet self.
- P—Benora.**—White ground, edged red and pink. 1s. 6d.
- P—Bernard.**—White centre, outside half of petals almost covered with rich crimson.

- A—Bessie Randall.**—Deep rose pink, sound calyx, and good stem.
- A—Black Chief.**—A deep velvety crimson.
- A—Britannia.**—A glorious scarlet, richly perfumed.
- P—Canterbury.**—Yellow ground pencilled scarlet.
- P—Chrissy.**—Colour, a pure white ground edged with bright pink.
- A—Columbia.**—Rich salmon pink, self.
- P—Comet.**—A very fine deep scarlet.
- A—Como.**—A beautiful shade of rose-pink. 1s. 6d.
- P—Conspicuous.**—Rich bright rose.
- P—Cora Lynn.**—Deep rosy pink.
- P—Crocus.**—An all-yellow variety, and valuable show carnation.
- P—Delight.**—Shell-pink, well formed.
- A—Denet.**—Fine large pale salmon-pink. 1s. 6d.
- P—Distinction.**—Uncommon colour, white ground with broad flakes of rose.
- P—Duchess of Devonshire.**—Dark crimson, with nearly smooth-edged petals.
- P—Dwyer's Yellow.**—This is a sterling perpetual yellow.
- P—Earl Kitchener.**—Colour, rich rosy scarlet, banded and striped dark maroon.
- P—Edith Gray.**—White ground, very finely pencilled, and slightly striped maroon.
- P—Egypt.**—Deep maroon.
- A—Enchantress.**—A delicate flesh pink; one of the best.
- A—Enchantress Supreme.**—A charming shade of salmon-pink; it has all the good qualities of its parent.
- A—Fair Maid.**—A lovely shade of salmon-pink.
- A—Flora Hill.**—Pure white.
- P—Galacia.**—Deep yellow, with rich markings of rose-pink, crimson and chocolate. 1s. 6d.
- P—Geo. E. Elliott.**—Very unique in colour, brownish-red, flaked dark prune.
- A—Glory.**—One of the very best scarlet selfs yet raised; long, stiff stems. 1s. 6d.
- A—Gold Lace.**—Yellow pencilled and edged scarlet.
- P—Grand Mogul.**—A brilliant scarlet crimson, shaded maroon; perfect calyx.
- A—Harlequin.**—Yellow ground, heavily striped with red; calyx perfect.
- P—Higginbotham.**—White ground, edged with short lines and lined cerise; smooth.
- P—Highfield Beauty.**—A clear rose-pink. 1s. 6d.
- A—Inca Maid.**—A very fine purple self.
- P—Irishgowlan.**—White ground, regularly flaked red.
- A—Jessie's Dream.**—A beautiful pale salmon-pink.
- A—Juanita.**—A lovely shade of salmon-pink.

SEARL & SONS

PLANTS & FLOWERS

SYDNEY

SEARL'S CARNATIONS—Continued.

- P—Keith Crawford.**—Good pink.
- P—Kathleen Sheldon.**—Good all round scarlet.
- P—King George.**—Rich pink cerise on long stems.
- A—Lady Alington.**—Shade of rich rose salmon.
- A—Lady Carlisle.**—Colour, deep bright rose.
- A—Lady Northcliffe.**—Exquisite shade of bright salmon pink.

- A—La Rayanante.**—Fine large pale yellow. 1s. 6d.
- P—Laura.**—Dark crimson self.
- P—Lavinia Bird.**—A white ground evenly marked with heavy lines of dark cerise pink.
- P—Lena Rivers.**—A good free variety, flowers sound and of a large size; colour a glistening rosy lavender, striped cerise.
- A—Lily Brayton.**—A very free-flowering soft pink.
- A—Lyndall.**—Rich deep crimson; a champion. 1s. 6d.
- A—Marchioness of Linlithgow.**—Pure white finely-formed flowers.
- X—Marden.**—The colour is pure glistening white, with distinct edge and occasional light markings of purple. 1s. 6d.
- P—Mary Allwood.**—A new shade of cardinal pink, approaching reddish-salmon.
- P—Mary Kate.**—White ground edged and flaked rose.
- P—Masterpiece.**—Pretty red flowers on long stems.
- P—Matchless.**—Good large white.
- P—Mauve King.**—A beautiful lavender-heliotrope shade.
- P—Mauveen.**—Slaty-blue.
- P—Milford.**—Yellow ground, edged and finely pencilled with bright red.
- P—Miss Jessie Moodie.**—A white ground; heavy markings of carmine.
- P—Miss Hobbs.**—A velvety crimson.
- P—Miss Myrtle.**—Cream ground edged and pencilled scarlet.
- A—Mona.**—Cerise lake self; a splendid all-round Carnation for cutting, etc.
- P—Mothers' Day.**—One of the best white decorative carnations. 1s. 6d.
- P—Mr. John Pope.**—Brilliant scarlet crimson, shaded maroon.
- A—Mrs. A. C. Peacock.**—Rich crimson scarlet of perfect form and substance.
- P—Mrs. A. Constable.**—Bluish ground, with a few purple flakes
- P—Mrs. A. F. Dutton.**—Shade of apple blossom pink.
- P—Mrs. E. Newall.**—Buff ground, spotted and splashed carmine; very distinct.
- P—Mrs. F. H. Searl.**—The blooms of this variety are of a lovely light rose pink.
- P—Mrs. Frank Fisher.**—Colour, yellow, finely lined with bright pink.
- P—Mrs. G. H. Kerslake.**—Rich yellow ground, edged and pencilled with scarlet.
- P—Mrs. G. M. Magno.**—Apricot buff ground, heavily marked with pink and lavender; distinct. 1s. 6d.
- P—Mrs. Greswold-Williams.**—Opens a beautiful pink and gradually develops to a soft mauve.
- A—Mrs. J. Bidencope.**—White, each petal being overlaid with pink, broad fringe of white.
- A—Mrs. L. J. Lipscombe.**—Rich geranium pink, slightly imbricated; perfect form.
- P—Mrs. Thomlinson.**—Yellow ground; fancy; marked with bright pink. 1s. 6d.
- A—Mrs. T. W. Lawson.**—Deep pink.
- A—Mrs. Young.**—A magnificent purple self.
- P—Nabob.**—White ground, picoteed purplish maroon.

- A—Othello.**—Velvety maroon self; a non-splitter.
- A—Pearl Brown.**—Pink, heavily splashed with deep maroon.
- P—Phillis Magno.**—Yellow, edged scarlet.
- P—Planet.**—Very large bright pink. 1s. 6d.
- P—Poulter's White.**—Snow-white flowers on long stems.
- P—Purity.**—Pure white smooth petals.
- A—Queen Alexandra.**—Rich salmon-pink.
- A—Regina.**—Rich salmon-pink. 1s. 6d.
- A—Rose Dore.**—Brick red with orange tint.
- P—Royal Purple.**—The best purple variety yet raised.
- A—Santa Barbara.**—Deep velvety red on long stems.
- A—Santorin.**—A very red American; the brightest red yet grown
- A—Salmonea.**—Deep salmon. 1s. 6d.
- P—Scarlet Glow.**—A shade of scarlet that never becomes dull.
- P—Sequence.**—Scarlet; much admired.
- A—Snowstorm.**—One of the largest of all in the white section. A pure white with excellent calyx.
- P—Sweet Lavender.**—Large lavender colour; a peculiar art shade. 1s. 6d.
- P—Sweet Nell.**—Dark red.
- P—Sylvia Ericksen.**—Best described as a rosy mauve ground, and each petal edged and spotted with bright plum.
- P—The Chief Secretary.**—White ground, flaked cerise and maroon.
- X—Torchlight.** The best self scarlet, smooth edge.
- P—W. A. Holman.**—A delightful shade of salmon-red; splendid for garden or table decoration.
- A—Washington.**—Colour a deep pink.
- P—Westralia.**—A bright yellow self.
- P—White Champion.**—A good white.
- P—White Conqueror.**—Good white variety.
- A—White Enchantress.**—A pure white sport from the Queen of Perpetuals.
- A—White Perfection.**—As the name implies, the best of whites
- P—Winsome.**—White, pencilled with deep pink.
- P—Winter Cheer.**—Very bright scarlet; free-flowering; a splendid variety for winter.
- A—Wodenethe.**—An immense white bloom. 1s. 6d.
- P—Yellow Princess Alice.**—Yellow, pencilled bright pink; very good.

Novelty Bougainvillea.

"Searl's Pink Gem."

This magnificent acquisition to the already existing list of charming climbers deservedly claims the name of Nature's Masterpiece.

The blossoms, which are produced in large clusters, are of an exquisite rose-pink shade—a beautiful and long-wanting colour in climbers—each individual bloom being quite three times the size of the ordinary type.

For planting, we recommend from August to March as the most satisfactory months, and in regard to aspect—like all Bougainvilleas—a sunny, sheltered spot, facing either north or north-east, is most favourable.

The plants are our own growing, thoroughly established, and carry our special recommendation.

Price, 7s. 6d. each; postage extra.

Searl's Chrysanthemums

The Chrysanthemum will grow in almost any climate or any soil, if the ground is well worked and fed with manure. The plants produce more buds than they can bring to maturity. It is therefore necessary, when good bloom is desired, to disbud to a great extent, as it greatly enhances the beauty without decreasing too much the supply of flowers. Where show blooms are desired, a much more liberal treatment and excision is of course necessary.

1s. each. 11s. per dozen; post free 12s.

READY FOR DELIVERY SEPTEMBER, OCTOBER AND NOVEMBER.

Send for our "Special Descriptive Chrysanthemum List" of novelty and general sorts. Ready in September.

Searl's Dahlias

1s. each. 11s. per dozen; post free 12s.

Those not well versed in the varieties of Dahlias would find it to their advantage to leave the selection of sorts to us, simply naming the class of flowers wanted—Cactus, Pompone, Paeony, and so on, with the colour and purpose for which they are intended, whether for cut flowers, garden decorations or show purposes. We take great care to see you have a judicious and distinct collection. Dahlias bloom from January to May in favourable seasons. Tubers and green plants are available from September to December, and may be planted late, especially the Cactus varieties, which really bloom better after late planting.

Send for our "Special Descriptive List of Dahlias," for all varieties, including latest novelties. Ready in September.

Searl's Ericas

(THE HEATH)

These Evergreen Shrubs flower at all seasons of the year. They are very handsome, very hardy, and thrive well in peaty soil in open border, and also in pots, and form magnificent specimens. 2s. 6d. each, 28s. doz. Choice Mixed Varieties.

Autumnalis.—Very beautiful variety, producing trusses in great profusion, of small rosy pink bell-shaped flowers.
Bowieana.—Pure white, long tubular waxy flowers; very free-flowering.
Cavendishii.—Beautiful waxy golden-yellow tubular flowers; extra fine.
Cerinthoides Coronata.—Long crimson tubular flowers.
Charsleyana.—Delicate blush pink tubular flowers.
Hentyana.—Delicate pink, shaded white; beautiful long spikes of tubular flowers.
Hybrida.—Beautiful waxy-red tube-shaped flowers; very handsome; one of the best.
Intermedia.—Largest white, with long tubular flowers.
Jubilee.—A large flower of the Webbleyana type, but much darker in colour.

Mammosa.—Purplish-crimson tubular flowers.
Persoluta Alba.—Pure white free-growing variety, producing small bell-shaped flowers in great profusion; dwarf habit; extra fine.
Pyramidalis Gracilis.—Small white bell-shaped flowers; very floriferous and fine.
Vulgaris (Scotch Heather).—Purple.
Vulgaris Alba.—White.
Webbleyana.—A beautiful variety, producing delicate waxy and tubular flowers; exceedingly choice for florists' purposes.
Webbleyana Magnifica.—A beautiful rich pink; choice.
Wilmoreana.—Pink and white tube-shaped flowers; very handsome and free-flowering.

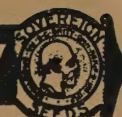

SEARL & SONS

PLANTS & FLOWERS

SYDNEY

Fuchsias

1s. 6d. each, 16s. per dozen.

Thoroughly enrich the soil with well-decomposed manure, and during dry weather, in summer, give them plenty of water, and occasionally a little weak liquid manure.

DOUBLE FUCHSIAS

- Avalanche.**—Tube and sepals crimson, purple corolla.
Ballet Girl.—Enormous pure white corolla, double, sepals scarlet; very free-flowering.
Dollar Princess.—Double corolla, dark blue, extra large, sepals crimson.
Duchess of Edinburgh.—Double white, red sepals; good variety.
Extraordinary.—Plum colour, with red sepals.
Jubilee.—Sepals crimson, rosy mauve corolla.
Lima.—Immense double corolla, centre dark purple, bordered violet, sepals crimson.
Luc Olivia Merson.—Extra large flower, double pure white corolla, sepals carmine.
Minos.—Sepals bright red, corolla very large; rich purple, lined rose at base.
Molesworth.—Sepals bright carmine, reflexed, corolla double; unusually large, and pure white.
Phenomenal.—Short tube and reflexed, sepals crimson, corolla azure-violet, flaked red.
Raoul Fugno.—Corolla very large, semi-double, plum shade, sepals red; extra fine.
Storm King (syn. Frau Emma Topfer).—Sepals rosy-coral, corolla rosy blush.
St. Hilarie.—Very double, pure white corolla, sepals dark crimson.
Victor Hugo.—Large, blood-red sepals, large double corolla, violet-purple, marbled red.
White Jubilee (syn. Countess of Hopetoun).—Enormous; sepals red, reflexed corolla.

HYBRID FUCHSIAS

- Carters' Meteor.**—Leaves bronzy-yellow; a pretty contrast.
Crimson Bedder.—Leaves crimson and bronzy-green, striped white.
Earl Beaconsfield.—Tube and sepals light rosy-carmine, corolla deep carmine.
Furst Otto Von Wernigerode.—A very pleasing shade of pink; quite distinct.
Gracilis Variegata.—Dwarf, leaves green, broadly margined white.
Mary.—A very pretty and attractive variety, producing rich crimson flowers and bright green foliage.
Procumbens.—Bearing large, scarlet, edible berries; plant is a trailer, and may be made to cover a fence.
Swanley's Yellow.—Red corolla, with orange-yellow sepals.
Sunray.—The leaves are of a bright rich crimson, white and bronzy-green in equal parts; one of the showiest.

SINGLE FUCHSIAS

- Arabella.**—White tube and sepals, corolla rosy-pink.
Aurora Superba.—Sepals recurved, of a coral colour, very large; purple corolla.
Beauty of Exeter.—Rosy-pink, flowers large and free.
Black Prince.—Sepal carmine, pale pink corolla, margined with deep rose; one of the best.
Edouard de Perrodil.—Single flowers of phenomenal size, violet shaded scarlet, sepals bright scarlet.
Fair Maid.—Creamy-white, tube and sepals tinted blush; corolla deep carmine, flushed magenta.
Mrs. Henry Roberts.—Tube and sepals rose, corolla dark crimson.
Mrs. Marshall.—Tube and sepals white, corolla pink.
Rose of Castille.—White sepals, corolla violet.
R. U. Nicholls.—Rich crimson, extra large flowered and waxy self-coloured.
Speciosa.—Tube and sepals flesh colour, rosy-carmine corolla.
Vincent D'Indy.—Single, corolla very large, violet-purple, sepals scarlet.

Climbing Ivy-Leaved Geraniums

Fine for covering fences; showy and handsome. Splendid specimens when trained on trellises. It is a surprising fact that all these Pelargoniums have been introduced within the last few years. As cut flowers they are very useful.

1s. 6d. each, 16s. per dozen.

- Alice Crousse.**—Large double flower, violet-purple, free-flowering.
Antoin Crozy.—Bright orange-scarlet.
Beauty of Jersey.—Lovely scarlet, shaded purple.
Chas. Monsolet.—Bright scarlet, very large semi-double flowers.
Chingford Rose.—A beautiful shade of rose tinted lavender.
Enchantress.—Soft salmon shade; free and dwarf.
Hector Glacomelli.—Very bold flowers, soft blush crimson-lake blotch.
Henry Litolf.—Large rose flowers, magenta tint, black blotch.
Her Majesty the Queen.—The finest salmon-coloured variety.
His Majesty the King.—A pleasing shade of dark cerise; trusses large and produced in great profusion.
Incomparable.—Reddish-rose; very large trusses and full flowers.
James Alford.—Extra large bold flowers, pretty tint of soft pink.
Jeanne d' Arc.—White, suffused light lavender; first-class.
Joseph de Maistre.—Light amaranth; good truss and perfect form.
Joseph Warren.—A large, rosy-purple, choice.
La Corinthienne.—White, tinted blush, slight crimson feather in upper petal.
Lady Gertrude.—Soft rose of a pleasing tint, suffused mauve.
La Rosiere.—Flesh, turning to rose.
Le Printemps.—Soft, salmon shade, with black markings.
Madame Crousse.—Silvery-pink.
Miss Gulliver.—Magenta; of a most beautiful and rich shade.
Millfield Gem.—Blush white, slight maroon blotches on upper petals.
Mrs. J. F. Day.—Glowing shade of crimson-rose; free-flowering and sturdy.
Papa Chapper.—Deep crimson scarlet; a grand variety.
Queen of Roses.—Fine large double flowers of a rosebud shape, magenta purple shade.
Ryecroft Surprise.—Crimson spots, shaded purplish-rose.
Sabine.—Bright rosy-carmine, large and well-formed.
Sarah Bernhardt.—White, upper petals feathered maroon.
Souvenir de Chas. Turner.—Gigantic trusses, colour deep pink shade feathered maroon in the upper petal.
Vicar of Shirley.—Lovely shade of raspberry-red; silver-metallic blotches.
Vestal Queen.—Pink; upper petals rayed purplish-crimson.

CACTUS GERANIUMS

This is a new type, differing materially from the ordinary Geraniums, and producing freely flowers which are star-petalled, compact and round.

Fire Dragon.—Dark red (double). 1s. 6d.

REGAL PELARGONIUMS

Strong Plants. 2s. each, 22s. per dozen.

Very suitable for pot culture or decoration of the garden, their blooming season extending over several months. We can supply a number of the best sorts—space will not permit us to detail the names, and customers ordering can depend on receiving good varieties.

VARIEGATED FOLIAGE

We have all the best Variegated Sorts. 1s. 6d. each, 16s. per dozen.

ZONAL PELARGONIUMS

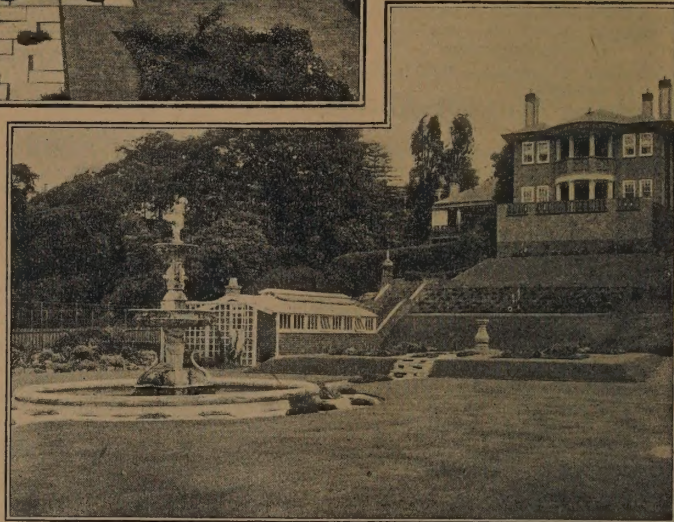

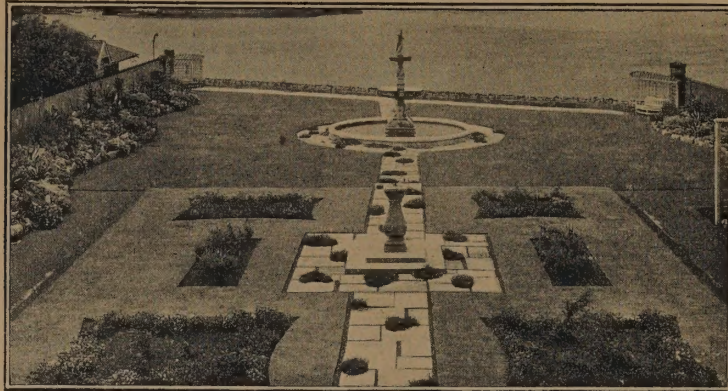

(COMMONLY CALLED GERANIUMS.)

1s. 6d. each, 16s. per dozen.

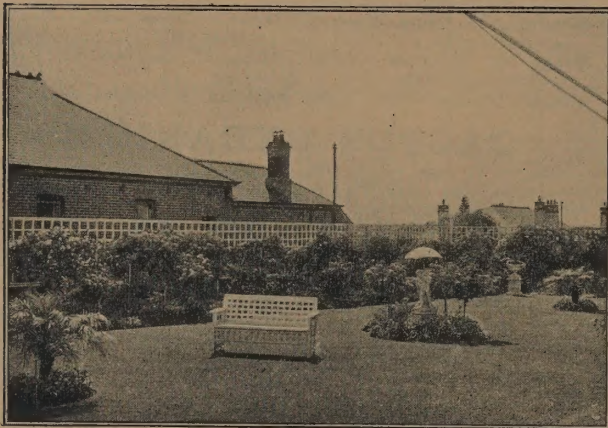

For outdoor culture the Zonal is the most useful and popular of Pelargoniums, of great utility for bedding and very ornamental trained as standards 2 and 3 feet high. Be sure and mention when ordering, which you require, Zonal Pelargonium or Regal Pelargonium.

We have about 150 named varieties, all of recent introduction. Strong plants in pots. List of names and colours cheerfully given on application.

OUR LANDSCAPE WORK

The Residence of Sir Rupert Clarke, Bart., Potts Point. A beautiful rendering of our Landscape Work.

An Artistic Garden at Croydon.

The scope offered in this particular branch of our business, speaks for itself in the above photographic reproductions.

Clients will find it to their **distinct advantage** to approach us **before** either laying out or planning a new garden.

The **initial suggestion** is the embryo of the finished design, and as each different district and locality favours the adoption of certain plants, intending clients must at once see the wisdom of placing their work in competent hands.

Having our own extensive nurseries and trial grounds place us at once in the happy position of not only knowing the adaptability of goods we offer, but imparting the results of our experience in a practical and satisfactory manner.

CHINESE PAEONIES

The improved Paeony is the "Queen of Spring Flowers," well adapted for massing in beds, and planting in groups. Their requirements are so simple—a good, rich, deep soil, an open, sunny position, if possible, and a liberal supply of water during the growing season, being sufficient to give a wealth of flowers, which rival the finest Roses in colouring and fragrance. Require no protection whatever in the most severe climate, are not troubled with pests or disease, and once planted take care of themselves, increasing in beauty each year. Plants ready May, June, and July.

2s. each, 22s. per dozen.

Choice Varieties in Mixture.

GLOXINIA-FLOWERED PENTSTEMONS

1s. each, 11s. per dozen.

As an attractive and decorative plant for the flower border the Pentstemon has no rival. It is easily grown, stands the heat and drought better than any other florists' flower, perfectly hardy, and produces fine spikes of bloom throughout the greater part of the year.

- Andrew Fisher.**—Light purple, white throat.
A. J. Tymms.—Purple-red, shading to white; creamy throat; lip blotched chocolate.
Brilliant.—Bright red, white throat; large flower.
Blue Beauty.—Violet shade, white throat.
Delight.—White, slightly tinged with pink, long spikes.
Gigantea.—Colour, deep rosy lake, throat white, blotched at the orifice with deep rose; immense blooms.
G. H. Kerslake.—Purplish red, white throat, lip striped and blotched chocolate.
Gloria.—Tube and segments brilliant vermilion, throat pure white, blooms of gigantic proportions.
G. A. Biddolph.—Tube soft rose, throat pure white, lip rosy heliotrope.
Harry Gazzard.—Heliotrope, white throat.
Hartwegi Alba.—Pure white, flowers very early.
Hercules.—Tube crimson, segment scarlet, throat white, slightly pencilled scarlet; very long spike of large well-disposed flowers
J. H. Horton.—Purple, lip maroon, white throat, streaked maroon
J. L. Walker.—Throat white, segments deep heliotrope.
Louis Laplatrier.—Crimson lake, white throat.
Mrs. G. H. Kerslake.—Tube white, lip clear, rosy lilac; throat white, faintly pencilled; probably the best of the light-flowered varieties.
Mrs. Gazzard.—Bronzy purple tube, lip violet, white throat.
Noel.—Crimson scarlet tube, throat pure white, lip scarlet.
Phenomenal.—Throat pure white, tube and segments rosy-like; immense funnel-shaped flower and long spikes.
Purpurea.—Throat white, tube and segments violet and purple, immense flowers.
Refulgens.—Throat white, splashed maroon, tube deep crimson.
Rising Sun.—Soft reddish salmon; throat white, beautiful spikes of large flowers; a distinct and delicate tinted variety.
Vivid.—Colour, deep scarlet, throat white pencilled, and blotched at the orifice with crimson; a noble variety.

PETUNIAS

Double Varieties, 1s. each, 11s. per dozen.

We have a splendid collection of double varieties. They should be planted in all gardens, as they are one of the showiest and easiest plants to grow, and give abundance of flowers during the hottest weather, when flowers are appreciated.

PERENNIAL PHLOX

Imported from the Best European Sources.

No class of plants produce a better display of bloom than well-grown Phloxes. The flowers range from pure white to dark crimson, salmon and purple in many shades. They do best on the East or South border in deep, rich soil kept well-watered in summer. They should not be disturbed after planting, as they do best after being established a year or two. This year we have a splendid collection of named sorts, far too many to enumerate.

1s. each, 11s. per dozen.

RHODODENDRONS (FINE NAMED HYBRIDS)

These are taking first rank among flowering shrubs. The best soil is a mixture of peat and turfy loam, but they will thrive in almost any good garden soil. The ground should be thoroughly trenched and well drained, and, if heavy, a mixture of sand will be useful. Should be planted by themselves, or mixed with Azaleas, and in a sheltered part of the garden. They require careful watering during the summer months—a thorough soaking is better than a little now and then—and a good mulching of very old manure keeps their roots moist and cool.

Choice Named Varieties and Strong Plants, 5s. to 10s. 6d. each.

Rhododendron Ponticum Violaceum.—Flowers violet colour. From 2s. 6d.

VERBENAS (NAMED SORTS)

9d. each, 7s. 6d. per doz. Post free, 8s. 6d.

A large bed of this fine dwarf free-blooming plant is most gratifying to the eye. The Verbena is of trailing habit, and flowers all through our long run of warm weather. We stock in named varieties the following colours:—

Blue, Heliotrope, Purple, Red and White, Blue and White, Mauve, Red, Rose, Pink, White, etc., etc. We stock many more Hybrid Varieties; apply for list.

SEARL'S STRONG VIOLET ROOTS

Some of the varieties here enumerated are extremely beautiful. They carry well per post. Always mulch well and protect during the heat of summer. Plant May, June, July for preference.

SINGLE VARIETIES.

- Admiral Avellan.**—A very distinct variety. The blooms are single, in colour rich purplish-crimson (an entirely new shade in this class of flowers); fragrant, and carried on long stalks. 4d. each, 3s. per doz.
Baroness de Rothschild.—A very good variety; pretty blue shade. 4d. each, 3s. per doz.
California.—A fine, large, single Violet; colour medium blue; straight, long stalks. 4d. each, 3s. per doz.
Cyclops.—A remarkable variety. Single, deep blue, with a centre of small petals of a light colour; vigorous and free flowering. 6d. each; 5s. per doz.
John Raddenbury.—Single; colour, pale blue; a very strong-growing Violet, and very hardy, the flowers produced on long footstalks. 4d. each, 3s. per doz.
La France.—The flowers, which are as large as a two-shilling piece, are of a metallic blue-violet colour; long, stiff stalks, and very fragrant. 9d. each, 7s. 6d. per doz.
Luxonne.—Splendid hardy, constant bloomer; nice shade of blue. 4d. each, 3s. per doz.
Margaret.—Free-flowering blue. 4d. each, 3s. per doz.
May Jackson.—A beautiful seedling; large, single pale-blue flowers, superior to John Raddenbury. 4d. each, 3s. per doz.
Princess of Wales.—A glorious and very fragrant variety of fine habit—sturdy growth—and justly famous for its early, continuous blooming and the immense number of flowers that it bears. It is a distinct type of the California Violet—being of a lighter purple, and are borne on gracefully-poised stems from 12 to 14 inches long. 4d. each, 3s. per doz.

DOUBLE VARIETIES.

- Count Brazza.** (Syn. Swanley White).—This is one of the best double white Violets in cultivation. 6d. each, 5s. doz.
Madame Millet.—A lovely double purple, showing plenty of white. 6d. each; 5s. per doz.
Mrs. Astor.—One of the best doubles; pinkish heliotrope. 6d. each; 5s. per doz.
Marie Louise.—Double; colour rich lavender-blue, with light centre; flowers very large, free-blooming, and deliciously fragrant. 6d. each, 5s. doz.
Neapolitan.—Double; colour a double shade of mauve, very strongly scented; a favourite variety. 6d. each, 5s. doz.

Searl's Herbaceous, Bulbous and other hardy Plants

A pleasing success greatly depends upon the judicious choice of varieties in order to obtain a succession of flowers all the year round. Any person of taste can make a perfect picture of his garden by artistic grouping. Useful also for Cemetery Plots, etc.

SEE BULBS IN SEPARATE LIST.

Most of them will do in any climate, even the coldest parts; if cut down by frost they will again spring up from the root stock. Plant in permanent open borders.

LEAVE THE SELECTION TO US. WE CAN PLEASE YOU.

Attenuata	2 0	Andersoni . White, with black centre	1 0
Americana	1 6	Leucanthemum (White Ox-eyed Daisy)	0 6
Aurea Variegata	1 6	Mrs. F. Sander . Flowers snow-white, double and single	1 0
Very compact habit. Beautiful plants for lawn decorations.		Maximum (Shasta Daisy)	0 6
ALOCASIA —		Maximum (Snowstorm). Very large white	1 0
Macrorrhiza (the Spoon Lily)	1 6	CLIVEA —	
Very useful for bush-house or verandah culture.		Nobilis	2 6
Macrorrhiza Variegata . Leaves beautifully variegated white and green	2 6	A splendid free-flowering bulbous plant, with orange-yellow Amaryllis-like flowers, produced on spikes about a foot high; beautiful pot plant for verandah or bush-house culture.	
ALOE —		CRASSULA <i>Coccinea</i> . Scarlet (syn. with Kalosanthes Coccinea), like a large red Bouvardia	1 6
Arborea	1 6	CONVALLARIA <i>Majalis</i> (Lily of the Valley). White spikes; deliciously fragrant; pretty green foliage; universal favourite	1 0
Socratrina	1 6	CONVOLVULUS <i>Mauritanicus</i> . Flowers blue, with a white throat and yellow anthers; very useful for baskets and rockwork	1 6
Useful plants for rockeries.		CRINUM . Choice varieties	1 6
ALSTROEMERIA <i>Aurantica</i> . Brownish-orange	1 6	Resembles Agapanthus in its habit; also produces tall flower stems, but its crown of flowers is more feathery.	
Few plants need less attention to grow them successfully, either in pots or planted out. They are very effective in masses.		CYCLAMEN . Of various colours each 2s.; per doz. 22 0	
AMARYLLIS , of sorts	from 1s. to 2 6	Very fine winter and spring-flowering plants, which we can highly recommend.	
ANEMONE . In sorts from 1s. 6d. each	1 6	CYPERUS —	
ANIGOZANTHUS (Kangaroo Paw)	1 6	Alternifolius	1 6
ANGELONIA <i>Grandiflora</i> . A dwarf, free-flowering plant; flowers purple	1 6	Laxus	1 6
ANTHERICUM (St. Bruno's Lily)—		The so-called Umbrella Grass.	
Elegantissimum . Foliage a band of yellow through the centre	1 6	Papyrus (Egyptian Paper Reed)	1 6
Album Variegatum . Foliage a band of white through centre	1 6	Syn. with Papyrus Antiquorum. (See Aquatic Plants).	
Showy variegated foliage, for hanging baskets and rockeries.		DIBLYTRA or DICENTRA <i>Spectabilis</i> (Bleeding Heart), strong plants	2 0
ARUNDO <i>Donax Variegata</i> . Beautiful bamboo-like reeds, variegated yellow and white; 12 feet	1 6	The showy, heart-shaped flowers of rosy-crimson and silvery-white of this plant are borne on a graceful, drooping raceme.	
ASTER (Michaelmas Daisy)—		ECHEVERIA —	
These Asters are charming. They receive admiration from all who see them.		Metallica	1 6
Beauty of Colwall . Double lavender	1 6	Retusa <i>Floribunda</i> . Compact-growing, very floriferous variety winter flowering	1 6
Bessarabicus . Large flowers, violet-purple, yellow centre	1 6	Secunda <i>Glaucia</i> . See Carpet Bedding Plants.	
Climax . Very large, clear light blue with bright golden centre	1 6	EULALIA —	
Cordifolius Elegans . Dark violet	1 6	Japonica . 4 feet.	1 6
Elsie Perry . Pink	1 6	Japonica Zebrina Variegata . 4 feet	1 6
Lavis Formosa . Rosy-lilac	1 6	Beautiful grass-like plants, suitable for edge of ponds, or may be used with great effect as a border plant, or specimen on lawns.	
Perry Blue . A delightful shade of blue	1 6	FARFUGIUM <i>Grande</i>	2 0
Microphyllus . Small white	1 6	A Japanese plant; produces dark-green, shining leaves, blotched with yellow, or sometimes white and rose; very ornamental.	
Robert Parker . Soft lavender, large	1 6	FUNKIA (Plantain Lily)	1 6
White Queen . White	1 6	An attractive tribe of hardy herbaceous plants; good foliage and perfumed flowers.	
BLETIA —		GAZANIA —	
Hyacinthina (the Hardy Orchid)	from 3 6	Lutea . Flower of a pure golden yellow	0 6
Alba . Producing white flowers	5 0	Splendens . Orange yellow	0 6
BOLTONIA —		Canary . Nice canary yellow, improved Lutea	0 6
Glastifolia . Flowers borne on long stems, fairy-like flowers produced in endless profusion	1 6	Corona . Yellow, with perfect ring of black marking	0 6
BAMBUSA (Bamboo Cane)—		Primrose Queen . Lemon yellow, with a very pretty dark purple centre	0 6
Arundinacea . One of the strongest Bamboos, 50 feet from	5 0	The Dawn . Cream, shading to orange	0 6
Humilis . 15 feet	1 6		
Nigra (Black Bamboo). 20 feet	2 0		
Fortunei . Dwarf	1 6		
Bamboos, or Tree Grasses, thrive well here, and are quite indispensable in first-class grounds.			

SEARL & SONS. PLANTS & FLOWERS SYDNEY

HERBACEOUS AND OTHER HARDY PLANTS—Continued

GERBERA—

Jamesoni (the Scarlet Daisy of South Africa). Plants, 1s. 6d. each.

Hybrids. Pink, yellow, white, etc., from 2s. each

GLORIOSA—

Superba (the beautiful Climbing Glory Lily of East India). Red and yellow from 3 6
Planti. Red and yellow, small type 2 6

GYNERIUM Argenteum (Pampas Grass). White 1 6

HEDYCHUM—

Coronarum Album. Sweet-scented, snow-white flowers 1 6

Gardnerianum. Lemon-yellow, large and fragrant .. 2 0

HELENIUM (Autumn Sneezewort)—

Autumnale Superbum. Yellow 1 6

Grandicephalum Striatum. Yellow, striped red.. 1 6

Pretty herbaceous plants; very floriferous.

HELLEBORUS Niger (White Christmas Rose). Very choice 2 6

HELIANTHUS—

Multiflorus Plenus (the Double Perennial Sunflower) 1 6

Multiflorus (the Single Perennial Sunflower) 1 6

Both very showy floriferous perennials.

HEMEROCALLIS (Day Lily) **Disticha.** Double flowers, orange-crimson 1 6

HETEROCENTRON—

Roseum. Rose-pink 1 6

Album. Pure white 1 6

HYACINTHUS Candicans 0 6

A species of Hyacinth that grows 3 to 5 feet high, with spikes of pure white flowers.

IMPATIENS—

Sultani (Perennial Balsam). Flowering nearly all the year round, in different shades of pink, salmon, purple 1 0

Holsti. Crimson 1 0

Alba. White 1 0

IMANTOPHYLLUM (See Clivea).

IRIS Kaempferi (Giant Japanese Iris) 1s. 6d. each, doz. 16 0

The flowers are enormous, the colours embracing white, crimson, rose, lilac, blue, lavender and violet. Each flower representing several shades. They attain to the greatest perfection if supplied with an abundance of water at the time of flowering.

Robinsoniana. White 2 0

Foetidissima. Beautiful variegated foliage nearly all white 2 0

All the Irises are worthy of special attention on account of their beautiful combination of colours, which is making them so popular.

LEONOTIS Leonurus (South Africa) "The Lion's Tail." Very showy for its orange flowers in whorles, constant flowering 1 6

LINUM Trigynum. Yellow, winter-flowering 1 6

LOTUS Peltiorhynchus 1 6

A fine glaucous-foliated scandent plant, with scarlet pea-shaped flowers produced in profusion; one of the handsomest plants in cultivation for hanging baskets or rockwork.

MESEMBRYANTHEMUM—

We have a collection of the most showy varieties: orange, yellow, dark crimson, pink, white, and mauve. Succulent plants, suitable for rockeries and edges; free-flowering. 9d. each, 7s. 6d. per doz.

MICHAELMAS DAISY (See Aster).

MIMULUS Moschatius (Musk). Flowers yellow, leaves sweetly scented 1 0

MONTBRETIA—

Crocasmiflora. Very floriferous bulbous plants, excellent for cutting and grouping; dazzling orange 0 6

Drap d'Or (Golden Flag). Orange-yellow 0 6

NIEBERBERGIA Gracilis (The Cup Flower); flowers white streaked with purple, with a yellow centre 1 6

OPHIPOGON—

Jaburan Variegatus. Violet-blue flowers; foliage golden variegation 1 6

Japonica Argentea. White flowers; foliage silver variegation 1 6

PAMPAS GRASS (See Gynerium).

PEONY Herbaceous

Single and Double Varieties 2s. each, per doz. 22 0

PENTSTEMON. See Special List—

Named varieties 1s. each, per doz. 11 0

PERENNIAL PHLOX. Are among the finest and most effective for summer and autumn display; as border plants nothing will rival them. 1s. each, per doz. 11 0

We have a good collection of 50 varieties in all, including only the very best. (See Special List).

PHORMIUM (New Zealand Flax)—

Tenax. 5 feet 1 6

Tenax Variegata. 5 feet 2 0

A fibre plant of great value. The variegated variety is very ornamental.

PHYSOSTEGIA Virginiana 1 6

Flowering spikes about 6 inches long. Colour, a white ground suffused with pink and heliotrope.

Virginica Alba 1 6

The white variety, with all the good qualities of the above, very good for cutting.

PLATYCODON Grandiflora (Chinese Balloon Flower).

Blue. With Campanula-like flowers; very pretty.. 1 0

POLYANTHUS Varieties 6d. each, per doz. 5 6

During the spring trusses of flowers are produced on short stems; colours various; we have a grand variety.

POLYGONATUM Vulgare, Solomon's Seal (commonly called "Child of the Woods"), resembles Lily of the Valley 1 6

POLYGONUM Compactum. Flowers white 1 0

PRIMULA (English Primrose)—

Double Lilac 1 0

Double Mauve 1 0

Double White 1 0

Double Yellow 1 0

Single Mauve 1 0

Veris. Cowslip 0 6

Virginia. Single 1 0

Vulgaris (Common Primrose) 6d. each, per doz. 5 6

Better adapted for cooler climates.

Obconica.—Exceedingly graceful; pink flowers .. each 1 6

Malacoides. Miniature type of Obconica each 1 0

Sinensis. In various shades of colour, red, white, yellow, rose, etc. 1 6

RUDBECKIA Double (Golden Glow or Cone Flower) 0 9

SALVIA—

Azurea. Blue and white 1 6

Bethelli. Rosy-pink, tipped white 1 6

Canariensis. Purple 1 6

Farinacea. White and violet; pretty 1 6

Glory of Stuttgart. Red 0 6

Hollandi. Dwarf red 0 6

Hoveyi. Purplish-blue 1 0

Patens. Celestial blue 1 6

Rutilans. Bright red 1 0

Splendens Grandiflora. Red 0 6

Weberi. Light purple 1 6

A charming family of free-blooming herbaceous plants; quite hardy.

SEDUM. Sorts each 1 0

Amongst the easiest of plants to grow. Like Saxifragas, they succeed on rockwork or in mixed border.

SHAMROCK. True Irish 1 0

SHASTA DAISY (See Chrysanthemum Leucanthemum).

Chiffon each 1 6

This daisy, which has been described as "the most beautiful Shasta Daisy ever seen," is a very beautiful novelty.

The large flower is of dazzling whiteness, with several rows of long, graceful petals, and a rich golden centre, the colours contrasting beautifully.

The end of the petals are laciniated, giving a delightful frilled appearance, hence its appropriate name "Chiffon." The plant is of dwarf habit,

sending up a large number of long, slender stems, each bearing one exquisite blossom, making it a perfect gem for both garden and indoor decoration.

The plant is hardy and succeeds splendidly in the open garden under ordinary conditions. Plant in the open as soon as received from us.

The plants will flower this season.

SPIREA—

Japonica, or Astilbe Japonica. Producing white plume-like flowers; very attractive 1 6

Astilbe Rosea. Producing pink flowers 1 6

STATIC BRASSICÆFOLIA. Purple everlasting flowers .. 1 6

STOKESIA—

Cyanea (Perennial Cornflower) 1 6

Cyanea Alba (Perennial) 1 6

THRIFT (True). In various shades of colour. In pots .. 0 6

THUNBERGIA Hawtayeana. Violet-purple, yellowish tube; a handsome herbaceous shrub 1 6

Other Thunbergia, see Climbers.

TRITOMA (syn. Kniphofia) called Queen's Lily—

Grandiflora 1 6

TUBEROSE—

Double, strong clumps 0 6

VALLOTA Purpurea (the Scarborough Lily). Orange-scarlet; glorious bulbous plant 1 6

VINCA—

Major (Variegated Periwinkle, or Band Plant) 1 0

Minor Aurea. Miniature 1 0

ZINGIBER Officinale (Ginger of Commerce). Pretty flowers 1 6

Greenhouse, Stove and Bush-house Plants

CALADIUMS

If you are going to furnish a greenhouse come and see our plants and make your own selection. If you cannot call on us, advise us (when ordering) whether you want to use them in the open or not.

A visit to our General Nursery at Botany will convince you of our up-to-date Greenhouse, Stove and Bush-house plants, &c.

		s.	d.
ACALYPHA—			
Browni		1	6
Marginata (Fijian Fire-Plant). Crimson leaves		1	6
Mosaic		1	6
Very handsome variegated plants.			
ACHIMENES per bulb 0 6			
These are splendid and profuse summer-blooming plants for the conservatory. They look well grown as a basket plant; we have red, blue, pink, purple, etc. 6d. each, 5s. 6d. per dozen.			
ÆCHEMEA—			
Fulgens (glowing)		2	6
Flowers rich deep red, with a bluish tip; 50 blooms in a cluster.			
AGLAONEMA—			
Marantaefolium		1	6
Nebulosum		1	6
Leaves bright dark green, irregularly blotched with whitish-green.			
ALPINA—			
Darceyi. A beautiful foliage plant; white and green. Plants from 2s. 6d. each.			
Vittata. Long leaves, dark green and white stripes running off from the midrib		2	0
ALOCASIA—			
Macrorrhiza Variegata. White and green foliage		2	0
Metallica. Bronze foliage		10	6
ANTHURIUM—			
Crystallinum	 from	3	6
Pretty leaves, rich velvety green, principal veins elegantly banded with pure crystal white, when young the leaves are violet colour.			
Chelsoni. Dark red		5	0
Ferrierense. Bright red		7	6
Scherzerianum. Bright red flowers		5	0
Andreanum. Yellowish, with broad band of white		5	0
Regale		3	6
We are making a speciality of this plant, and increasing the varieties.			
ALLAMANDA—			
Hendersonii. Beautiful climbing plant, with large, yellow, bell-shaped flowers		2	6
APHELANDREA Roezlii 2 0			
Dark green, leaves shaded, with a silvery hue between the primary veins, bright scarlet flowers.			

		s.	d.
ARALIA—			
Geranaefolia. Dark green		2	0
Geranaefolia Variegata. Dark green, white margin		2	0
Silicifolia		2	0
Spinosa. White and green		2	0
ASPARGUS—			
Capensis		1	6
Plumosa (Climbing Lace Fern). This variety is quite hardy, and can be planted outside	 from	1	6
Sprengeri (Emerald Feather Fern)	 from	1	6
Tenuissimus	 from	1	6
ASPIDISTRA			
Lurida	 from 2s. 6d. to	20	0
Lurida Variegata	 from 3s. 6d. to	25	0
Aspidistras are hardy, graceful plants, and thoroughly adapted for indoor decoration.			
flowers	 each	1	6
CALADIUMS. Strong, dry bulbs. May, June, July, August; later on as pot plants. From 3s. 6d. to 10s. 6d. each.			
Beautiful tribe of tender green-house foliage plants; leaves magnificent, of a diversity of colour, beautifully spotted and veined with wonderful combinations.			
CISSUS Discolor		2	0
A most beautiful climber, with lustrous magenta-coloured leaves, covered with silvery-white dots.			
CLERODENDRON—			
Balfourii. Fine climber, clusters of white flowers with a red corolla; a pleasing and distinct contrast		2	0
Fallax (Java). Flowers bright scarlet, dark green leaves; an erect-growing plant		2	6
COLEUS. We have varieties of the new large-foliaged kinds; fine, robust; showy verandah plants, 1s. ea. dozen 11 0			
CROTONS. Unexcelled in beauty and richness of colours. They are fine plants for the conservatory; our collection is most extensive			
from		2	6
CURCULIGO Recurvata 2 0			
Very effective decorative plant; handsome palm-like foliage.			
CYANOPHYLLUM Magnificum from 5 0			
A very striking plant; leaves large, deep green on surface; reddish-bronze on reverse side. Veins white or light green.			
CYPERUS—			
Alternifolius (Umbrella Grass)		1	6
Alternifolius Gracilis		1	6
Laxus		1	6
Laxus Argentea. Silvery-white foliage		2	0
These are very useful, and of easy culture; for fountains they are very ornamental.			

GREENHOUSE, STOVE AND BUSH-HOUSE PLANTS—Continued

CYRTODEIRA Fulgida. Flowers vermillion-red, foliage s. d.
emerald green and copper colour; very useful for
hanging baskets 2 0

DALECHAMPIA Roezii. Peculiar pink flower 2 0

DIFFENBACHIA—

Bausei. Leaves yellowish-green, margined and irregu-
larly blotched with dark green and profusely spotted
white 2 0

Bowmanii. Leaves rich green, blotched with irregular
parallel markings of a pretty light pea-green 2 0

Chelsoni. Leaves dark satiny-green, the midrib
marked with a grey band, which runs out into a
feathered edge and extends about one-third across
each half of the blade; freely spotted and blotched
with bright yellowish-green 2 0

Magnifica. Shining sombre green, thickly variegated
with blotches and spots of white 2 0

Nobilis. Leaves deep rich green, profusely blotched and
spotted with white, except at the edges where the
ground colour forms a broad marginal band 2 0

Rex. Leaves closely placed on the stem, of a very deep
green colour, passing to paler green near the edge
of the narrow side, the whole surface covered with
white blotches 2 0

DIOSCOREA illustrata. Climbing plant, producing
large leaves of beautiful colours; distinct plant from
2 0

DIPLADENIA Boliviensis 2 0

A beautiful climber; pure white flowers, with golden-
yellow throat. This plant ranks amongst the most superb
and beautiful of stove plants.

DRACENA—

Godseffiana. A delightful plant, dark green leaves
mottled white.

Shepherdii **Sanderiana**
Amabilis **Belmoreana** **Hendersoni** } From 2s.
Baptisti **Robusta** } each

Gracilis. Dark green, margin striped red; very grace-
ful.

Lindeni and **Massangeana**, from 3s. 6d. upwards.

Victoria. A magnificent variety of graceful habit, pro-
ducing a lovely golden band down the middle of its
pretty green leaves 7 6

DORSTENIA Argentea. Leaves green with a silvery
band 2 0

ERANTHEMUM—

Bicolor 2 0

Albo Marginata. Green leaves, white margin 2 0

Formosa. Large crimson flower 2 0

Ignium. Bronze colour, central yellow band 2 0

Nigrum. Reddish-purple 2 0

Versicolor. Pretty leaves 2 0

These are grown for the foliage.

Tuberculatum. Flowers pure white, branching freely
into slender twigs; tuberculated; very floriferous 1 6

EUCHARIS Amazonica 2 0

The lovely Eucharis Lily of the Amazon.

EUPHORBIA Jacquiniflora 2 6

As a winter bloomer this plant has no equal; colour, in-
tense crimson-scarlet, and blossoms are produced so pro-
fusely as to completely wreath every branch with brilliancy.

FICUS—

Australis Variegata. Variegated Fig 2 6

Elastica. The Rubber Tree of Commerce. Leaves
are thicker than the ordinary *F. Macrophylla*.
and its habit makes it a beautiful plant 2 0

Elastica Variegata. Choice 2 6

Parcelli. Beautiful white variegation. Conspicuously
beautiful plant 2 6

Radicans Variegata 1 6

Ficus Radicans Variegata as a variegated plant for hang-
ing pots and baskets cannot be excelled.

PITTONIA—

Elegant trailing plants, with handsome variegated foli-
age; most useful in the conservatory for planting on surface
of pots or tubs containing specimen plants.

Argyroneura. Vivid green, with network of pure
white veins 1 6

Verschaffeltii (Syn. *Pearcei*). Bronzy-green, pink
variegation 1 6

GLOXINIA. Dry tubers, 1s. 6d. each, 16s. per doz.

In pots, 2s. each, 22s. per doz. Seedlings, 3s. 6d. doz.

Dry tubers can be obtained during April, May, June,
July, and later on, in a growing state in pots. In our
opinion, these rank second to no other plant for noble form
and beauty. Most gorgeous green-house plants, trumpet-
like flowers of every colour, in upright form; leaves very
beautiful; continue to flower for a long period. The shelter
of a frame is all that they require.

GRAPTOPHYLLUM Pictum. Variegated foliage; pink s. d.
and green 2 0

GYNURA Auranitiaca. Flower heads brilliant orange.
beautiful foliage, green and purple; very hairy 2 0

HEMIGRAPHIS Colorata. Leaves grey, bright purple
beneath; creeping 2 0

IXORA—

Acuminator. Flowers pure white, very fragrant 2 6

Prince of Orange. A dwarf variety, with brilliant
orange-scarlet flowers 2 6

Prince of Wales. Brilliant salmon colour; a most
desirable species 2 6

Rosea. Flowers pale pink, becoming reddish as they
grow old 2 6

Stricta. Rosy salmon 2 6

Westii. Very deep blush 2 6

The *Ixoras* are beautiful flowering plants, and make a
lovely contrast among green-house plants.

LÆDENBERGIA Rosea. Pretty stove plant with red
leaves 2 6

MARANTA. In variety, including best sorts 1 6
A very varied and useful class of plant, with fine, bold
foliage, and of many shades of colour.

MEDEOLA Argylea. A new variety of *Medeola*, with
very large foliage, which is a delightful pale green,
conspicuously dotted with silver 3 6

MEDINILLA Magnifica 3 6

Handsome foliage plant, large flower clusters of a lovely
pink.

MONSTERA Deliciosa. Has large, shining dark green,
perforated leaves, and large boat-shaped flowers; it
also produces a most delicious fruit 2 6

NIDULARIUM Striata. Leaves green with white and
creamy yellow stripes, red centre 3 6

PANAX Victorise 2 0

Finely variegated foliage, border prettily margined white,
forming a dense plummy, gracefully recurving mass of foliage.

PANDANUS—

Sanderiana. Golden variety 3 6

Veitchii. Variegated foliage 2 6

Charming table decorative plants, with exquisite foliage.

PANICUM Variegatum 1 0

A beautiful little plant for baskets; very ornamental.

PELLIONIA—

Pulchra 1 6

Daveauana 1 6

PENTAS Carneae (South Africa). A sweetly pretty
shrub, with very pale pink *Bouvardia*-like flowers 1 6

PEPERONIA Argylea 1 6

Foliage resembling a *Begonia*.

PHYLLANTHUS—

Nivosus. Green leaves, mottled white and sometimes
pink 2 0

Atropurpureus 2 0

PILEA Mucosa (Artillery Plant) 1 6

Highly interesting plant on account of its flowers exploding.

PITCAIRNIA Undulata. Brightly flowering and grace-
ful foliage 1 6

PLUMBAGO—

Rosea. Pretty rose-coloured flowers like the ordinary
Plumbago in shape 1 6

Coccinea. Red; better than *Rosea* 2 0

RUCELLIA—

Rosea. Brown, green, and silvery foliage; pink
flowers; very attractive and uncommon; useful for
basket culture 1 6

Macrantha. Rosy-purple flowers 1 6

Spectabilis. Purplish-blue, marked with dark veins;
very showy 1 6

Formosa. A pretty scarlet flower 1 6

SAINTPAULIA Ionantha 1 6

From the centre and sides spring up quite a bouquet
of flowers, violet-like both in colour and shape. Suitable for
bush and green-house.

SANCHESIA Nobilis. Foliage green, striped yellow 2 6

SCHISMATOGLOTTIS Picta. Foliage deep green, with
greyish white markings 2 6

SONERILA Bockstaelle. A pretty little stove plant,
brownish leaves, studded the whole surface with
white spots 2 6

SYNGONIUM Podophylla Alba Lineata. Very use-
ful pretty plant 1 6

STREPTOCARPUS. Hybrids in all shades 1 6

STROBILANTHES Dyeranus. A magnificent foliage
plant; metallic purple, green margin 2 0

TABERNÆMONTANA Coomassa, fl. pl. 2 6

A charming green-house plant, bearing a profusion of
beautiful snow-white flowers, sweetly scented.

TYDÆAS (Syn. with *Isoloma*). In variety 1 6
Pretty foliage and flowering plants, very floriferous. We
have a magnificent collection.

VRIESIA Tricolour (Tillandsia). Flowers pink and
yellow 2 6

Searl's Beautiful Ferns

Ferns require little attention, and if watered carefully will last a long time. Used for house decoration they should be put outside at night in a sheltered place, and occasionally syringed. Some varieties succeed well in shady nooks and corners where scarcely any other plants would exist.

From NATURE'S SIMPLEST to the MAGNIFICENT NEPHROLEPIS we always hold a most comprehensive stock, and would like you to come and see them. Searl's Ferns are grown in pots for some time and thoroughly established, not merely potted and sold right off, a practice which often tends to failure and disappointment.

ADIANTUM (varieties Maiden Hair Fern)—		s. d.

Graceful Fern for show purposes.	
Dixiana	1 6

Always leave the Selection of Plants to us. Just let us know the class of Plants required. We make up in assorted cases from 21s. to any quantity to suit customers.

We supply BABY FERNS of many varieties—nice young seedlings. 3s. 6d. assorted.

NEPHROLEPIS—		
Amerpohli (The Philadelphia Lace Fern). The fronds are very finely cut, making it extremely graceful,	from 1 6	
Anna Foster.—A bipinnate variety of the Boston Fern; a new and handsome variety	from 1 6	
Bostoniensis	1 0	
Elegantissima.—The side pinnae standing at right angles to the midrib of the fronds, on edge rather than flat	from 1 6	
Elegantissima (True).—This we have proved a much superior fern to the ordinary Elegantissima ..	from 1 6	
Elegantissima Compacta.—The compactness of this variety renders it a great improvement on Elegantissima	1 6	
Elegantissima Cristata.—A crested form of Elegantissima (true)	1 6	
Exaltata Cristata Pendula.—The fronds are longer and more drooping in habit, making it far superior for basket culture	from 1 6	
Exaltata Superba.—A very distinct variety, with forked fronds, which are gracefully curved like an ostrich feather, on which are suspended thread-like tassels.	from 1 6	
Lycopodioides.—Embracing all the good qualities of Marshalli, differing mainly through the fact that the fronds are most symmetrical in whatever position they are viewed from	1 6	
Magnifica.—Very graceful variety which resembles Amerpohli in character	1 6	
Marshalli.—Finer than the well-known N. Amerpohli	1 6	
Marshalli Compacta.—A more compact form than Marshalli, habit being much more erect	from 1 6	
Mayii.—A great improvement on N. Anna Foster ..	from 1 6	
Mayii Ornata.—More dense in its growth, like the variety N. Superbissima; quite distinct	from 1 6	
Neubertii.—Fronds are very shapely cut in the way of Marshalli, but the habit is more erect, shapely, and self-supporting	from 1 6	
Pearsoni	from 1 6	
Pearsoni Compacta.—A dwarf Pearsoni, being held in high esteem by the European gardeners ..	from 1 6	

When you are in doubt our experience is always at your immediate service

NEPHROLEPIS FERNS—Continued.

Bochfordii. —The fronds are remarkably plumose and lacy, and with age the fronds develop fresh pinnæ from	1 6
Roosevelti. —Erect habit	from 1 6
Scholtzei. —After the type of <i>Elegantissima</i> , only not so broad, and more upright in the fronds	1 6
Superbissima. —The foliage is a rich dark green. It makes a dwarf and compact growth, and the fronds are very heavily imbricated, the pinnæ overlapping, making the fronds dense and compact	from 1 6
Todeaoides (The London Fern).—Its dwarf habit is a great advantage	1 6
Todeaoides Superba. —This variety closely resembles <i>N. Todeaoides</i> , only it is far superior in its compact growth	1 6
Whitmani. —The fronds are erect, and very finely cut. This variety is less liable to revert to the original shape	from 1 6
All the varieties of <i>Nephrolepis</i> are thoroughly adapted for bush-house culture, where they thrive luxuriantly, making handsome pot or basket specimens for indoor decoration.	
ONYCHIUM Japonicum. —Light and elegant fern	1 6
OSMUNDA —	
<i>Falcata</i> (the Flowering Fern)	2 0
<i>Regalis</i> (the King Fern)	1 6
PELEBODIUM —	
<i>Aureum.</i> —Grand bold fronds, bluish tint, Hare's foot rhizome	1 6
<i>Glaucum</i>	from 1 6
PLATYCERIUM —	
<i>Alcicorne</i> (Elkhorn Fern)	from 2s. 6d. to 7 6
<i>Grande</i> (Staghorn Fern)	from 2s. to 7 6
Mounted and growing on boards ready for despatch.	
POLYPODIUM —	
<i>Glaucum Crispum</i>	7 6
<i>Knightii</i>	1 6
<i>Iridodes var. Lobatum.</i> —Very choice	2 6

PTERIS—

<i>Argyrea</i> (commonly called Silver Fern)	from 1 6
A handsome variety of the <i>Pteris</i> .	
<i>Alexandra</i>	1 6
<i>Comans</i>	1 6
<i>Cretica Alba Lineata</i>	1 6
<i>Cretica Major</i>	1 6
<i>Flabellata</i>	1 6
<i>Hastata.</i> —This variety is exceptionally good for Rockery work and similar places, it has distinct and showy foliage, also makes a good pot plant	2 6
<i>Hendersoni.</i> —Choice	1 6
<i>Parkeri.</i> —Producing strong, bold fronds of a dark green colour	from 1 6
<i>Serrulata</i> (Ribbon Fern)	1 6
<i>Serrulata Cristata</i>	1 6
<i>Serrulata Tenuifolia</i>	1 6
<i>Tremula</i>	1 6
<i>Umbrosa</i>	1 6
<i>Wimsetti</i>	1 6
This is one of the most varied, useful, and hardy genera of Ferns.	

Tree Fern Trunks from 2/6 & 5/- up to 20/- each

Always a large stock, which we pack for orders to all parts of the world with great success.

SELAGINELLA—

<i>Alamanda</i>	1 6
<i>Cassia Arborea</i>	1 6
<i>Emeliana</i>	1 6
<i>Formosum</i>	1 6
<i>Metallica</i>	1 6
<i>Nidus</i>	1 6
<i>Stoloniferum</i>	1 6
<i>Umbrosum</i>	1 6
<i>Wildenovi</i>	1 6
The creeping varieties may be planted several together, and give a charming effect, at base of other pot plants, benches, etc.	
TODEA Barbara. —A most beautiful tree fern	from 2 6

BAZAAR AND BUSH-HOUSE PLANTS

SPECIAL COLLECTIONS AT CHEAP RATES

We make a speciality of Pot Plants suitable for Bazaar purposes, including Palms, Hardy Ferns, Asparagus Fern, Maiden Hair Fern, etc., also when in bloom, Zonal Geraniums, Fuchsias, Hydrangeas, Gloxinias, Cyclamen, and other Flowering Plants.

These plants command a ready sale at Bazaars and similar functions, and are one of the most profitable and attractive lines for such purposes. They are especially adapted for bush-house cultivation, and make an acceptable present for your friends.

Country customers should give us at least ONE WEEK'S notice to enable plants to be packed and despatched, and if they are sent by goods train, a considerable saving is effected in the cost of freightage.

Plants are securely packed, and can be forwarded to any railway station in New South Wales for a cost of a few shillings extra, reaching their destination in first-class condition.

BAZAAR PLANTS, assorted

BUSH-HOUSE PLANTS, assorted

16s. per dozen (Packing extra).

Special Case, as pictured 25s. (including packing)
Quotations given for larger quantities.

SEARL'S SPECIAL 25/- (Packing included) COLLECTION OF BAZAAR PLANTS

Searl's Decorative Palms

It is universally granted that Palms and Cycads form the noblest and most prominent ornament in gardens. The beauty of Palms constantly increases with age. Their multiform uses are beyond enumeration, but as ornamental plants their adaptability to different purposes is unsurpassed—from the decoration of windows, halls and jardinières, to the building of stately avenues and picturesque groves. Many Palms will thrive in full sun, some prefer partial shade. Rich soil and plenty of water when growing are desirable; but there are not a few like the Phoenix, the Brahea, the Chamærops, and others, that will thrive in rocky and dry places. The Kentia, in three varieties, we stock in all sizes.

PALMS for Outdoor Cultivation.—The varieties most suitable are marked * We will be pleased at any time to give full particulars and advice re planting.

ARECA—

	s.	d.
<i>Baueri</i>	from	2 0
<i>Sapida</i>	from	2 0
<i>Lutescens</i> . Very fine, and the most graceful of the species	from	3 6

BRAHEA (Syn. Washingtonia) (Railway Palm)—

* <i>Filamentosa</i>	from	2 0
* <i>Robusta</i> . Strong grower	from	2 0
* <i>Sonora</i> . Splendid variety	from	2 6
One of the best Palms for embellishing the garden grounds, Most suitable for planting as a single specimen in lawns and elsewhere; the quickest-growing palm.		

CARLUDOVICIA Palmata. Leaves rich dark green, from 2 feet to 3 feet across; a beautiful fan palm and quick grower

*CARYOTA Urens (Maiden Hair Palm). Very choice palm, foliage resembles that of the Giant Maiden-hair

CHAMÆROPS (Fan Palms)—

* <i>Excelsa</i>	from	2 0
* <i>Fortunei</i>	from	2 0
* <i>Humilis Macrocarpa</i>	from	2 6
The Chamærops are very hardy palms, especially suited for the cooler parts of this State.		

COCOS—

<i>Australis</i> (Southern). 20 to 30 feet, very graceful	from	2 6
* <i>Plumosa</i> (Feathery). 20 to 30 feet, Southern Brazil, very graceful, tall-growing palm	from	2 6
<i>Weddelliana</i>	from	3 6
The Weddelliana is unquestionably the most elegant and graceful palm in existence.		
* <i>Yattai</i> (Wine Palm) (syn. <i>Diplothemium Maritimum</i>). Fine palm	from	2 6

*CORYPHA Australis (the New South Wales Cabbage Tree Palm). When planted out make fine specimens

CYCAS—

**Revoluta* (the well-known Japanese Sago Palm); hardy, and makes a handsome lawn specimen

**DIPLOTHEMIUM Maritimum* (Wine Palm) (syn. *Cocos Yattai*)

One of the finest palms for outdoor culture; makes a noble-looking lawn specimen; very hardy and will also thrive close to the sea.

KENTIA (Syn. *Howea*)—

* <i>Belmoreana</i> (Curly Palm)	from	1 6
* <i>Canterburyana</i> (the largest Mountain Palm) ..	from	2 0
* <i>Fosteriana</i> (the Thatch Palm)	from	1 6

The Kentias are the hardest, most beautiful, and most useful of all Palms. We supply a beautiful plant to value of 2s. For decorative purposes they cannot be excelled. Specimen plants of the above can be supplied up to 10 feet high, in pots.

LATANIA—

* <i>Borbonica</i> (Syn. <i>Livistonia Sinensis</i>)	from	2 6
Has large fan-shaped leaves of a cheerful green colour. Does well outside in sheltered position.		

LIVISTONIA Altissima. A good variety

LICUALA Grandis (Syn. *Pritchardia Grandis*) ..

MACROZAMIA (Fern Palm)—

<i>Denisonii</i>	from	2 6
<i>Spiralis</i>	from	2 6

PHENIX—

* <i>Canariensis</i>	from	2 6
* <i>Dactylifera</i> (Date Palm)	from	2 6
* <i>Reclinata</i>	from	2 6
* <i>Roebelenii</i> . Unquestionably the finest of the Phoenix family, combining the gracefulness of the <i>Cocos Weddelliana</i> with the hardness of the <i>Kentia</i> . It is a beautiful palm for indoor use and exhibition purposes, and will thrive as a specimen on the lawn if given a well-sheltered position. Small plants showing character, from 5s. Advanced specimens, beautifully furnished, 20s. to £3 each.		
* <i>Rupicola</i>	from	2 6
* <i>Sylvestris</i>	from	2 6
* <i>Tenuis</i>	from	2 6

All splendidly adapted for ornamenting and giving a tropical appearance to the garden, thrive well outside. Most of the Phoenix varieties we stock in large tubs at advanced prices; perfect specimens.

RHAPIS (The Japanese Bamboo Palm)—

<i>Flabelliformis</i>	from	5 0
<i>Humilis</i>	from	5 0
Very handsome and graceful palms.		

SABAL—

* <i>Adamsoni</i> (Fan Palm)	from	2 0
<i>Blackburniana</i> (the Giant Fern Palm), Bermuda ..	from	2 0
* <i>Palmetto</i> , Florida	from	2 0
* <i>Umbraculifera</i> , West Indies	from	2 0
All Sabals belong to the fan-leaved section of palms; very ornamental and hardy.		

**SEAFORTHIA Elegans*

SAGUS Vitiensis (The Sago Palm)

**WASHINGTONIA* (See *Brahea*).

SEARL'S ORCHIDS

SEARL'S

FRUIT TREES

Our list comprises the best of varieties in commerce, but there are many other sorts available which can be supplied although not listed here. All our Trees are well grown, true to name, and will give undoubted satisfaction. Special attention is given to the packing of each individual order.

Abbreviations.—Size: 1 signifies Large; 2, Medium; 3, Small. Use: K, Kitchen; D, Dessert. Season: E, Early; M, Medium; L, Late. F signifies Freestone. C signifies Clingstone.

The varieties of Fruit Trees marked * throughout these pages are specially recommended by the Fruit Expert, N.S.W. Dept. of Agriculture.

Apples

(Worked on Blight-proof Stocks).

1s. 6d. each; 15s. per doz.; £5 per 100.

Packing 1s. doz. extra for long distances.

Adam's Pearmain (2.D.L.).—Yellow flesh; grand dessert fruit.

***Allsopp's Early** (2.K.D.E.).—One of the best Apples grown; a great favourite.

***Apple of Commerce** (1.D.L.).—A magnificent American Apple, large, round fruit; splendid flavour.

Ben Davis (2.D.M.).—Medium to large; suitable for market.

Bismarck (1.E.K.).—Large; cooking.

Black Ben Davis (1.D.L.).—Seedling of Ben Davis, but a decided improvement, in that it is of a more solid red colour, a certain cropper.

Boston Russet (2.D.L.).—Juicy; highly recommended for export.

Carlton.—Raised from Northern Spy. Tree blight-proof, a strong thrifty grower and most prolific bearer, fruit very large, yellow striped and suffused with carmine, flesh crisp, juicy, and of delicious flavour.

Carrington (2.D.E.).—Medium roundish; flesh white.

***Cleopatra** (2.D.L.).—Medium Apple, occasionally blighty.

***Cox's Orange Pippin** (2.D.M.).—Medium, rich flavour; suitable for export.

Democrat (Tasma).—New seedling originating in Tasmania. Tree robust, regular and heavy bearer. Fruit brilliant red, firm; good aroma; keeps well in cool storage.

Duchess of Oldenburgh (2.K.D.M.).—Medium size, roundish oblate, flesh whitish, very juicy; splendid cooking and fair dessert.

Duke of Wellington.—Clear Five Crown colour on shaded side, and beautifully washed with dark red stripes on sunny side. Firm flesh, and should make good export variety. Will sell on account of appearance alone. Highly recommended.

Edward VII.—A cross from Blenheim Orange and Golden Noble. Skin yellow, marbled brown, dark red on the sunny side, flavour of Blenheim Orange. One of the best late Apples; prolific.

England's Glory (Gascolgne Scarlet).—A very handsome red-checked Apple from Kent, free grower and a great bearer; a first-class dessert apple.

***Five Crown Pippin (London Pippin)** (2.K.D.E.).—Large, roundish, with five distinct ridges round the eye; a grand all-round Apple.

Golden Russet (2.D.L.).—Medium size, roundish, oblate; dessert; recommended for export.

***Granny Smith** (2.K.L.).—A very heavy bearer; recommended for export.

Gravenstein (1.K.D.M.).—Known also as Carpenter, Scotch Red Streak, and Gloria Mundi; large, roundish; cooking.

Irish Peach (2.K.D.E.).—Medium size, oblong in shape; skin clear, tender, handsomely striped with bright red; flesh yellowish-white, tender, good cropper.

John Sharp (2.D.M.).—An improved Pomme de Nègre.

***Jonathan** (2.D.L.).—Medium size, roundish, tender and juicy; a profitable dessert fruit.

***King David**.—Dark red, yellowish flesh. Supposed to be a cross between Jonathan and Arkansas Black, and adds the fine quality of the former to the fine appearance of the latter. Awarded the premium by Illinois Horticultural Society; hardy.

***Lord Nelson** (1.K.D.M.).—A large and good cooking apple.

McIntosh's Red (2.D.M.).—Fine colour, rich flavour.

Mountain Pippin.—Vigorous and upright grower, remarkably immune from disease. Fruit large, good packing shape; skin crimson, streaked with carmine almost entirely over buttercup ground. Ripe last week in February.

***Mobb's Royal** (1.K.M.).—Very large, juicy, sub-acid; cooking.

***Munro's Favourite** (1.K.L.).—Skin clear yellow, with a reddish-brown cheek and a little russet; cooking.

Reinette du Canada.—Large; oblate flattened; rather irregular; juicy.

Ribston Pippin (2.D.L.).—Dessert; good export Apple; medium size.

***Rome Beauty** (1.K.D.L.).—Large roundish, inclining to conical; skin greenish-yellow, mottled and shaded with light red and with streaks of darker red.

***Scarlet Nonpareil** (2.D.L.).—Medium, flesh yellowish-white, very firm, juicy, rich and spicy.

***Sturmer Pippin** (2.D.L.).—Medium, flesh firm, crisp and very rich.

***Trivett's Seedling** (3.D.E.).—A good market variety, blight proof.

Twenty Ounce (1.K.M.).—Large, cooking; flesh rather coarse, sub-acid.

Winter Pearmain (2.K.D.L.).—Medium, roundish, inclined to conical, flesh whitish, firm and crisp.

Any varieties not listed here, please ask us about them.

Custard Apple

(Cherimoyer). Price, 2s. each.

This delicious fruit is well worth a trial in the warm inland districts, as, when established, it is much more hardy than is generally supposed. Rough fruited.

Apricots

1s. 6d. each; 15s. per doz.

Packing charges for long distances, 1s. per dozen.

***Alsace**.—Large, roundish, very rich.

***Blenheim (Shiply's)**.—One of the best late Apricots, large. **Bobby Allen**.—A splendid second early Apricot; really the first large Apricot to reach market.

Camden Park Superb.—Very large, oval; flesh pale, very meaty, fairly juicy, good flavour.

Campbellfield's Seedling.—Fruit very large, very rich and juicy.

Early Moorpark.—Very large, deep rich orange in skin, and flesh very rich.

Elruge.—This we consider, for flavour, size and productiveness the best in our collection.

***Hemskirke**.—One of our best Apricots, suitable both for canning and market; fruit large.

***Mansfield Seedling**.—Very large, rich, sugary and vinous.

***Moorpark (Temple's)**.—Fruit large, round, with an abundance of rich juice; skin deep reddish orange.

ALL FRUIT TREES, EXCEPT WHERE OTHERWISE MARKED, SHOULD BE PLANTED FROM MAY TO AUGUST.

SEARL & SONS

FRUIT TREES

SYDNEY

APRICOTS—Continued.

- Newcastle Early.**—A large fruit; heavy cropper.
Oullin's Early.—Large; flesh deep orange, very rich.
Red Masculine.—The earliest Apricot; fruit small, round.
Rivers Large Red.—A prolific bearer, needs thinning, fruit fairly large; flesh orange; very rich and vinous.
***Royal.**—A well-known variety; a heavy and constant cropper; ripe third week in December.
Warwick.—Large oval; a splendid mid-season fruit; its size and appearance will always sell it.

Bananas

This is a tropical fruit, but Bananas will bear well in many parts of the State, especially in the interior. A sheltered position must be chosen.

- Cavendishii.**—The well-known dwarf Banana, producing immense bunches of large fruit, with a delicious flavour. Price, 2s. 6d. each.
Giant Sugar.—Fruit small, but produced in immense bunches; flavour particularly rich and delicious. Price, 2s. 6d. each.
Plantain.—The hardest of the tribe, ripening its fruit even in this locality. Price, 1s. 6d. each.

Cherries

Worked on Seedling Mazzard Stock, avoiding the suckering so troublesome where the common suckers are used. Warm, dry, deep soil is necessary, with special regard to drainage. If these conditions are observed, the Cherry is the most profitable fruit crop.

1s. 6d. each; 15s. per doz.

Packing charges for long distances, 1s. per dozen.

- Belle de Orleans (E.).**—Above medium size; flesh tender, very juicy and sweet.
Bigarreau Black (L.).—Very large, heart-shaped; skin smooth and even, jet black when ripe.
***Bigarreau Napoleon (L.).**—Large size, regularly heart-shaped, more pointed than Bigarreau; skin amber in the shade, dotted with red, with a fine crimson cheek.
***Bigarreau Twyford (E.).**—Large, obtuse, heart-shaped, skin a bright shining red, very smooth and glossy.
Bing.—Fruit very large, dark brown or black, very fine; tree very vigorous and hardy; foliage heavy and dark green; flesh firm, and a splendid carrier; sure to have a great future with our cherry planters.
California Advance (E.).—A heavy cropper; a dark purple.
Centennial (E.).—A seedling from Napoleon Bigarreau.
***Early Lyons (E.).**—Very large and solid, ripening early.
Early Purple Gean (E.).—Medium to large, with rich flavour
***Florence (L.).**—Large, heart-shaped; flesh amber, very firm, with a rich, sweet flavour.
May Duke.—Fruit medium to large size; skin rich, dark red when fully ripe.
***St. Margaret (L.).**—Very large, roundish, heart-shaped; skin shining black; flesh purple, very juicy.
Terry.—A large fruit, brilliant red, growing darker as it ripens. Tree upright and strong grower and bearer of heavy crops; early excellent.
Warder's Early Black (E.).—Large, roundish, heart-shaped; skin black; most profitable for market culture.

Figs

1s. 6d. each; 15s. per doz.

Packing charges for long distances, 1s. per dozen.

In good soils the Fig is inclined to grow too rankly and to drop its fruit before maturity. To check this, root-prune during early winter, cutting the roots with a sharp spade about as far from the stem as half the height of the tree.

- Adam.**—Large, long; skin pale brown; an enormous early Fig.
Black Genoa.—Very large; skin dark purple, almost black when ripe; flesh deep red.
Blue Provence.—Small roundish; rich and juicy; heavy bearer.
Brown Ischia.—Large, roundish, ovate; skin chestnut-coloured.
Brown Turkey.—The best of Figs, fruit large, oblong or pyriform; skin dark brown, with thick blue bloom.
Brunswick.—Large; skin fine violet, brown in the sun, dotted with pale brown specks.
Castle Kennedy.—Large, short and thick; very rich and sugary; early.
Green Ischia.—Large roundish; skin covered with a pale brown tinge in the sun; flesh purple, rich and good.
Marselles (White Genoa).—Fruit above medium size, quite round; skin pale yellowish green; flesh white; a splendid Fig for drying.

Guavas

A most excellent fruit, either for dessert or preserving. The purple variety is thoroughly hardy, and will stand pretty severe winters.

Price, 1s. 6d. each, 16s. per dozen.

Parker's Hybrid.—An enormous fruit, twice the size of the ordinary yellow Guava.

Purple.—Fruit small, borne in immense crops.

Yellow.—Fruit as large as a hen egg; semi-transparent.

Grape Vines

A well-drained subsoil is essential to the successful growth of Grape Vines. We offer a very choice selection of the very best sorts.

9d. each; 7/6 per doz.

- Baxter's Sherry (or Camden Sherry).**—A deep golden colour, heavy reddish bloom.
Black Hambro.—Bunches large; berries large; roundish black.
Black Lady's Finger.—Shining black, very hardy.
Black Monukka.—One of the few seedless Grapes; bunch and berry large; skin black, late. 1s. each.
Black Prince.—Large berries, skin black; very sweet.
Buckland's Sweet Water.—Very early, pale amber, heavy cropper.
Champion Muscat.—Of recent introduction; berry very large, round, with a muscat flavour; medium. 1s.
Centennial.—The grandest white Grape we have; berries enormous; unsurpassed for size and fine appearance. 1s.
Early White Sherry.—A profitable early market variety.
Gros Colman.—Large; skin tough; purple black; fine late Grape.
Gordo Blanco (White Muscat).—An improvement on Muscat of Alexandria in that it sets the fruit much better.
Golden Champion.—Large berries; deep golden.
Isabella.—Berries large and black, distinct passion fruit flavour.
Lady's Finger.—Bunches and berries large, peculiarly pointed; deep yellow; very late.
Mrs. Pearson's Golden Queen.—A handsome Grape; firm, juicy and rich. 1s.
Mrs. Prince's Black Muscat.—A really splendid black Muscat; berries largest size, deep shining black; skin thin, very tough; very rich in Muscat flavour.
Muscat Hambro (Snow's).—Berries very large, rather oval, sometimes almost round; skin deep purple; flesh very juicy, with a rich and distinct Muscat flavour.
Mudgee Black Sherry.—Late black; a fine Grape.
Muscat of Alexandria.—Known also as White Muscat.
Sultana.—Valuable for raisin-making.
Sweet Water.—Very large, amber colour.
Syrian.—A superb Grape; bunches produced up to 15 lbs. weight; white at first, but changing to tawny.
Waltham Cross.—Bunches and berries very large, round; pale amber, very rich; makes a good raisin; late.
Zante Currant.—The dried currants sold in shops are made from this grape, and as the process of manufacture is simplicity itself, it is a most profitable crop to grow. The vine requires to be long pruned; quite seedless.

GRAPE VINES CANNOT BE SENT INTO QUEENSLAND FROM N.S.W. UNDER ANY CONDITIONS, and are also prohibited from the COUNTY OF CUMBERLAND to the following Land Board Districts in New South Wales: Maitland, Orange, Forbes, and the Counties of Monteagle and Bland; also Yanco, Wentworth and Hay Irrigation Areas.

Loquats

Californian Advance.—A variety claimed in California to supersede anything yet raised in Loquats. Fruit large, deep golden-yellow, nearly all pulp, flavour distinct and delicious. 2s. 6d.

Common.—Grown from selected seed, and with fair treatment producing enormous crops of large and very juicy fruit. A profitable shelter tree. 1s. 6d.

Herd's Large.—This variety is of enormous size, and when thinned and annually manured, is the size of a hen's egg. Budded plants. 2s.

Mammoth.—An extremely large variety, with very thick flesh and a single small seed. Flavour very rich and good; very juicy. Grafted plants. 2s.

Medlars

Thrives well in N.S.W., requires very trifling attention, and is not particular to soil. The fruit must be gathered as soon as ripe, and stored inside till it becomes quite soft, when it is most delicious. Price, 1s. 6d. each.

Monstrous.—The largest.

Royal.—Large and of good flavour.

**SEARL & SONS****FRUIT TREES****SYDNEY**

CITRUS FRUITS

Oranges, Mandarins, Lemons, etc.

These Fruits are very largely grown in N.S.W. and other States. Except in the very coldest districts good crops of fruit are procurable, provided the ground is well-drained and naturally fertile. The trees can be kept free from disease by spraying with Lime Sulphur Solution. Plant Autumn and Early Spring.

CITRONS

2s. each; 22s. per doz.

Bengal.—Fruit large, round; a grand preserving variety.
Knight's.—Fruit large, oblong; skin rough; best for candied peel.

LEMONS

2s. each; 22s. per doz.

Common.—A very hardy Lemon, bearing when finer varieties do not.
Eureka.—Fine fruit, like Lisbon; trees almost thornless.
***Genoa.**—Fruit medium size, oval, with very thin rind, and a strong and pleasant acid flavour.
***Lisbon.**—Too well known to need description.
Lisbon Variegata.—Similar to Lisbon, but foliage variegated; a little coarser than Lisbon.
***Lisbon Thornless.**—Fruit larger than Lisbon, a little coarser; tree spreading; a vigorous grower.
Messina.—This is the Lemon so largely in evidence in Sydney fruit markets; contains an extra amount of highly acid juice.
Sicily.—A Lemon of splendid quality, almost destitute of rag, with an abundance of richly acid juice; of medium size; thin, smooth, very tough skin.
***Sweet Rind.**—The best of all Lemons, medium size.
***Villa Franca.**—A summer-bearing Lemon; pulp very rich in acid; in Florida considered best for market.

MANDARINS

2s. 6d. each; 27s. 6d. per doz.

Beauty of Glen Retreat.—A Queensland variety, large size, good flavour; an enormous cropper.
Canton.—Fruit medium size, quite flat; skin pale yellow; a rich high flavour; very prolific.
Ellendale Beauty.—Pale colour, very fine skin, flavour not equal to Jacob's, but on account of its huge size and favourite colour, will always sell in Sydney markets.
***Emperor.**—The largest Mandarin; skin almost red and loosely attached; flesh very juicy; profitable for market.
Fewtrell's Early Shipping.—Skin and flavour like orange, but peels and quarters like a Mandarin. Very robust and heavy cropper.
Jacob's Improved Thorney.—Very fine skin, juicy, and highly coloured; splendid free grower and good cropper; flavour between Thorney and Scarlet.
Oonshin.—From Japan. It has the reputation of being frost-proof; fruit large; skin very thin, separating from the pulp, which is very juicy, with a brisk high flavour; has no seeds.
Parker's Special.—Larger than Glen Retreat, and weeks earlier; fruit roundish, flattened, very solid; skin bright scarlet.
***Thorney.**—The best flavoured of the Mandarins; fruit medium sized, quite flat; flesh very juicy.

PRESERVING VARIETIES.

2s. 6d. each; 27s. 6d. per doz.

Cumquat.—Fruit small, round; skin deep yellow; only useful for preserving.
***Poorman.**—A useful variety for preserving or for marmalade; fruit large, a free bearer.
Seville (Common).—Fruit large size, roundish, rather flattened, very solid; the best variety for marmalade.
Seville (Flat).—Similar to preceding, except in shape. Considered more valuable for marmalade by the factories.
Seville Navel.—1s. 6d.

LIMES

2s. 6d. each; 27s. 6d. per doz.

East Indian.—Large, very juicy, heavy cropper.
Persian or Sweet.—Sweet and pleasant flavour.
West Indian.—Small; best for lime-juice.
Tahitian.—Large, very juicy, few seeds, skin thin.

ORANGES

2s. each; 22s. per doz.; except where otherwise priced.

Blood (Maltese).—Fruit medium size; skin deep red.
Buckeye Navel.—Improved Washington Navel from California. A true navel orange, ripening early, distinct, delicious. 2s. 6d.
Golden Nugget Navel.—From California; there considered superior to Washington Navel. Fruit smooth, solid, thin-skinned; colour strong gold; even cropper. 2s. 6d.
Jaffa.—From California, and considered to be "unsurpassed by any other variety"; tree a strong and vigorous grower; very productive.
***Joppa.**—Large fruit, oblong, thin skin, pulp sweet and juicy; thornless, early bearer.
Mediterranean Sweet.—Early, prolific, and continuous bearer; absolutely thornless; fruit a medium size.
Parramatta.—Large, round; skin pale yellow; very juicy; best for market.
Siletta.—Large, roundish; skin pale yellow; very smooth and thin; an enormous bearer.
St. Michael.—Large; skin deep yellow; smooth and thin; most profitable for market.
The Navelencia.—As its name implies, it is a cross between the popular Valencia and Washington Navel. Retains the good qualities of Washington, together with hardiness and lateness of Valencia; reported to ripen 30 to 60 days later than Washington; a valuable variety to citrus growers. 2s. 6d.
Thompson's Improved Navel.—Reputed to be a distinct improvement on Washington Navel; earlier, and good even, consistent cropper. 2s. 6d.
***Valencia, Late.**—Fruit large, oblong, very firm and solid.
***Washington Navel.**—Large, very even, of perfect shape and colour; vigorous grower; requires more room than most varieties. 2s. 6d.
***White Siletta.**—One of the earliest to ripen; skin very fine and thin; pulp rich and juicy.

SHADDOCKS

2s. each; 22s. per doz.

Blood.—Fruit enormous size, very solid flesh, with a sweet juice.
Common.—Fruit of large size.

POMELO (Grape Fruit)

Marsh's Seedless.—Very popular in America, on account of correcting stomach troubles. Fruit of medium size, thin, round, with about half the usual bitter; practically seedless; juicy, little rag, superior flavour; keeps and packs well. 2s. 6d.
Natsu-Mikan.—The true Grape-fruit of Japan. About the same size as an ordinary orange; fruit rather flat; skin pale yellow; grown in bunches; very prolific; pleasant sub-acid flavour. 2s. 6d.
Triumph.—Medium size, peel smooth, clear and thin; little rag and few seeds; very heavy; juicy, well flavoured; no bitter in the juice and little in the rag. 2s. 6d.

We will advise enquirers the best varieties of fruit to grow
and give names of the best sorts

SEARL & SONS

FRUIT TREES

SYDNEY

Peaches

1s. 6d. each; 15s. per doz.
Packing charges for long distances, 1s. per dozen.

EARLY VARIETIES.

WATTS' EARLY CHAMPION

A local production of great merit, raised by Mr. C. Watts, of Dundas. It is a red freestone, ripening in favourable seasons before end of October. It is the first peach of the season in the Sydney market, and commands top prices. The tree is a strong grower and very prolific. 2/- each

- *Admiral Dewey.**—Comes in with Briggs' Red May; handsome, deep rich yellow, covered with purplish-crimson.
- Bell's November.**—It is the first Peach of the season—in some time before Queensland Flat China, and nearly three weeks before Briggs'.
- Briggs' Red May.**—The standard of extra early Peaches; fruit not largest, juicy, and rich; free-stone.
- Duffy's Xmas Box.**—Raised in New South Wales. A most valuable variety for Christmas trade. Very large, handsome, showy, and good flavour. Freestone. Can be recommended.
- Early Rivers.**—A handsome Peach; fruit large; skin waxy white, with clear carmine cheek; flesh whitish, very juicy.
- Early Newington.**—Fruit large, round; flesh firm, juicy; a cling-stone.
- Edward VII.**—A remarkably early kind.
- Flat China.**—This Peach is almost superseded by the American varieties in all but the districts near the coast, which are free from late frosts; fruit flat; flesh very juicy.
- Hales' Early.**—Fruit medium size, roundish; flesh tender, very juicy, free-stone.
- Higgs' Early Canada.**—Very large, tender, rich and melting.
- Ruby Red.**—A seedling raised in the Parramatta district. It is a greatly-improved Camden Superb, a cling-stone, ripe early in January.
- Triumph.**—Very large, handsome appearance, and rich flavour.

MIDSUMMER VARIETIES.

- Early Crawford.**—Very large; flesh yellow; very rich; a free-stone.
- Elberta.**—Very large, globular; flesh yellow; free-stone.
- Grand Admirable.**—Large, very firm, very juicy; cling-stone.
- *Kia-Ora.**—A seedling from Elberta. Of superior flavour; a better cropper and hardier tree.
- Muir's Perfection.**—A splendid yellow cling, very highly coloured; is a large and heavy cropper. Picked this year in the first week in January and kept for two weeks without injury.
- Powell's Beauty.**—Yellow flesh, very large; good cropper.
- Royal George.**—Large, round and even; flesh whitish, very tender and juicy; free-stone.
- Royal George Cling.**—Large, flesh whitish, firm; cling-stone.
- Shanghai Seedling, or Red Shanghai.**—A splendid form of the Shanghai.
- Shanghai.**—Of the very largest size, frequently weighing 8 ozs., oblong; flesh whitish; very rich flavour; cling-stone.
- Shanghai Freestone.**—Seedling of old Shanghai. It is a perfect freestone, as large as its parent.

LATE VARIETIES.

- *Comet.**—Large, round, with a slight point; flesh deep yellow, a little red at the stone; freestone.
- Emma.**—Fruit as large as Elberta; is marketable four to five weeks later, which should bring it on the market in February, when good freestone Peaches are not to be had.
- *Globe.**—Fruit large, quite round; tender and melting; freestone.
- Gold Dust.**—Large, solid, yellow-fleshed cling.
- *Hawkesbury Champion.**—Very fine sort in appearance
- Lord Palmerston (Pavie de Ponpoue).**—Fruit large, quite round; flesh white, tender and juicy; clingstone.
- McDevitt's Late Cling.**—Its size is enormous, good even shape, and in colour is beyond anything we have seen.
- *Nicholl's Orange.**—Fruit of large size, quite round; flesh deep yellow, rather firm; juicy; clingstone.
- Phillip (Cling).**—Come from America with a great reputation; an enormous yellow-fleshed cling, coming in when practically all other clings are over, consequently in great demand by factories, realising enormous prices; large cropper.
- Princess Royal.**—Fruit very large; flesh greenish white, firm, but melting; clingstone.
- *Pullar (Cling).**—Very fine canning Peach raised at Ardmona (Vic.). It is very large, highly coloured, clingstone, and preferred by canning factories above all others; heavy bearer.
- Red Italian.**—Free, very large, round; flesh deep yellow, fine grained, luscious; freestone.
- Red Italian Cling.**—Colour is a deep rich red.
- Yellow Italian (Cling).**—Oblong, pointed, one-sided; skin deep orange, with a thick red cheek; flesh deep yellow, firm, juicy.

Pears

1s. 6d. each; 15s. per doz.
Packing charges for long distances, 1s. per dozen.
80s. per 100, packing free. Fifty trees supplied at hundred rate.

EARLY VARIETIES.

- Clapp's Favourite.**—Fruit very large, obtuse pyriform, strongly resembling Bartlett in shape.
- Jargonelle (English).**—Fruit large, pyriform; skin smooth, greenish-yellow, brown in the sun; flesh yellowish-white, rather cross-grained. Ripens December.
- Williams' Bon Chretien (Bartlett).**—This Pear is too well-known to need description, and is largely planted for canning.

MID-SEASON VARIETIES.

- *Beurre Bosc.**—Fruit large, pyriform, tapering gradually; flesh white, melting, very buttery, with a rich flavour.
- *Beurre de Capiamont.**—Fruit medium size, long turbinate; skin smooth clear yellow, with a light cinnamon red cheek; flesh fine-grained, buttery, melting sweet.
- Fertility.**—Large fruit, brilliant colour, and high flavour; a good market variety.
- Flemish Beauty.**—Fruit very large, obtuse pyriform; skin pale yellow, reddish-brown in the sun; flesh mottled white, juicy.
- *Keiffer's Hybrid.**—Medium size, round, yellow skin, enormous bearer; ripens in April.
- Le Conte.**—Fruit very large; bell-shaped; skin remarkably smooth, of a rich, creamy yellow; flesh fine-grained, juicy, with a musky aroma.
- Louis Bonne of Jersey.**—Fruit large, oblong pyriform, a little one-sided; flesh greenish-white, very juicy and melting.
- Marie Louise.**—Fruit medium, oblong pyriform, a little one-sided; skin fine, deep, yellow; flesh white; buttery and melting.
- *Packham's Triumph.**—A greatly improved W. B. Chretien, coming later with more flavour; a good doer; strongly recommended.

WINTER VARIETIES.

- Bergamot (Gansell's).**—Fruit large, roundish, flattened; skin yellowish brown, much covered with russet.
- *Beurre Clairgeau.**—Fruit largest, with unequal sides, skin warm yellow, shaded with orange and crimson, thickly covered with russet dots; flesh yellowish, a little granular, buttery, with sugary, perfumed vinous flavour; ripens March to June.
- *Broompark.**—Fruit medium size, roundish; skin smooth, clear yellow, with a brown red in the sun; flesh whitish, very melting, rich and vinous; ripens April to May.
- Conference.**—Large pyriform; skin very smooth and shining, with occasionally a sprinkling of russet; flesh a most beautiful shade of salmon pink, very juicy and melting, with a high flavour.
- Madame Cole.**—Medium size, obtuse pyriform; skin yellow, almost covered with brown russet; dessert Pear of highest excellence.
- Packham's Late.**—Large fruit, heavy cropper.
- *P. Barry.**—Very large, elongated pyriform; skin deep yellow, nearly covered with a rich golden-yellow; flesh whitish, fine, juicy.
- Uvedales St. Germaine.**—(Large baking). Valuable for its cooking qualities, and is a heavy and constant cropper. If carefully gathered will keep right through the winter.
- Winter Bartlett (True).**—A duplicate of the well-known Williams' Pear, but ripening at least three months later. 2s.
- *Winter Cole.**—Raised from Winter Nellis, which it rather resembles, but is better than that variety; fruit medium size; flesh yellowish.
- Winter Nellis.**—Medium size; flesh yellowish-white, fine grained, buttery, and very melting, abounding with juice of a rich saccharine, aromatic flavour; a dessert fruit of highest quality.

Persimmons

2s. each; 20s. per doz.
Packing charges for long distances, 1s. per dozen.

- Dai Dai Maru.**—Fruit of the largest size, square or four-sided, rather flattened; skin deep orange; flesh yellow, almost seedless.
- Haychi Ya.**—Fruit very large, oblong, rather pointed, light red.
- Hayakume.**—Fruit very large, round, covered at the end with heavy russet; skin vermilion; flesh brown, rich and luscious.
- Tanenashi.**—This is a seedless variety, and is largely grown for market under that name.
- Yemon.**—Fruit large, with distinct ribs; skin deep yellow, with little russet; flesh orange, with no seeds.

SEARL & SONS

FRUIT TREES

SYDNEY

Plums

Worked on Seedling Myrobalan, also Peach Stocks. This most luscious fruit requires little attention and can endure more hardship as to soil and situation than most fruits. On the non-sucker-ing—(Myrobalan)—stock it forms a much harder and longer-lived tree than when worked on the peach stock.

1s. 6d. each; 15s. per doz.

Packing charges for long distances, 1s. per dozen.

EARLY VARIETIES.

- *Angelina Burdett.**—Above medium size; skin thick, dark purple, with a heavy blue bloom; flesh yellowish; a freestone.
- Black Cluster.**—A N.S.W. seedling; heavy cropper, but not of first quality; skin almost black, with a thick blue bloom.
- Cherry, or Early South American.**—Rather small, round, skin a fine lively red; flesh greenish-yellow, very juicy, with a pleasant lively flavour.
- *Diamond.**—A magnificent fruit of the very largest size, and handsome appearance; fruit oval; skin black, covered with a blue bloom; flesh deep yellow.
- Evan's Early.**—Medium size, roundish oval; skin deep purple with a violet bloom; flesh greenish, very juicy.
- Green Gage.**—The highest flavoured of all dessert Plums; fruit of medium size, round; skin yellowish-green; flesh pale green.
- President.**—Long oblong fruit, purple skin, flesh firm and sweet; freestone; highly recommended.
- *The Czar.**—Large oval, skin quite black, with a heavy violet bloom; flesh yellow, tender, juicy, rich, of excellent flavour.
- Yellow Diamond (English).**—A sport of the Diamond Plum. Instead of dark purple it is a clear yellow colour.

LATE VARIETIES.

- *Coe's Golden Drop.**—Large; skin light yellow; flesh yellow, firm, rich, sweet and delicious, and making a splendid prune when dried; a close clingstone.
- Coe's Late Red.**—Of medium size, nearly round; skin light purplish-red, with a thin blue bloom; flesh yellowish, rather firm, juicy, rich and vinous; a freestone.
- Golden Transparent.**—Fruit large, bright golden when ripe; late
- *Grand Duke.**—Large, almost oval, narrowing to the stem, with a neck; skin purplish-black, with a heavy bloom; flesh deep yellow, firm, very rich and juicy.
- *Jefferson.**—Largest size, oval, slightly narrowing to the stalk; skin golden yellow, with a purplish-red cheek, covered with a white thin bloom; flesh deep orange.
- King Damsons.**—Fruit of largest size, exceptional quality and striking appearance; tree very productive; medium.
- Loutherboro.**—Large, roundish oval; skin almost black, with a deep violet bloom; flesh yellowish, firm.
- *Magnum Bonum (White Egg).**—Very large, frequently six inches in circumference; oval, narrowing to both ends; skin of deep golden colour, with white dots; flesh yellow; clingstone.
- *Magnum Bonum (Red).**—Large, oval, a little swollen on one side, skin rather pale in shade, deep red in the sun; flesh greenish, rather firm, juicy; a freestone.
- Pond's Seedling.**—Very large, oval, tapering to the stalk, with a distinct neck; skin yellowish, nearly covered with carmine, and a few brownish dots; flesh yellowish, a little coarse, but juicy and sugary; a beautiful Plum.

Japanese Plums

1s. 6d. each; 15s. per doz.

Packing charges for long distances, 1s. per dozen.

- Abundance (Botan).**—Fair to large size, always pointed; skin brilliant carmine all over; stone like a cherry; flesh thick, yellow, very juicy, of fair flavour; clingstone.
- Burbank.**—Largest size, round; skin deep yellow in the shade, clear cherry-red in the sun, with a hazy lilac bloom; clingstone.
- Climax.**—Raised by Luther Burbank. The earliest Plum grown; delicious flavour; ripens before any other good Plum.
- Combination.**—Raised by Burbank. Large, globular, very uniform in size, extremely sweet.
- Federation.**—A cross between "Burbank" and "Wickson." The fruit, in size, shape, and colour, resembles the "Wickson," and in growth the tree is like an upright-growing "Burbank." It is quite as productive as "Burbank." Ripe second week in February.
- Gold.**—In appearance a marvel of beauty, the golden globes being borne all along the limbs, not in clusters, but singly; in colour clear, deep golden; flesh very firm; juicy, of fair flavour.
- Hale (True).**—Large; bright orange, mottled with cherry-red; superb in quality; flesh yellow, soft and juicy; cling; very late.

Kelsey.—Perhaps the best known of all this class; fruit very large, heart-shaped, with an elongated apex; skin fine clear yellow, covered with bright red in the sun; flesh deep yellow; a partial clingstone; ripens March.

October Purple.—Fruit large, quite round, skin deep purple, almost black; flesh yellow, very thick, juicy, with a distinct and quite new flavour.

Ogon (Large Yellow).—Large size, quite round; skin rich deep amber all over; flesh very yellow, firm, almost transparent, with a splendid flavour; a clingstone; ripens January.

Plumcot.—A cross between a blood plum and an apricot; fruit large; tree a vigorous grower; fruit retains all good qualities of both parents, being of a distinct apricot flavour, and being a perfectly-formed blood plum; well worth a place in any collection if only on account of its great beauty.

Rubio.—Flesh deep crimson, being one of the best bloods; skin clear yellow covered with bright crimson; altogether in appearance and quality one of the best; as an early shipper hard to beat; splendid cropper.

Santa Rosa.—The very best plum ever produced, being even better than Burbank or Wickson; fruit a deep purplish-crimson, averaging six inches in circumference each way; skin clear golden covered with purple; flesh firm and of excellent flavour; a distinct blood; good grower and bearer.

Satsuma (Blood).—There are two varieties of Blood Plums. This, the true Satsuma, is, we think, the better fruit. Fruit medium size, round; flesh dark red.

Shiro.—Medium to large, uniform in size, clear light yellow, with thin white bloom; firm and juicy; clingstone.

Wickson.—Of largest size, exceeding Kelsey growing beside it. On 1st February showing flushings of colour, and then quite saleable, but during third week it reaches perfection.

Wright's Early.—A very early plum, heavy and constant cropper

Wright's Late.—The fruit is of a large size, with deep red flesh, and the stone is no larger than that of a cherry. It is of honeyed sweetness and has a decided vinous flavour.

Prune Plums

1s. 6d. each; 15s. per doz.

Packing charges for long distances, 1s. per dozen.

This list is specially recommended as giving the best varieties for drying for prunes.

Bulgarian.—Of largest size, roundish oblong; skin deep purple, with a thick heavy blue bloom; flesh yellowish, firm.

Fellemborg or Italian Prune.—Medium to large, long, oval; skin dark purple covered with a dense blue bloom; a clingstone.

Giant.—Its size is not its only good quality; it is equally as heavy a bearer as the Prune d'Agen; fruit uniform in size, with a honey, yellow flesh.

***Golden Prune.**—Very large, roundish oval; skin thin, tough; of a beautiful golden colour; flesh yellow, very rich and sugary, of exquisite flavour; dries beautifully; splendid for canning; freestone.

Pacific.—For marketing in the fresh state it is quite without a rival; its size and appearance always placing it easily first.

***Prune d'Agen (French Prune).**—This prune is almost exclusively used in France for drying; medium size.

***Robe de Sergeant.**—Very like Prune d'Agen in every way.

***Splendor.**—This is Burbank's best in the prune line; can best be described as Prune d'Agen, but three times its size.

***Sugar.**—Fruit even in size, large; rich in sugar, hence its name.

***Tragedy.**—A Californian variety. Fruit very large, oblong, pointed, skin thick, deep purple, with a heavy bloom; flesh yellow, rich in sugar; a freestone.

Passion Fruit

Passiflora Granadilla.—2s. each.

Passiflora Edulis.—The well-known Passion Fruit. 9d. each; 7s. 6d. per dozen.

Tacsonia Mollissima (White Passion Fruit).—1s. each.

Quinces

1s. 6d. each; 15s. per doz.

Apple-Shaped.—Fruit large, roundish, like an apple. For stewing it is unrivalled; in colour a deep, fine gold.

Berecki.—A fruit of enormous size, flesh sweet, skin glossy, golden-yellow, smooth, very prolific even on young trees.

Bourgeat.—Very large; rich golden-yellow; smooth, velvety skin; beautiful, large foliage; quite distinct.

Champion.—A splendid new American variety; fruit very large and handsome; flesh tender with a very delicate flavour; a splendid keeper, and carries well.

Fuller.—A regular bearer and strong grower; fruit ripens early; large size; bright lemon-yellow; high flavour.

SEARL & SONS

FRUIT TREES

SYDNEY

QUINCES—Continued.

Giant of Lescovaz.—A new Quince imported from France; the fruit often attaining up to 3½ lbs., flesh white, does not turn red when cooked; tree very prolific.

Missouri Mammoth.—Fruit enormous size, of very even outline, mild, pleasant flavour; and unsurpassed for cooking.

Pear-Shaped.—Skin pale yellow; very firm in texture, and not so bright in colour when cooked as some varieties.

Pineapple.—The name comes from its flavour, which is suggestive of pineapple.

Portugal.—The largest of all Quinces. For stewing it is unrivalled, turning a deep, rich crimson, oblong; skin much paler yellow than any other.

Beas Mammoth.—Of similar appearance to the Orange Quince, but averaging one-third larger; fruit round, very smooth and handsome; a very early bearer; flesh tender, mild.

Zucker (Sugar).—Introduced from Asia; fruit very sweet, excellent when preserved.

Mulberries

Some of the free-growing varieties are very suitable for planting for shelter trees.

2s. each; 18s. per dozen; except where otherwise priced.
priced.

Black English.—The best variety; very long lived; very scarce. 2s. 6d. to 3s. 6d. each.

Cape.—Useful for shelter, fruit useful for culinary purposes.

Downing's Everbearing.—Fruit large; an agreeable flavour.

Hick's Fancy.—Fruit of large size; very juicy.

Nectarines

1s. 6d. each; 15s. per doz.

Packing, 1s. per dozen.

Albert Victor (F.M.).—Skin yellowish-white.

Camden Superb (F.).—Strongly resembles Stanwick, but excels it in size, and is almost free from the cracking.

Cardinal (F.M.E.).—Its earliness should make it a valuable variety for the orchardist.

Cooza.—This magnificent Nectarine, grown in the Cumberland district, should prove a veritable gold-mine to fruitgrowers. Coupled with its colour and size it is a splendid variety—one we can highly recommend. Fruit is 9 inches in circumference; very vigorous grower; fruit is ripe mid-January.

Early Rivers (F.I.E.).—Earliest Nectarine; flesh tender; juicy.

Elruge (F.M.).—Skin greenish, dotted with red in the shade, with a rich red blush.

Fertile du Poitou.—Enormous fruit for a Nectarine, attaining about 8 inches round; skin smooth, yellow ground, marbled with purple red, and entirely red on the sunny side; flesh white, very fine, juicy, sugary, aromatic, free-stone.

Goldmine (F.I.L.).—Skin nearly all covered with bright bronzy-red; flesh beautiful cream-colour; juicy and sugary.

Hunt's Tawny.—Skin yellowish, with a deep purplish cheek in the sun; flesh orange, deep red at the stone; juicy.

Irrewarra (F.E.).—Fruit medium, highly coloured; splendid.

Lady Carrington (C.M.).—With a thick juicy flesh.

Meek's Scarlet.—Large heavy cropper; good colour; free, mid-season.

New Boy (F.).—Large; brilliant crimson; flesh white, juicy.

Stanwick (L.).—Large size; very juicy; high flavour.

Zealandia.—New Zealand origin. Fruit very large, rich red; classed as of the very best, and is the largest New Zealand fruit; appearance similar to a highly-coloured Peach; tree vigorous and spreading; highly recommended; medium.

Nothing pleases us better than placing
you on the right track.

Nothing should please you better than
being able to confide in us.

Fruiting Olives

The varieties we supply are those cultivated in South Australia as best suited for oil-producing and pickling.

2s. 6d. each; 27s. 6d. per doz.

Nuts, Filberts, etc.

ALMONDS

1s. 6d. each; 15s. per doz.

Brande's Jordan.—Bearing large sweet nuts of the Papershell class, and parting readily from the husk; easily prepared for market.

Burbank Seedling.—It is reputed to be a hardy and heavy cropper, blooming very late in the spring, consequently escaping the damage so often caused to this crop by the late frost. Highly recommended.

Golden State.—A heavy and regular bearer, with a soft shell.

Hatch's Nonpareil.—Very fine, large kernel, very thin shell. The shell is the thinnest we know of, losing very little weight after being shelled.

I.X.L.—A sturdy, upright grower, with large foliage; nuts large, with, as a rule, single kernels; soft shell.

Large Papershell.—A variety of common Papershell, but much larger; shell very tender; kernel large, white, and sweet.

CHESTNUTS

Japanese Giant Chestnut.—Fruit three times the size of Spanish, and coming into bearing at a very early age. 3s. each; 30s. per doz.

Spanish.—The well-known sweet Chestnut, bearing its fruit in burrs; a splendid shade tree; bears about the sixth year after planting. 2s. each; 20s. per doz.

Gardening advances the health, the
happiness, and wealth of the people.

FILBERTS

2s. each; 20s. per doz.

Frizzled.—Nut of medium size, oval, compressed; husk hairy, deeply cut; shell thick; kernel sweet and good.

Red.—Remarkable for the crimson skin of its kernel; nut of medium size, ovate; shell thick.

WALNUTS

2s. 6d. each; 27s. 6d. per doz.

Chaberte.—A large French variety; very productive; excellent for dessert.

Juglans Cordiformis.—Of Japanese origin. The nut is flat or heart-shaped; shell very thin, smooth, not furrowed; kernel deliciously sweet.

Juglans Regia.—The English or Persian Walnut; a most handsome shade tree, and deserves planting on that account.

Juglans Seiboldii.—A Japanese variety; very hardy, and a very handsome tree; bears while young; nuts produced in clusters.

Small or Berry Fruits

GOOSEBERRIES

(STANDARD SORTS).

1s. each; 10s. per doz.; 75s. per 100.

Conquering Hero.—White.
Crown Bob.—Red.
Ploughboy.—Red.
Roaring Lion.—Red.
Whinham's Industry.—Red.
White Lion.—White.
Yellow Lion.—Yellow.

BLACKBERRIES

English.—Fine large fruit, good flavour. 9d. each
Himalayan.—Excellent fruit, fine foliage. 1s. 6d. each

LOGAN BERRIES

The Logan Berry.—The fruit is sometimes an inch and a quarter long, the shape of a blackberry, the colour of a dark raspberry, and a combination of the flavours of both. 1s. each; 9s. per doz.

CURRENTS

1s. each; 10s. per doz.; 75s. per 100.

RED AND WHITE CURRENTS.

La Versailles.—A very free-growing, productive variety of the finest flavour; fruit of the largest size; deep, dark red.
Red Imperial.—A new variety of great merit; fruit large; bright, clear red; bunches early.
White Imperial.—Fruit as large as White Dutch; clearer.
White Transparent.—Fruit very large; yellowish-white; very clear.

BLACK CURRENTS.

Black Naples.—Berries nearly three-quarters of an inch in diameter.
Carter's Black Champion.—The bunches are large, produced in clusters; berries very large, jet black, and richly flavoured.

RASPBERRIES

A really useful fruit, and of easy cultivation. 6d. each; 5s. per doz.; 35s. per 100.

Antwerp Red.—Large and fine flavour.
Antwerp White.—Large, mild, sweet flavour.
Golden Queen.—Abundant bearer.
Northumberland Fillbasket.—Deep red, good size and flavour.

STRAWBERRIES

STRAWBERRIES should be planted in rows 2 feet apart, and each plant 15 apart in the rows.

1s. per doz.; 5s. per 100; except where otherwise marked; £2 per 1000.

Annetta.—A Queensland seedling. Fruit large. 10 to 16 to the quart; bright shining red; of delicious flavour; in shape somewhat square, without the Marguerite point.
Ettersburgh No. 80.—The best commercial market strawberry. A beautiful berry, usually almost globular and of high quality. 3s. 6d. per doz.; 20s. per 100.
Federation.—One of the largest strawberries in cultivation; sure cropper, and very hardy; will stand the drought better than any other variety; colour very bright red; flesh white and of good flavour.
Marshall.—A magnificent berry, bearing large and regular crops from September to July; this can be termed the "king of winter strawberries"; berries are very large, deep crimson, borne in clusters clear of the soil; a great acquisition.
Malakoff.—A magnificent berry, being almost round; dark, plum-red colour; wonderfully rich flavour. 1s. 6d. per doz.; 7s. 6d. per 100.
Marguerite.—The best market variety grown; fruit large, of good appearance and excellent flavour; prolific bearer.
Phenomenal.—A very early variety; large fruit, splendid flavour and colour; strong grower. 1s. 6d. per doz.; 7s. 6d. per 100.
Royal Sovereign.—In colour a bright glossy scarlet, colouring well to the point; flesh white, exceedingly firm, with a rich, vinous flavour.
The Creswell.—A magnificent berry, well suited to warm districts where it is a most prolific cropper. Fruit very large, of a bright glossy red colour; extra strong plants.
Searl's Perfection.—Splendid cropper, deep red flesh; of exceptional size. 1s. 6d. doz., 7s. 6d. 100.

Four Sterling Vegetable Seed Novelties

NEW BUTTER BEAN (Dwarf).

"Kelway's Improved Golden Podded Butter."

Beautiful golden pods, wonderful yielder, and of excellent flavour. Price 6d. per Pkt.

NEW FRENCH BEAN (Dwarf).

"Kelway's Longport Wonder."

A most productive cropper, perfectly stringless and earlier than any other dwarf bean, flavour superb. Price 6d. per Pkt.

TOMATO.

"Kelway's Eldorado."

A beautiful new table variety of exceptional merit, fruit medium, well shaped, excellent bearer and possessing a most delicate flavour. Price 6d. per Pkt.

ONION.

"Kelway's Victoria Cross."

The highest type of yellow exhibition long-keeping Onion, an excellent variety for the home garden. Large, shapely and mild. 6d. per Pkt.

All the above are Post Free and carry our Special Recommendation.

IMPORTANT

We feel it our duty to again emphasize the importance of our customers attaching not only their name and full address to all orders, but advising us regarding the speediest and safest route when ordering fruit trees or any perishable plants, thereby minimising any risk incurred through lengthy transit.

SEARL'S FLORAL DEPARTMENT

All our Floral Work is under the guidance of Artists who have had very exceptional experience, and we venture to say that the very complimentary testimonials we frequently receive prove it to be as near perfection as possible

POST OR TELEGRAPH ORDERS are executed immediately on receipt. Cash must accompany orders by post from new customers. When remitting, always allow extra for special boxes. All telegrams should be addressed SEARL'S, SYDNEY.

Packing is good and ensures arrival in good order.

Searl's Bridal, Ball, Shower Posies and other Floral Designs.

GARDEN LINES.—Strong. 1s. 6d. each.

GARDEN FORKS AND TROWELS.—1s. 6d. each.

GARDENING GLOVES.—Extra good, from 2s. per pair.

GENT'S GAUNTLETS (Imported).—Strong leather; splendid for hedge cutting. 3s. 6d. per pair.

MOSS, SPHAGNUM.—For filling baskets, etc. 6d. per lb., 5s. per bushel.

INSECTICIDES & FUNGICIDES

For Destroying INSECT PESTS and FUNGOID DISEASES

Arsenate of Lead

In handy powder form, more easily handled than the paste.
3s. per lb. (postage extra).

The best remedy for Codlin Moth and all leaf-eating insects. It sticks on and rain will not wash it off. Can be safely handled, and without danger to man or beast.

Fungicide

Unsurpassed as a remedy for preventing mildew, black-rot, and other fungoid diseases on potatoes, tomatoes, vines, roses, and other plants. 1s. 6d. lb. (postage extra).

Harola Lime-Sulphur Solution

1s. 2d. per pint, 1s. 6d. per quart (postage extra).
Special quotations for larger quantities.

The finest Winter spray for fruit trees, etc. Cleanses the trees of moss, lichens, blight, scale, and all fungus diseases.

Nikoteen

Sufficient to make 5 gallons of wash per bottle, 1s. 6d.
Sufficient to make 10 gallons of wash per bottle, 2s. 6d.
Sufficient to make 20 gallons of wash per bottle, 4s.

Certain death to aphids, and all other insect pests; harmless to plant life. Directions on each bottle.

Harbas

Absolutely the most reliable spraying solution for all classes of scale disease, and carrying our special recommendation. 4-gal. tins 19s., 2-gal. 11s., 1-gal. 5s. 9d., 1/2-gal. 3s. 9d., 1-quart 2s. 6d., 1-pint 1s. 9d. (carriage extra).

Dedant

An invaluable preparation for destroying ants of all descriptions. Simple to use and deadly in effect. 1s. per bottle (postage extra).

Spray Pumps—Hand Vaporisers

Tin.—3s.; post free, 4s. Brass.—6s.; post free, 7s.

GARDEN FERTILISERS

Blood Manure

This is a splendid manure, one we use ourselves very extensively in our own Nurseries. We can highly recommend it for top-dressing lawns. 15s. per cwt.; 28 lbs., 4s. 6d.; 5 lbs., 1s. Carriage extra.

Searl's Special Rose Fertiliser

This manure is specially prepared, and will give your roses that food which they require to produce a healthy robust growth, which must precede good quality and abundance of flowers. Apply the rose fertiliser in September and again in February, at the rate of a good handful to the square yard around each plant, and lightly fork into the soil. Do not spread the fertiliser too near the stem, as the active roots are more nearly about the area of the outside circle of the bush to within a foot of the stem. 5 lbs., 1s.; 28 lbs., 4s. 6d.; 1 cwt., 15s. Carriage extra.

General Fertilizers

We will supply any of the leading lines at ruling market rates.

Shirley's No. 9

A good all-round manure for garden and bush-house use. 1s. 3d. per tin; carriage extra.

Sulphate of Ammonia

This fertiliser is used principally for killing weeds on lawns and promoting the growth of grass. 1 lb. to 2 gallons of water is a fair strength, and 2 oz. to 2 gallons water for Chrysanthemums and Stocks and other flowering plants to bring the blooms to perfection. 1s. per packet; carriage extra.

Nitrate of Soda

A most effective and useful fertiliser for both vegetables and flowers; a quick-acting manure. Price on application.

SPECIALISTS IN LANDSCAPE GARDENING

Plans, Estimates and Specifications given for planting, either large or small gardens, rose, rock or hardy old-fashioned gardens. Our experience and knowledge is at your service.

This is a very important subject, and one that should not be neglected or overlooked, especially when building up a new place.

It means that with a good plan you can lay out your place to all the advantages it commands naturally, besides making the developing feature where the location is disadvantageous. The drives and walks should be laid out, not only to be practical, but also to be in harmony with everything adjacent.

As we combine both theoretical and practical knowledge, our patrons will find it greatly to their advantage to place the improvement of their grounds in our hands, as they will profit by our large experience in the economical and practical treatment of the work.

Next to the plants, the most important thing is the specifications; that is, the selection of the kind of stock to be used for the ornamentation of same, and it is especially here where the value of a practical landscape gardener is felt. While a good many people without practical knowledge can draw acceptable plans, yet it is only the practical man that can make the selection of the stock, knowing its habit, its ultimate height and development, also the adaptability of the soil, climate, etc., as no two places can be treated alike.

We make a specialty, and carry in stock all plants for this kind of work, and being practical men, thoroughly acquainted with the habits, height, colour, different growths and flowering periods of these plants, we are in a position to intelligently make plantings where an immediate effect is produced and the future not marred.

There is nothing more unsightly than a mass of planting done haphazard; where, instead of a plant being placed in a position to help or harmonize with others, they are planted together irrespective of their growth and colour or height.

We would be pleased to hear from parties contemplating improvements on their places, be they old or new, and will furnish advice, submit plans and specifications for same, carrying out and completing the work in a satisfactory manner, thus avoiding costly and irreparable mistakes that would be committed without proper advice.

WHAT CUSTOMERS SAY

Concerning our Goods and Attention

(UNSOLICITED PRAISE)

ROSES

The parcel of Roses arrived safely and opened up very satisfactory.

I must thank you for the care you must have taken in packing them; they are all shooting and look splendid.

They were exactly what I ordered.

MRS. CLANSON.

"Hesstina," Victoria St., Taree.

SEEDLINGS

The small parcel of seedlings arrived to-day and I am very pleased indeed with them; they are just the right size and look so fresh and beautiful. Thank you for sending them so faithfully. I ought to have every success with such good sturdy seedlings.

E. M. HUDSON.

W. Maitland, 15/10/18.

ASTERS

The Aster seeds which I had from you last year produced the best blooms I have seen, and was very pleased with other seeds also.

MISS E. TONKIN.

Gladstone, Macleay River, 22/8/18.

BOUVARDIAS

The Bouvardias which I got from you early in summer are coming along tip top. In fairness to you I may add that I am well satisfied with Bouvardias supplied by your firm on previous occasions. I will be looking out for some more this summer; they are still in bloom.

F. S. NEWING.

Albion St, Harris Park, 5/6/18.

STOCKS

Last April I purchased one of your 1s. packets of 10-Week Double Stock, and I am delighted with the result. I have 51 plants, and only 9 single ones of the 51, and there are 14 distinct colours; they are the admiration of all my friends.

MRS. W. HEPPERMAN.

"Hillview," Menangle.

CUT FLOWERS

I must express my satisfaction for the nice and very prompt attention to my order, the sprays arriving as tho' just plucked from the tree; so fresh and beautiful.

MRS. J. H. CURNON.

Warwick, Q'sland, 16/11/17.

CARNATIONS

Please accept my warm thanks for Carnations. They reached me in splendid condition, and will, I am sure, do well.

BERTHA COADY

"Elpis," High St., Carlton, 2/4/19.

DAHLIAS

On opening Dahlias I was very pleased indeed with the packing and condition of plants; they have opened up splendidly.

F. T. GOODMAN.

Portland, 7/12/18.

PLANTS

While in Sydney, just before Easter, I had a bundle of strong, healthy plants from you; they have done remarkably well, and are the finest I have ever seen. The colours are beautiful, and they are fine large blooms and are much admired.

MRS. W. E. BIRD.

"Kendall," Camden Haven.

FRUIT TREES

Plants arrived in good order, and out of four different lots of fruit trees supplied by you I have never had one fail to grow.

C. A. DENMAN.

Mackay, Q.

FERNS

If ever you happen to come up this way I hope to have the opportunity of showing you my bush-house.

I bought these ferns from you about two (2) years ago and the growth has been wonderful.

L. C. WOOLEYCH.

Townsville, Q'sland.

TOMATOES

Re Walker's Selected Recruit Tomato. I grew these from seed last year; the flavour and yield were all that you said they were.

F. H. DOWELL.

U. Stores, Braidwood, 7/10/19.

FLORAL

The flowers reached me this morning before your letter. It gives me much pleasure to say that their condition is absolutely perfect after the 800 miles journey; one would think they had just been picked.

F. W. ROBSON.

Elsmore.

POTATOES

The seeds to hand. Enclosed please find P.M. for same. I must say that those up-to-date potato seeds were bonza.

For a season like we have had I consider them just marvellous. I put them in on 9th September, and I dug them last week end. I weighed the potatoes—a few of them—and they went from 7½ to 16½ lbs. to each plant. The season has been dead against them, but they have turned out the real "McGuinness."

P. L. RUSSELL.

Avon Road, Pymble, 21/11/18.
